## NEW OUT FROM RCPsYCH PUBLICATIONS

### International Perspectives on Mental Health

Edited by Hamid Ghodse

*International Perspectives on Mental Health* is a unique collection of authoritative briefings from over 90 countries around the world. Each chapter covers a particular country's demographics, mental health resources, undergraduate education, postgraduate training in psychiatry, research activities, mental health legislation, and policy and development strategies.

Each chapter is written by experienced local senior practitioners who have intimate knowledge of all aspects of psychiatry, including workforce, policy and delivery models. They offer a wealth of information as well as critical examination and evaluation of service development. The chapters were originally commissioned, reviewed and edited prior to publication in the Royal College of Psychiatrists' journal *International Psychiatry*.

There is a growing recognition of the cultural aspects of psychiatric practice in different regions, and in today's globalised society many health professionals have interests that cross geographical boundaries. This is the first book of its kind that will meet the needs of this diverse group of readers.

June 2011, hardback, 512 pages, ISBN 978-1-908020-00-0, price £40.00  
(RCPsych members' price: £36.00)
