

# The American Journal of Psychiatry

Contents August 2015, Volume 172

## Editorials

- 697 **Clinically useful genetic markers of antidepressant response: how do we get there from here?**  
Francis J. McMahon
- 700 **A new role for clonidine in addictions: catching relapses before they happen**  
Harriet deWit
- 702 **Gene and environment interactions in the brain: a pathway to ADHD?**  
Philip Shaw
- 704 **Amygdala on the lookout**  
Sohee Park and Megan Ichinose

## Commentaries

- 706 **Ethics, interrogation, and the American Psychiatric Association**  
Paul Summergrad and Steven S. Sharfstein
- 708 **Are we turning our backs on our patients? Training psychiatrists in the era of the electronic health record**  
Sonya Rasminsky *et al*

## Introspections

- 710 **John and Alicia Nash: a beautiful love story**  
Nancy C. Andreasen

## APA Presidential Addresses

- 714 **The long view**  
Paul Summergrad
- 717 **Response to the Presidential Address**  
Renee Binder

- 719 **Paul Summergrad, MD, 141st President, 2014–2015**  
Randy S. Glassman

## Treatment in psychiatry

- 721 **Integrating primary care and behavioral health: the role of the psychiatrist in the collaborative care model**  
Lori E. Raney

## Images in psychiatry

- 729 **Goldwater v. Ginzburg**  
John Martin-Joy

## Reviews and overviews

- 731 **Pharmacological management of Lewy body dementia: a systematic review and meta-analysis**  
Chris Stinton *et al*

## New research – articles

- 743 **Depression subtypes in predicting antidepressant response: a report from the iSPOT-D trial**  
Bruce A. Arnow *et al*
- 751 **ABCB1 genetic effects on antidepressant outcomes: a report from the iSPOT-D trial**  
Alan F. Schatzberg *et al*
- 760 **Clonidine maintenance prolongs opioid abstinence and decouples stress from craving in daily life: a randomized controlled trial with ecological momentary assessment**  
William J. Kowalczyk *et al*
- 768 **Brain correlates of the interaction between 5-HTTLPR and psychosocial stress mediating attention deficit hyperactivity disorder severity**  
Dennis van der Meer *et al*
- 776 **Thirty-day mortality after infection among persons with severe mental illness: a population-based cohort study in Denmark**  
Anette Riisgaard Ribe *et al*
- 784 **Amygdala hyperactivity at rest in paranoid individuals with schizophrenia**  
Amy E. Pinkham *et al*
