

CALL FOR ABSTRACTS

1995 ANNUAL MEETING OF THE INTERNATIONAL EMBRYO TRANSFER SOCIETY

8-10 January; Calgary, Alberta, CANADA

Free communications will be presented as posters, abstracts of which will be published in the January, 1995 issue of THERIOGENOLOGY.

Topics of the invited papers include application of reproductive technologies in wild, exotic or endangered species, exogenous control of ovarian function, genetic implications of embryo transfer technology, international embryo movement, implications for commercial embryo transfer, future applications of ultrasonography, and review of in vitro fertilization in humans and cattle.

The **firm deadline** for receipt of the abstract (original and three photostatic copies) is **15 August 1994**. Fax copies will not be accepted.

Abstract forms and instructions as well as information about the **student competition and travel awards** may be obtained from:

Mr. Carl Johnson
International Embryo Transfer Society
309 W. Clark St., Champaign, IL 61820 USA
Telephone: 001/217-356-3182; Fax: 001/217-398-4119

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.
- b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.
- c) Colour plates are unlikely to be accepted unless the authors bear the cost.

Tables should be as simple and as few as possible. Each table should be typed on a separate sheet.

Abstract. Every paper should have a short abstract (not more than 250 words for a paper and 120 words for a note) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

Keywords. Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

References. Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Production*; details are given in the notes for guidance.

Proofs are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

Reprints. Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage. Reprints are not supplied for notes.

Annual subscription is £130.00 (or \$240.00 in the USA and Canada) and the price for a single part is £22.00 (or \$40.00) net.

Abstracts of papers presented at British Society of Animal Production winter meeting are published as a separate section in the June issue of *Animal Production*.

Correspondence regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

C. L. Johnson, University of Leeds
I. J. Lean, Wye College, University of London
C. A. Morgan, Scottish Agricultural College, Edinburgh
J. D. Oldham, Scottish Agricultural College, Edinburgh
E. Owen, University of Reading
A. J. F. Webster, University of Bristol
J. D. Wood, University of Bristol
J. A. Woolliams, AFRC Roslin Institute, Edinburgh

Technical editors

Hilary Davies
Marie C. Pitkethly

Notes to users in the USA. The appearance of the fee codes in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use on the following conditions. The copier must pay the stated per-copy fee through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970, USA, for copying beyond that permitted by sections 107 and 108 of the US Copyright Law. For territories outside north America, permission should be sought direct from the copyright holder. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising and promotional purposes, for creating new collective works or for resale.
