December, 1917

THE JOURNAL OF HYGIENE

EDITED BY

GEORGE H. F. NUTTALL, M.D., PH.D., Sc.D., F.R.S.

QUICK PROFESSOR OF BIOLOGY IN THE UNIVERSITY OF CAMBRIDGE

IN CONJUNCTION WITH

JOHN S. HALDANE, M.D., LL.D., F.R.S.,
Late Reader in Physiology in the University of Oxford.

CHARLES J. MARTIN, M.B., D.Sc., F.R.S.,
Director of the Lister Institute, London.

J. C. G. LEDINGHAM, M.B., D.Sc.,
Bacteriologist-in-Chief, Lister Institute, London.

G. S. GRAHAM-SMITH, M.D.,
University Lecturer in Hygiene, Cambridge.

M. GREENWOOD, JUNR., M.R.C.S.,
Statistician, Lister Institute, London.

Volumes already Published

- THE EVOLUTION OF SEX IN PLANTS.** By JOHN MERLE COULTER. x + 140 pages, 12mo, cloth; 4s net.
- INDIVIDUALITY IN ORGANISMS.** By CHARLES MANNING CHILD. x + 212 pages, small 12mo, cloth; 5s net.
- THE ORIGIN OF THE EARTH.** By THOMAS C. CHAMBERLIN. xii + 272 pages, small 12mo, cloth; 6s net.
- FINITE COLLINEATION GROUPS.** By HANS F. Blichfeldt. xii + 194 pages, small 12mo, cloth; 6s net.
- A CHEMICAL SIGN OF LIFE.** By SHIRO TASHIRO. ix + 142 pages, small 12mo, cloth; 4s net.
- THE BIOLOGY OF TWINS.** By HORATIO HACKETT NEWMAN, Associate Professor of Zoölogy and Embryology in the University of Chicago. x + 186 pages, 12mo, cloth; 5s net.
- FOOD POISONING.** By EDWIN OAKES JORDAN, Professor of Bacteriology and Chairman of the Department of Hygiene and Bacteriology in the University of Chicago. viii + 116 pages, 12mo, cloth; 4s net.
- THE ELECTRON: Its Isolation and Measurement, and the Determination of Some of Its Properties.** By ROBERT ANDREWS MILLIKAN, Professor of Physics in the University of Chicago. xii + 268 pages, 12mo, cloth; 6s net.

Volume in Preparation for Early Publication

- A FACTORIAL THEORY OF EVOLUTION.** By WILLIAM LAWRENCE TOWER, Associate Professor of Zoölogy in the University of Chicago.

Volumes Planned or in Preparation

- THE EVOLUTION OF REPTILES.** By SAMUEL WENDELL WILLISTON.
- THE LIVING CYCADS.** By CHARLES JOSEPH CHAMBERLAIN.
- MECHANICS OF DELAYED GERMINATION IN SEEDS.**
By W. CROCKER.
- THE RIGIDITY OF THE EARTH AND OF MATERIALS.**
By A. A. MICHELSON.
- THE PROBLEM OF FERTILIZATION.** By FRANK R. LILLIE.
- LINEAR INTEGRAL EQUATIONS IN GENERAL ANALYSIS.** By ELIAKIM HASTINGS MOORE.

THE CAMBRIDGE PUBLIC HEALTH SERIES

Under the Editorship of

G. S. GRAHAM-SMITH, M.D., AND J. E. PURVIS, M.A.

The Causes of Tuberculosis. By L. COBBETT, M.D., F.R.C.S., University Lecturer in Pathology, Cambridge. Demy 8vo. With 23 plates and 8 diagrams. 21s. net. (See also next page.)

Occupations from the Social, Hygienic, and Medical Points of View. By Sir THOMAS OLIVER, M.A., M.D., LL.D., D.Sc., F.R.C.P., Professor of the Principles and Practice of Medicine, University of Durham. Demy 8vo. 6s. net.

The Chemical Examination of Water, Sewage, Foods and other Substances. By J. E. PURVIS, M.A., University Lecturer in Chemistry and Physics as applied to Hygiene and Public Health, Cambridge, and T. R. HODGSON, M.A., Public Analyst for the County Boroughs of Blackpool and Wallasey. Demy 8vo. 9s. net.

The Bacteriological Examination of Food and Water. By WILLIAM G. SAVAGE, B.Sc., M.D., D.P.H., County Medical Officer of Health, Somerset. Second edition. Demy 8vo. With 16 illustrations. 8s. net.

Sewage Purification and Disposal. By G. BERTRAM KERSHAW, M.Inst.C.E., Consulting Engineer, Engineer to the Royal Commission on Sewage Disposal. Demy 8vo. With 4 tables and 56 text-figures and plans. 12s. net.

Post-mortem Methods. By J. MARTIN BEATTIE, M.A., M.D., Professor of Bacteriology, University of Liverpool. Demy 8vo. With 8 plates and 3 text-figures. 10s. 6d. net.

Isolation Hospitals. By H. FRANKLIN PARSONS, M.D., D.P.H., formerly First Assistant Medical Officer of the Local Government Board. Demy 8vo. With 55 text-figures. 12s. 6d. net.

Infant Mortality. By HUGH T. ASHBY, B.A., M.D., B.Ch. (Camb.), M.R.C.P. (London). Demy 8vo. With 9 illustrations. 10s. 6d. net.

Flies in Relation to Disease. Bloodsucking Flies. By EDWARD HINDLE, B.A., Ph.D., Assistant to the Professor of Biology, Cambridge. Demy 8vo. With 88 text-figures. 12s. 6d. net.

Flies in Relation to Disease. Non-Bloodsucking Flies. By G. S. GRAHAM-SMITH, M.D., Lecturer in Hygiene in the University of Cambridge. Demy 8vo. Second edition, revised and enlarged. With 27 plates, 32 text-figures and 20 charts. 12s. 6d. net.

A list of volumes in preparation will be sent on application

THE CAUSES OF TUBERCULOSIS

TOGETHER WITH SOME ACCOUNT OF THE PREVALENCE
AND DISTRIBUTION OF THE DISEASE

By

LOUIS COBBETT, M.D., F.R.C.S.

University Lecturer in Pathology, Cambridge

Cambridge Public Health Series. Demy 8vo. Pp. xvi + 708

With 23 plates and 8 diagrams. Price 21s net

"Such a work as Dr Cobbett's supplies a want, containing as it does the cream of modern knowledge on the subject of tuberculosis, presented in a form which is at once interesting and convincing. A full index and a concise summary of each section of the subject under discussion, renders it easy of reference. The photographic illustrations of the disease in various types of animals are excellent, and add considerably to the practical usefulness of the whole treatise."—*British Medical Journal*

"A volume which is rich in material, and one which every physician and surgeon cannot fail to profit by. It is seldom, indeed, that we have so much of real practical, everyday value from the pen of a pathologist....The book is one which will be found of very special assistance to every medical practitioner....A book which we can warmly recommend to the profession."—*Medical World*

The National Food Supply in Peace and War. By

T. B. WOOD, M.A., Drapers' Professor of Agriculture in the University of Cambridge. Second impression. Demy 8vo. Paper covers. 6d net. By post, 7d.

Lord Rhondda, in his statement to the deputation from the Central Chamber of Agriculture on September 6, said:—"I would also call your attention to the very interesting pamphlet which has recently been issued by Professor T. B. Wood, of the Board of Agriculture."

"Professor Wood is a teacher in whom farmers have confidence....The pamphlet is of interest to the general public as well as to farmers, for it has been prepared with a view to enabling the community at large to form a true estimate of the situation."—*Times*

"Professor Wood offers suggestions as to the means by which the food supplies might be conserved and equitable distribution secured, and his pamphlet constitutes a contribution of importance on questions both urgent and far reaching in their relation to the welfare of the nation."—*Field*

Food Economy in War Time. By T. B. WOOD, M.A., and

F. G. HOPKINS, M.A., F.R.S. Second edition. Demy 8vo. Paper covers. 6d net. By post, 7d.

"It is written by Profs. T. B. Wood and F. G. Hopkins, both of whom can speak with authority, one from the agricultural, the other from the physiological, point of view. It is written in a clear style, such as the man in the street, or, what is more important, the woman in the kitchen, can understand."—*Nature*

Composition and Nutritive Value of Feeding Stuffs.

By T. B. WOOD, M.A. Demy 8vo. Paper covers. 6d net. By post, 7d.

This pamphlet shows the result of an attempt to collect analyses of all materials used for feeding live-stock. Wherever possible, analyses of the materials actually used by British farmers have been obtained.

CAMBRIDGE UNIVERSITY PRESS, FETTER LANE, LONDON, E.C. 4

C. F. CLAY, Manager

CEREBRO-SPINAL FEVER

by MICHAEL FOSTER, M.A., M.D.

Captain Royal Army Medical Corps, Territorial Force

and J. F. GASKELL, M.A., M.D.

Captain Royal Army Medical Corps, Territorial Force

Large royal 8vo. pp. x + 222. With 11 plates, 5 charts,
and 3 text-figures. Price 12s 6d net

"As a result of their experience with cerebro-spinal fever during 1915 at the 1st Eastern General Hospital, Captains Michael Foster and J. F. Gaskell have written an excellent practical account of the disease, its pathology, bacteriology, and management....

The book is excellently arranged, well written, and full of practical details that make it invaluable for the medical man and laboratory workers who have to deal with cases of cerebro-spinal fever. It may be most warmly recommended to their attention."—*British Medical Journal*

"The book is far from being a mere compilation; it contains the record of much original and valuable work and thought, and must be referred to by other investigators upon cerebro-spinal fever.

The illustrations are excellent, and, what is more, fill a distinct want. To our knowledge no such full series of reproductions of the rashes of 'spotted fever' has hitherto been published."—*The Cambridge Review*

The Journal of Hygiene is issued as material accumulates. A volume containing about 500 pages, with plates and figures, is issued annually.

Volumes I—III (1901–3) complete. In Four Parts, paper covers, 17s. 6d. net per volume. Bound in buckram, 21s. net per volume.

Volumes IV—XV (1904–17) complete. In Parts, paper covers, 25s. net per volume. Bound in buckram, 30s. net per volume.

Buckram binding cases can be supplied at 3s. 6d. net each. Quotations can be given for binding subscribers' sets.

Papers for publication may be sent to Prof. GEO. H. F. NUTTALL, F.R.S., Longfield, Madingley Road, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *The Journal of Hygiene* alone, unless the contrary is stated.

Contributors receive seventy-five copies of their papers free. Additional copies may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £1. 5s. per volume (post-free), payable in advance; single numbers 8s. 6d. net. Subscriptions may be sent to any Bookseller, or to MR C. F. CLAY, MANAGER, Cambridge University Press, Fetter Lane, London, E.C. 4.

The Cambridge University Press has appointed the University of Chicago Press agents for the sale of *The Journal of Hygiene* in the United States of America and has authorised them to charge the following prices: Subscription \$6.25 per volume; single numbers, \$2.15 each.

Plague Numbers, Vol. VI. no. 4 (not sold separately), Vol. VII. nos. 3 and 6, and Vol. VIII. no. 2, Vol. X. no. 3, Price 6s. net each. These five numbers can also be supplied bound in buckram, in two parts, for 20s. net.

A series of Plague Supplements has been issued; the first four of these contain Reports VI—IX on Plague Investigations in India. They are, in pagination, completely independent of the Journal although subscribers to the latter receive copies without extra cost. Price of Plague Supplements, i. and ii. 7s. net each; iii. 10s. net; iv. 7s. net. Plague Supplements i, ii, iii can also be supplied bound in buckram, price 20s. net. Further reports are in preparation.
