

## In Memory of

### **Richard. L. Greaves**

September 11, 1938 - June 17, 2004

Robert O. Lawton Distinguished Professor of History

Florida State University

A friend, mentor, husband, and father whose character, dedication, and professional life reflected values worthy of emulation.

Dick Greaves was a generous supporter of this journal and of British studies. He has been and will continue to be missed.

## A Final Word

---

The last word provides a welcome time for reflection and comment. It was an unexpected opportunity and a joy to have produced and edited *Albion*. Sometimes things just fit as parts of one's career, and such was the case with the journal and Appalachian State University and the NACBS.

I am grateful to the many people who have made this possible, and who provided advice, support, and encouragement. So, thank you for making my work over thirty-three years so engaging and challenging; and thanks also for reading *Albion* and participating in its work. For a long time it has been my labor of love, it also has been my central contribution to our profession; so obviously, I'm sad and disappointed that this journal comes to an end with this issue.

*Albion* has represented standards for scholarship and book reviews that were widely accepted and because they did not reflect a few emphases of the profession. It has had a catholic agenda and actively sought to represent scholarship from all parts of our community. It's been interesting work and worthwhile. Nonetheless, it's time to move on, having made many valued friendships and working with so many people who willingly contributed their expert advice and assistance to my work. They have made it possible for *Albion* to have made its contribution.

Good fortune to you,  
Michael J. Moore

# TAKE A THOUSAND EGGS OR MORE

## SPICE UP YOUR WORLD WITH THESE 15TH CENTURY COOK BOOKS

Presented in modern cookbook style, *Take a Thousand Eggs or More* offers a transcription and translation of more than 400 Fifteenth-Century English recipes from Harley MS. 279, Harley MS. 4016, Ashmole MS. 1439, Laud MS. 553, and Douce MS 55. Relevant quotations from contemporary literary sources introduce most recipes and provide a easy link to classroom readings.

Volume 1 gives 120 original recipes in transcription and in modern English translation and offers delicious adaptations of each recipe for the modern kitchen (in family-sized quantities—all requiring somewhat less than a 1000 eggs).

Volume 2 presents another 300 original recipes in transcription and translation but encourages the reader to experiment with both the language and the recipes. Each volume is fully indexed and lavishly illustrated with pertinent medieval woodcuts. Short essays illustrate various spices or techniques; while excellent and well-documented notes provide commentary. Twelve medieval menus display what foods were served at particular feasts.

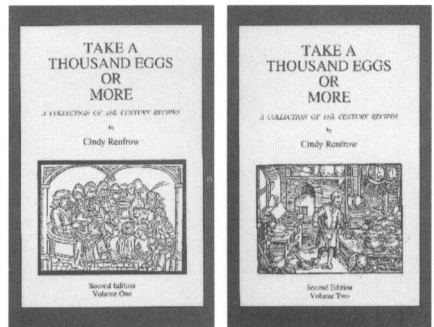

Published as two-volume set in a variety of formats: paperback for classroom use, library binding for library purchase, or spiral wire bound for kitchen use—an ideal gift!
