

NOTES FOR CONTRIBUTORS

1. The original and two copies of a manuscript submitted for publication should be sent to the Editor, Sir Arnold Burgen, Department of Pharmacology, Tennis Court Road, Cambridge, CB2 1QJ, UK. The Author's full postal address, as well as telephone, telex and fax numbers where available, should appear on the manuscript.
2. Only original papers, not published elsewhere, will be accepted, and the copyright should be assigned to the Publisher by filling in the Publishing Agreement form which the Editor will send to the prospective author, and which may also be found reproduced in each volume of the Journal.
3. The language of the Review is English.
4. Manuscripts are to be typed double-spaced, with wide top and side margins, on one side of the paper only. Illustrations are to be submitted with the manuscript on separate sheets. Authors are advised to keep one copy of their manuscript for reference. A summary of 100–150 words should be provided.
5. The title should be brief. It should appear on a separate sheet, with the Author's name typed on the line below the title.
6. The papers should be subdivided into sections and, if necessary, subsections.
7. Mathematical symbols may be hand-written or typed: Greek letters and unusual signs should be identified separately in the margin. Distinction should be made between letter O and zero; between letter I and number 1 and prime. All abbreviations should be preceded the first time they appear by the full name. Boldface, spacing, and italics for emphasis are to be avoided; the latter are to be used, though, for words taken over from other languages and not integrated in the language of the text.
8. Figures and tables are to be numbered consecutively and placed on separate sheets, with their place in the running text indicated therein.
9. Half-tone illustrations are to be restricted in number to the minimum necessary. Good glossy bromide prints should accompany the manuscript; they should not be attached to manuscript pages.
10. Original outline drawings (not photocopies) should be submitted suitable for immediate reproduction. Drawings should be of about twice the final size; the lettering must be clear and large enough for proportionate reduction. Figure legends should be typed on a separate sheet and placed at the end of the manuscript.
11. Footnotes are to be held to a minimum; parentheses in the text are to be preferred. Footnotes are not to be used for bibliographical references.
12. References to published literature should be quoted in the text by superior numbers and grouped together at the end of the paper in numerical order. Journal references should be arranged thus:
 1. F. Fukuyama, 'The End of History', *The National Interest*, **16**, 3–19 (1989).Book references should be as follows:
 2. J. Cadwell, *Theory of Fertility Decline*, Academic Press, London, 1982.
13. For many articles submitted to the publication, it may be more useful to provide a short bibliography under the heading 'Further Reading'.
14. No manuscript or illustration will be returned following publication unless a request for return is made at the time when the manuscript is submitted.
15. Page proofs are sent to authors for the correction of printers' errors; alterations of the text will not be accepted. Corrected proofs should be returned to the Publisher within 48 hours of receipt.
16. Twenty-five offprints of the paper and one copy of the Journal issue in which it appears will be provided to the Author free of charge. Additional copies of the article and the Journal may be purchased from the Publisher on an offprint order form supplied with the proofs.
17. It is the Author's responsibility to obtain written permission to quote material which has appeared in another publication.
18. Authors should submit a brief autobiography of approximately 75–100 words for publication in the Journal.
