# CHINA AN ANALYSIS

By FRANK J. GOODNOW

288 pages

1926

Cloth \$2.00

The author has attempted to picture Chinese life against a European background. The contrast of what have appeared to him to be the salient features of Occidental and Oriental civilization has helped him to reach conclusions which he ventures to believe are correct with regard to the Chinese problem. It is hoped that this contrast will have the same effect in helping those who read the book in their understanding of a subject which cannot be said to be generally well understood.

The volume embraces eight chapters: Physical Characteristics and Origins, Economic, Intellectual, Philosophical, Social, Political, Modern and Future China.

"The work is intended to be selective rather than inclusive, extracts from forty-three cases being given. These include most of the standard constitutional decisions and a number of recent ones. However, it is not in the list of cases included, but in the rather elaborate and very useful notes preceding each case that the book has its justification and its special value. Because of these it will be of no little service to teachers and to students of American constitutional history and law."

## AMERICAN POLITICAL SCIENCE SERIES

EDWARD S. CORWIN, *General Editor*

### INTERNATIONAL RELATIONS

By RAYMOND LESLIE BUELL, *Harvard University*

"International Relations" is a remarkable book—a path-breaker in American colleges. It is so full of interest that students become absorbed in it from the opening page. . . . It is timely, human, and teachable. The more widely the body of thought in this book can be taught, the happier will be our country in its foreign policy."—Dean S. C. Mitchell, *University of Richmond*.

\$5.00

Students' Edition \$4.00

### AMERICAN CITY GOVERNMENT

By WILLIAM ANDERSON, *University of Minnesota*

"Beginning with the wise remark that 'the fundamental division of people in American cities is upon economic lines,' he proceeds to chart the tides of group interest in the maelstrom of the modern metropolis. He does it with fairness, accuracy and considerable vigor. . . . In so far as the arrangement of his book and its substance are functional rather than schematic, Dr. Anderson has produced a more vital work than most of the score or so of books previously written on the same subject."—*The New York Times*.

\$5.00

Students' Edition \$4.00

### NEW GOVERNMENTS OF CENTRAL EUROPE

By MALBONE W. GRAHAM, JR., *University of California, Southern Branch*

"The chapters treating of the new constitutions, notably the highly interesting Weimar Constitution, are without doubt superior to anything of equal scope now available in English. But even more important and more to be recommended to the general reader are the parts of the book dealing with the social and economic problems as they affect the new governments. . . . It is a distinctly good piece of work, the need for which has been keen."—William L. Langer, *Clark University*.

\$5.00

Students' Edition \$4.00

### REPRESENTATIVE GOVERNMENT

By HENRY JONES FORD, late of *Princeton University*

"This book, the fruit of years of study and reflection on the part of the distinguished Professor of Politics at Princeton, is an indictment of representative government as it exists in practice and a picture of what it might become if reconstructed on the lines laid down by John Stuart Mill in 1871."—*Constitutional Review*.

\$3.75

Students' Edition \$3.00

### PROBLEMS OF CITIZENSHIP

By HAYES BAKER-CROTHERS, *University of Maryland*, and R. A. HUDNUT

"I have looked into it with the greatest interest and I consider it an exceptionally valuable collection of problems and material. It is almost a temptation to modify a course to fit this book instead of utilizing books to fit the course."—Professor William J. Newlin, *Amherst College*.

\$2.75

### THE EXPANSION OF EUROPE: 1415-1789

By WILBUR C. ABBOTT, *Harvard University*

Written with authority and persuasiveness.

A one-volume Students' Edition \$5.00

### EUROPE SINCE 1815, Revised Edition in Two Volumes

By CHARLES D. HAZEN, *Columbia University*

A thorough and fascinating history of modern Europe from 1815 to 1923, with special emphasis on events since 1914. Eminent for its scholarship, style, and comprehensiveness.

## **MUNICIPAL GOVERNMENT IN THE UNITED STATES**

By **Thomas H. Reed**

*Professor of Municipal Government and Director of the  
Bureau of Government at the University of Michigan*

This book is a highly informing and interesting treatment of municipal government by a writer who is not only a leading teacher of the subject but an experienced municipal administrator. It stresses the development of American municipal institutions and methods from colonial times to the present, but naturally deals most fully with municipal organization and problems of today. There is no lack of critical comment; yet the facts are presented as they are, not as the author believes they should be.

## **THE PRACTICE OF MUNICIPAL ADMINISTRATION**

By **Lent D. Upson**

*Director and Secretary of the Detroit Bureau of Governmental Research*

The purpose of this volume is to familiarize the student with the many important problems of administration which the citizen must understand if he is to appreciate fully the work of the technicians in public service. The book interprets administration as including not only organization, supervision, and control of municipal processes, but also the practice and procedure of carrying on these activities.

## **DOCUMENTS ILLUSTRATIVE OF MUNICIPAL GOVERNMENT AND ADMINISTRATION**

By **Thomas H. Reed**

*Professor of Municipal Government and Director of the  
Bureau of Government at the University of Michigan*

and

**Paul Webbink**

*Secretary of the Bureau of Government at the University of Michigan*

This volume of illustrative materials has been designed to supplement any standard text in municipal government or administration, but it will be found particularly well adapted to the Reed and Upson volumes described above. It contains many documents which until now have been inaccessible to a large majority of college students. The volume is designed to afford both the historical perspective necessary for an understanding of present-day municipal government and a view of modern municipal organization.
