NEUROPHARMACOLOGUE CLINICIEN

Une position comme neuropharmacologue clinicien est offerte à l'Institut de recherches cliniques de Montréal dans le département de neurobiologie. Le candidat devra être parfaitement à l'aise dans la langue française. Il devra être du rang académique de professeur agrégé ou titulaire et posséder au moins 5 ans d'expérience en recherche neuropharmacologique, particulièrement dans l'étude des maladies extrapyramidales. Il devra posséder un permis d'exercice de la corporation des médecins et chirurgiens du Québec, en neurologie. Salaire à discuter. Le candidat devra envoyer son curriculum vitae, avant le 1er mars 1983 au Dr André Barbeau, Département de neurobiologie, Institut de recherches cliniques de Montréal, Montréal, Québec, H2W 1R7.

STROKE RESEARCH

The Department of Clinical Neurosciences at the University of Calgary invites applications from neurologists or neurosurgeons with a special interest in developing a stroke research program. In addition to clinical qualifications, applicants should have a minimum of one year of experience in some aspects of basic or clinical research related to cerebrovascular disease. Funding is available to provide salary support for GFT positions at levels commensurate with the candidate's background and experience. In addition, successful applicants may apply to the Alberta Heritage Foundation for Medical Research for an establishment grant to provide equipment and initial operating funds.

In accordance with Canadian immigration requirements, this advertisement is directed to Canadian citizens and permanent residents, although other interested individuals are encouraged to apply. Closing date for applications June 1, 1983. Send curriculum vitae, statement of research interests and names of three references to: Dr. R.G. Lee
