**B**RONCHITIS.

**D**R. J. COLLIS BROWNE'S CHLORODYNE.—This wonderful remedy was discovered by Dr. J. COLLIS BROWNE, and the word Chlorodyne coined by him expressly to designate it. There never has been a remedy so vastly beneficial to suffering humanity, and it is a subject of deep concern to the public that they should not be imposed upon by having imitations pressed upon them on account of cheapness, and as being the same thing. Dr. J. COLLIS BROWNE'S CHLORODYNE is a totally distinct thing from the spurious compounds called Chlorodyne, the use of which only ends in disappointment and failure.

**D**R. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. PAGE WOOD STATED PUBLICLY in Court that Dr. J. COLLIS BROWNE was UNDOUBTEDLY the INVENTOR of CHLORODYNE, that the whole story of the defendant was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13th, 1864.

**D**R. J. COLLIS BROWNE'S CHLORODYNE is a LIQUID MEDICINE which ASSUAGES PAIN of EVERY KIND, affords a calm, refreshing sleep, WITHOUT HEADACHE, and INVIGORATES the NERVOUS SYSTEM when exhausted.

**D**R. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, Hysteria.

ORIGINAL AND ONLY GENUINE.

The GENERAL BOARD of HEALTH, London, REPORT that it ACTS as a CHARM, one dose generally sufficient.

**D**R. GIBBON, Army Medical Staff, Calcutta, states—“TWO DOSES COMPLETELY CURED ME of DIARRHŒA.”

From SYKES & Co., Pharmaceutical Chemists, Medical Hall, Simla.—Jan. 5th, 1880.  
To J. T. DAVENPORT, Esq., 33 Great Russell St., Bloomsbury, London.—Dear Sir—

We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine has earned for itself, not only in Hindostan, but all over the East. As a remedy

of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply

instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation

during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power.

We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike.—We are, Sir, faithfully yours, SYKES & Co. Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

**D**R. J. COLLIS BROWNE'S CHLORODYNE is the TRUE PALIATIVE in NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

## IMPORTANT CAUTION.

The IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS.

N.B.—EVERY BOTTLE OF GENUINE CHLORODYNE BEARS the GOVERNMENT STAMP the NAME of the INVENTOR.

### On the Use and Value of PURE VEGETABLE CHARCOAL.

It would be well for all who value their health were the virtues of this invaluable Antiseptic universally known. It may be truly termed one of **Nature's wonderful remedies** to restore health to suffering humanity. Its remarkable properties of absorbing all impure gases and acidity in the stomach and bowels are not possessed by any other known agent, and its action in freeing the stomach from all putrescent matter always brings the digestive organs into a healthy condition.

The number of instances of marvellous benefit derived from the steady persevering use of pure Charcoal would be too numerous to mention here. Asthma, in the worst form; Liver Complaints; Jaundice, from long residence in hot climates; Internal Ulcerations; Cutaneous Disorders; Removal of Stomach and Intestinal Worms in children and adults; Chronic Diarrhoea; Indigestion; Nervousness; Consumption; and, in fact, nearly all the "ills which flesh is heir to," have been permanently removed by this simple agent alone, recommended by physicians of eminence, when perhaps all other means had failed.

"I have suffered long and severely," says Dr. Belloc, in his *Medical History of Charcoal*, "from a distressing disorder of the Stomach and Bowels. My constitution has been greatly impaired by this; but whenever the slightest indication of disorder appeared, I made use of the **PURIFIED VEGETABLE CHARCOAL**, and everything immediately went right again."

## BRAGG'S ERVALENTA BISCUITS.

It is now fully agreed by all Chemists and Physiologists that the Farina of the Eryum Lens contains more nutritious matter than any other known substance; and experience has proved that the use of it has been highly serviceable in cases of severe Indigestion, and it has completely cured the most obstinate and long-continued Costiveness after the best directed medical treatment has totally failed. As Gruel made of the Farina of the Eryum Lens is not agreeable to many palates, J. L. BRAGG has manufactured it into Biscuits, which are found to be equally efficacious, more palatable, and far more convenient. For the relief of Habitual Costiveness, two or three of the Biscuits should be taken every night at bed-time.
