

INTERNATIONAL JOURNAL OF

MICROWAVE AND WIRELESS TECHNOLOGIES**CONTENTS**

EDITORIAL			
IJMWT Special Issue on the 2019 National Microwave Days			
Philippe Descamps		1	
IJMWT SPECIAL ISSUE ON THE 2019 NATIONAL MICROWAVE DAYS			
A 31 GHz body-biased configurable power amplifier in 28 nm FD-SOI CMOS for 5 G applications			
Florent Torres, Eric Kerhervé, Andreia Cathelin and Magali De Matos		3	
Miniature drone antenna design for the detection of airliners			
Alassane Sidibe, Gaël Loubet, Alexandru Takacs, Guillaume Ferré and Anthony Ghiotto		21	
POWER AMPLIFIERS			
A 3-bit load-pulling digital power amplifier			
Gavin T. Watkins		28	
FILTERS			
Separately-designable diplexer with multiple transmission zeroes using common stub-loaded SIR			
Yu-Jing Zhang, Jing Cai and Jian-Xin Chen		39	
WIRELESS POWER TRANSFER AND ENERGY HARVESTING			
Integration of RF rectenna with thin film solar cell to power wearable electronics			
B. Naresh, Vinod Kumar Singh and V. K. Sharma		46	
METAMATERIALS AND PHOTONIC BANDGAP STRUCTURES			
An ultra-wideband, polarization insensitive metamaterial absorber based on multiple resistive film layers with wide-incident-angle stability			
Guangsheng Deng, Kun Lv, Hanxiao Sun, Yuan Hong, Xiaoying Zhang, Zhiping Yin, Ying Li and Jun Yang		58	
Further realization of a flexible metamaterial-based antenna on indium nickel oxide polymerized palm fiber substrates for RF energy harvesting			
Taha A. Elwi and Ali M. Al-Saegh		67	
ANTENNA DESIGN, MODELLING AND MEASUREMENTS			
Design of a wearable MIMO antenna deployed with an inverted U-shaped ground stub for diversity performance enhancement			
Anupma Gupta, Ankush Kansal and Paras Chawla		76	
A compact dual band-notched SWB antenna with high bandwidth dimension ratio			
Aliakbar Dastranj, Ghazaleh Lari and Mosayeb Bornapour		87	
Feather-shaped super wideband MIMO antenna			
Sarthak Singhal		94
