Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Fauna & Flora Preservation Society for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$06.00 per copy is paid directly to CCC, 27 Congress Street, Salem, MA 01970, USA. This consent does not extend to other kinds of copying, such as copying for general distribution for advertising or promotional purposes, for creating new collective works or for resale. Special requests should be addressed to the Editor. 0030-6053/92 \$06.00.

The Journal is despatched within Europe by surface mail, to other continents by various forms of air speeded delivery: to the US* by air freight for forwarding by second class post, to India by air freight for guaranteed local delivery, and to all other countries by Accelerated Surface Post.

* Second class postage paid at Rahway, NJ. Postmaster, send address changes to *Oryx*, c/o Mercury Airfreight International Inc, 2323 Randolph Avenue, Avenel, NJ 07001, USA.

FUNCTIONAL ECOLOGY

Editors

Professor Peter Calow PO Box 601, Department of Animal and Plant Sciences, The University, Sheffield S10 2UQ, UK

Dr John Grace Institute of Ecology and Resource Management, Darwin Building, Mayfield Road, Edinburgh EH9 3JU, UK

Functional Ecology is a journal launched by the British Ecological Society to provide a forum for the publication of material relating to physiological and evolutionary ecology. This follows in the steps of the Society's three established and respected research journals – *Journal of Ecology*, *Journal of Animal Ecology* and *Journal of Applied Ecology* – and is complementary to them. *Functional Ecology* publishes short, original papers in a wide range of ecological topics, but particularly emphasising the fields of physiological, biophysical and evolutionary ecology. Papers may describe experimental, observa-

tional or theoretical studies on terrestrial, fresh-water or marine systems. The Editors are especially keen to publish papers that blend between these subject areas. Work that is purely descriptive and/or concerned exclusively and specifically with the population dynamics of organisms is not accepted unless it sheds light on those specific areas mentioned above.

Subscription Information

Functional Ecology is published bimonthly. Subscription rates for 1992 are £150.00 (UK), £160.00 (overseas) and US\$270.00 (USA & Canada) post free.

Order Form

Please tick the appropriate box and return to the address below:

- I would like to subscribe to *Functional Ecology*
- I wish to pay by cheque and enclose the sum of £ _____ US\$ _____
- I wish to pay by Access / American Express / Barclaycard / Diners Card / VISA / Mastercard (delete as necessary)

MAMMAL REVIEW

Editors

D.W. Yalden PhD, *Department of Environmental Biology,
University of Manchester, Manchester M13 9LD, U.K.*

G.R. Hosey PhD, *Department of Psychology,
Bolton Institute of Higher Education, Bolton BL3 5AB, U.K.*

Mammal Review is an official publication of the Mammal Society, dedicated to the promotion of mammalian studies. It is not intended for the publication of the results of original research but rather as a secondary journal, carrying reviews of, and reports on, any aspect of mammalogy. It also serves to report the proceedings of the Society's Symposia, which again are of a review nature. Nowadays there are relatively few people who study a taxonomic group *per se*; many more become interested in the groups through the pursuit of one of the sub-disciplines such as ecology, behaviour, anatomy, physiology, genetics, etc. The journal therefore has an interdisciplinary nature and is intended for a

wide readership, both amateur and professional. Contributions which promote the dissemination of knowledge of mammals or encourage their study are invited, particularly those which describe work in progress in the various disciplines and which help to bridge interdisciplinary gaps. Reports on the status and distribution of mammalian species are also welcomed.

Subscription Information

Mammal Review is published quarterly. Subscription rates for 1992 are £71.00 (UK), £74.00 (overseas) and US\$125.00 (USA & Canada) post free.
