1869.

HERTFORD :
PRINTED BY STEPHEN AUSTIN.

LIST OF PLATES.

| PLATES | PAGE |
|-----------------------------------------------------------------------------------------------------------------------------------------------|------|
| I. II. Coniferous Fruits, etc., from Secondary Rocks | 1 |
| III. Limb-bones of <i>Trogontherium Cuvieri</i> , Fischer, from the Cromer Forest-bed | 49 |
| IV. <i>Beania gracilis</i> , Carr., Oolitic Shales of Yorkshire. <i>Zamia muricata</i> , Willd. <i>Macrozamia spiralis</i> , Miq. | 97 |
| V. <i>Flemingites Pedroanus</i> , Carr., Coal M., Brazil. | 151 |
| VI. <i>Noeggerathia obovata</i> . <i>Odontopteris Plantiana</i> , Brazil | 151 |
| VII. Jaw of <i>Strophodus</i> from the Oolite of Caen | 193 |
| VIII. <i>Eucladia Johnsoni</i> , H. Woodw., Upper Silurian, Dudley | 241 |
| IX. Mandibular and Palatal Teeth of <i>Ctenodus</i> , Coal-measures | 314 |
| X. <i>Echmodus obicularis</i> , Morris, Lower Lias, Lyme Regis | 337 |
| XI. <i>Lingula monilifera</i> , Linnarsson. <i>Eophyton Linnæanum</i> , Torrell | 393 |
| XII. <i>Eophyton Linnæanum</i> , Torrell | 393 |
| XIII. <i>Eophyton Torelli</i> , Linnarsson | 393 |
| XIV. Map of the Chesil Bank and the neighbouring coast | 433 |
| XV. View of the Chesil Bank and the "Fleet" or "Backwater" | 433 |
| XVI. Tooth of <i>Machairodus</i> , found in the Norfolk Forest-bed at Cromer | 440 |
| XVII. Burrows of Mollusca in Carboniferous Limestone, Great Ormes Head | 483 |
| XVIII. Plants from the Skiddaw Slates | 494 |
| XIX. Mural Agates | 529 |
| XX. <i>Eophyton? explanatum</i> , Hicks, Lower Arenig Rocks, St. David's | 53 |

LIST OF WOODCUTS.

| | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Ideal representation of Old Pacific Continent, to illustrate the theory of the gradual subsidence of the land and the formation of Coral- reefs | 11 |
| Cliff-section seen on the south of Speeton Beck, in September, 1868 | 14 |
| Teeth of <i>Ctenoptychius</i> | 43 |
| Molar Teeth of <i>Trogontherium Cuvieri</i> | 49, 51 |
| Rough Sketch of Honister Crag, Buttermere Valley. | 56 |
| Borrowdale Fells | 57 |
| Lie of the Beds along Eel Crags | 58 |

| | PAGE |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| Boulder-clay Cliff south of Workington, Cumberland | 72 |
| Boulder-clay overlying Shell-beds, Rampside, Peel Harbour, Cumberland | 72 |
| Stratified Beds in the Lower Boulder-clay, from which were obtained the remains of <i>Bos primigenius</i> | 74 |
| Section from Portingscale, along the west side of Derwentwater, to Castle Crag, in Borrowdale | 107 |
| Natural Section of Beds seen in the Escarpment at the "Serra Partida," River Candiota | 149 |
| <i>Belemnites præmaturus</i> , Tate | 166 |
| Diagram of the Glacial Terraces at the Fork of the Yangma Valley | 191 |
| Sections of Drift at Hawker's Hill | 207 |
| Lower jaw and teeth of <i>Cestracion Philippi</i> | 236 |
| Foliage and Fruits of <i>Calamites</i> | 294 |
| Fruits of <i>Equisetum</i> and <i>Calamites</i> | 295 |
| Fruits of <i>Selaginella</i> and <i>Triplospirites</i> | 297 |
| Section of Gault and Lower Greensand at Lower Fettleworth | 335 |
| Figures to illustrate enlargement on Crinoidal Columns | 352 |
| Sketch showing <i>Maum</i> , with an accompanying bank of recent Drift, a ravine being seen in the latter | 407 |
| Section of recent Drift-bank | 407 |
| Recent Drift banked on a hill-slope below an escarpment | 408 |
| Plan of streams flowing to a shore where there is a current chiefly in one direction | 437 |
| <i>Lepracanthus Colei</i> , Owen, Coal-measures, Ruabon, N. Wales | 481 |
| Section of supposed burrow of <i>Helix</i> in Carboniferous Limestone | 486 |
| Sketches of a piece of Cornish hornstone | 529, 530 |
| A portion of felspathic rock, in which two crystals of labradorite are separated by a crystalline mass of mixed labradorite and hyper- stein | 530 |
| Banded and brecciated agates | 533, 534 |
| Profile of Terraces on the side of a Chalk Hill near Twyford | 537 |
| Terraces near Stockbridge | 538 |
| Terrace and Bank caused by descent of Silt | 538 |
| Terraces near Llangollen | 541 |
| <i>Thecidium subserratum</i> , Tate, sp. nov. | 552 |
| Peculiar form of variegation in Cambrian Slate | 576 |
