

# Erratum

## Review Article: The early modern foundations of the modern world: recent works on patterns of economic and political change – Erratum

R. Bin Wong

The publishers regret to announce that an error was published in the above publication<sup>1</sup>. On page 136, the below sentence should have read “European colonies in the Americas”:

“Usefully, Parker contextualizes the vast crisis-affected area in spatial terms by noting two kinds of exceptions to this pervasive pattern – unscathed places including European colonies in America, South and Southeast Asia, and Japan; and places where the impact of the little ice age was ambiguous, such as the Great Plains of North America, sub-Saharan Africa, and Australia.”

The publishers apologize for this error.
