HIGHLIGHTS OF ASTRONOMY

VOLUME 11B

*As presented at the XXIIIrd General Assembly
of the IAU, 1997*

Since 1967, the main scientific events of the General Assemblies of the International Astronomical Union have been published in the separate series, *Highlights of Astronomy*. The present Vol. 11 presents the major scientific presentations made at the XXIIIrd General Assembly, August 18–30, 1997, in Kyoto, Japan. The two volumes (11A + B) contain the text of the three Invited Discourses as well as the proceedings or extended summaries of the 21 Joint Discussions and two Special Sessions held during the General Assembly.
