

Plasma testosterone, oestradiol and sex hormone binding globulin in Indian vegetarian women compared with Caucasian vegetarians and omnivores. <i>Sheela Reddy, T. J. A. Key, J. W. Moore, G. M. G. Clark &amp; T. A. B. Sanders</i>	8A
Testosterone, sex hormone binding globulin, and calculated free testosterone in male vegans and omnivores. <i>T. J. A. Key, L. S. Roe, M. Thorogood, J. I. Mann, J. W. Moore, G. M. G. Clark &amp; D. Wang</i>	9A
Methane production by ruminants and its influence on the doubly-labelled water technique. <i>A. J. Midwood, P. Haggarty, B. A. McGaw &amp; J. J. Robinson</i>	10A
Repeated periods of dieting by women using a very low energy diet. 1. Effect on metabolic rate. <i>Gail R. Goldberg, Susan A. Parkinson, Judith M. Savage, P. R. Murgatroyd &amp; A. M. Prentice</i>	11A
Repeated periods of dieting by women using a very low energy diet. 2. Effect on body composition. <i>Susan A. Parkinson, Gail R. Goldberg, Judith M. Savage, P. R. Murgatroyd, W. A. Coward &amp; A. M. Prentice</i>	12A
Weight changes during 7 d weighed energy intake studies in normal men. <i>A. C. Bruce, A. Zakary, J. Fell &amp; G. McNeill</i>	13A
Energy intake and energy expenditure in post-obese women and weight-matched controls. <i>G. McNeill, S. G. F. Bukkens, D. C. Morrison &amp; J. S. Smith</i>	14A
Resting energy expenditure in cystic fibrosis. <i>S. A. Wootton, J. Ellis, S. Bond &amp; A. A. Jackson</i>	15A
Energy intakes and weight loss in institutionalized psychogeriatric patients. <i>Rhoda Sutherland, J. Rucker &amp; S. A. Wootton</i>	16A
Arm circumference and energy balance in critical illness. <i>Ceri J. Green, T. R. Helliwell, P. McClelland, A. A. Gilbertson, R. G. Wilkes, J. M. Bone &amp; J. T. Campbell</i>	17A
Plasma noradrenaline concentrations and thermogenic responses to injected noradrenaline in the rat. <i>A. Y. Siyamak &amp; I. A. Macdonald</i>	18A
Thermic effect of artificial sweeteners in humans: aspartame. <i>C. A. Geissler &amp; D. A. James</i>	19A
The effect of a 3 d high-fat or high-carbohydrate diet on the responses to glucose ingestion in man. <i>M. B. Sidery, I. W. Gallen &amp; I. A. Macdonald</i>	20A
Net substrate deposition in human adipose tissue in vivo after glucose ingestion and during insulin infusion. <i>Keith N. Frayn, Simon W. Coppack &amp; Sandy M. Humphreys</i>	21A
A modified TRAP assay to measure pro-oxidant activity in serum. <i>D. I. Thurnham &amp; D. Kwiatowski</i>	22A
Alcohol consumption and measurements of iron status. <i>J. J. Strain, K. A. Thompson, M. E. Barker &amp; P. G. McKenna</i>	23A
Relation of plasma levels of antioxidants and cholesterol to the risk of colorectal cancer and polyps in Ireland. <i>Kathryn R. O'Sullivan, P. M. Mathias, J. J. Strain, D. G. M. Carville, A. Tobin &amp; C. O'Morain</i>	24A
Diet and cancer of the stomach, colon, rectum, breast and lung: a prospective cohort study. <i>P. A. van den Brandt, R. A. Goldbohm, P. van't Veer, R. J. J. Hermus &amp; F. Sturmans</i>	25A
Alzheimer's senile dementia: potential pathogenic significance of free radical and antioxidant micronutrient interactions. <i>P. H. Evans, J. Klinowski, E. Yano &amp; N. Urano</i>	26A
Blood antioxidant status of runners in relation to training load. <i>J. D. Robertson, G. G. Duthie, R. J. Maughan &amp; P. C. Morrice</i>	27A
Effect of dietary $\alpha$ -tocopherol level on susceptibility of chicken tissues to lipid peroxidation. <i>P. J. A. Sheehy, P. A. Morrissey &amp; A. Flynn</i>	28A
Vitamin E alters T cell subsets in elderly patients. <i>L. Purkins, N. D. Penn, J. Kelleher &amp; R. V. Heatley</i>	29A
Immune function in vitamin E-deficient rats. <i>L. Purkins, J. Kelleher &amp; R. V. Heatley</i>	30A
Gastric juice ascorbic acid: effects of disease, hypochlorhydria and stimulation of gastric secretion. <i>C. J. Schorah, J. N. Primrose, G. M. Sobala, M. J. Sanderson &amp; M. Rogers</i>	31A
Selenium depletion and repletion: effects on the thyroid gland in the rat. <i>J. R. Arthur, F. Nicol, P. W. H. Rae &amp; G. J. Beckett</i>	32A
Nitrosation of amino acids and peptides in gastric contents. <i>Douglas S. Annan, Brian C. Challis, John D. Harrison, Jim Iley, David L. Morris &amp; Gillian E. Shears</i>	33A
Human milk: a source of potentially toxic and carcinogenic halosubstituted biphenyls. <i>J. T. Borlakoglu, N. J. Borlak &amp; R. R. Dils</i>	34A
Arginine in benign and malignant disease of the breast and colon. <i>K. G. M. Park, S. D. Heys, C. I. Harris, M. A. McNurlan, R. J. Steele, O. Eremin &amp; P. J. Garlick</i>	35A
Do rates of protein synthesis differ in separate biopsies from the same tumour? <i>S. D. Heys, K. G. M. Park, M. A. McNurlan, K. Blessing, O. Eremin &amp; P. J. Garlick</i>	36A
Effect of the intestinal microflora and dietary fibre on colonic epithelial cell proliferation. <i>R. A. Goodlad, B. Ratcliffe, J. P. Fordham, C. Y. Lee &amp; N. A. Wright</i>	37A
Stimulation of large bowel fermentation has no effects on duodenal epithelial proliferation in rats given white bread-based diets. <i>J. C. Mathers, Devina McClean &amp; Fiona B. Key</i>	38A
Oats, gastrointestinal cell proliferation and serum cholesterol in the rat. <i>E. K. Lund &amp; I. T. Johnson</i>	39A
Lipogenesis measured in vivo in tumour-bearing rats. <i>O. Obeid &amp; P. W. Emery</i>	40A
Smoking and diet: is the diet of smokers different? <i>Janet Cade &amp; Barrie Margetts</i>	41A
Comparison of the diets of smokers and non-smokers. <i>Margaret J. Whichelow &amp; Sharon W. Erzingioglu</i>	42A
What YOU think causes obesity. <i>G. P. Webb &amp; C. A. Geissler</i>	43A
Effects of dietary supplementation on work performance in Gambian labourers. <i>E. Daiz, G. R. Goldberg, M. Taylor, J. M. Savage, D. Sellen, W. A. Coward &amp; A. Prentice</i>	44A
Activity and energy expenditure of lactating women in rural Ghana. <i>Margaret A. Armar-Klemesu &amp; Erica F. Wheeler</i>	45A
Rationing and wartime food policies in Iran. <i>F. Rabiee &amp; C. A. Geissler</i>	46A
The effects of yeast culture on yeast numbers and fermentation in the rumen of sheep. <i>C. J. Newbold, P. E. V. Williams, N. McKain, A. Walker &amp; R. J. Wallace</i>	47A
Protein digestibility measured by $^{15}\text{N}$ and homoarginine. <i>N. Roos, H. Hagemester &amp; J. Scholtissek</i>	48A
The movement of intact urea across the mucosa of the defunctioned human colon. <i>B. J. Moran, S. J. Karran &amp; A. A. Jackson</i>	49A
Hypocholesterolaemic and other responses to oat bran intake in humans. <i>R. W. Welch, A. M. McVeigh &amp; C. Murphy</i>	50A
Large bowel fermentation in rats given raw peas in the diet. <i>Laurentina M. R. Pedroso, J. C. Mathers &amp; Heather J. Finlayson</i>	51A

## CONTENTS

### WORKSHOP

	PAGE
<i>One Hundred and Eightieth Scottish Meeting Kelvin Conference Centre, Glasgow 18 NOVEMBER 1988 NUTRITION AND FOOD PROCESSING Chairman: D. PARRY, Queen Margaret College, Edinburgh</i>	
Food preservatives and the microbiological consequences of their reduction or omission. <i>T. A. Roberts &amp; P. J. McClure</i>	1-12
Nutritional recommendations for <i>n</i> -3 polyunsaturated fatty acids and the challenge to the food industry. <i>S. M. Barlow, F. V. K. Young &amp; I. F. Duthie</i>	13-21
Implications of nutritional recommendations on sugar for product development. <i>N. J. Jardine, D. G. Edwards &amp; C. McMenemy</i>	23-30
Fibre sources for the food industry. <i>I. T. Johnson</i>	31-38
Food fortification. <i>D. P. Richardson</i>	39-50

### SYMPOSIUM PROCEEDINGS

<i>Liverpool Medical Institution, Liverpool 6/7 APRIL 1989 INTRACELLULAR CALCIUM IN THE CONTROL OF METABOLISM Chairmen: P. COBBOLD, University of Liverpool R. H. T. EDWARDS, University of Liverpool G. A. J. PITT, University of Liverpool</i>	
Calcium as an intracellular regulator. <i>Anthony K. Campbell</i>	51-56
Intracellular calcium ions and intramitochondrial $Ca^{2+}$ in the regulation of energy metabolism in mammalian tissues. <i>James G. McCormack &amp; Richard M. Denton</i>	57-75
Intracellular calcium, cell injury and relationships to free radicals and fatty acid metabolism. <i>M. J. Jackson</i>	77-81
Intra- and extracellular calcium and hypertension. <i>Anthony M. Heagerty</i>	83-90
Vitamin D and other extracellular factors in the control of growth. <i>Isobel P. Braidman</i>	91-101

### ABSTRACTS OF COMMUNICATIONS

<i>Lady Spencer-Churchill College, Oxford Polytechnic, Oxford 26-28 JULY 1989</i>	
The nutrition and environment of the early human embryo. <i>A. L. Gott, K. Hardy, R. M. L. Winston &amp; H. J. Leese</i>	2A
Differential effects of dietary fatty acid saturation and chain length on lipogenesis in liver and mammary gland of lactating rats. <i>Paulo F. A. Souza &amp; Dermot H. Williamson</i>	3A
Breast-milk calcium and phosphorus concentrations of British and Gambian mothers during prolonged lactation. <i>Ann Prentice, M. A. Laskey, B. Dibba &amp; J. Shaw</i>	4A
Background variations in breath carbon-13 enrichment in free-living infants and toddlers. <i>Odile Dewitt, P. R. Murgatroyd, Ann Prentice &amp; W. A. Coward</i>	5A
The urinary excretion of 5-oxoproline in healthy term infants. <i>C. Persaud, N. Evans, N. Rutter, M. Hall, S. Smith &amp; A. A. Jackson</i>	6A
The effects of gonadectomy on weight gain and corticosterone metabolism in rats. <i>C. J. H. Woodward, G. R. Hervey, R. E. Oakey &amp; E. M. Whitaker</i>	7A
