

## FIGURES

2.1	Five-sevenths and six-sevenths cores in one dimension	56
2.2	Change of core in one dimension under five-sevenths and six-sevenths majority	57
2.3	Core of a unicameral legislature under qualified majorities and lack of core under simple majority	59
2.4	Constitutional core of a bicameral legislature	61
2.5	Constitutional core with two-thirds majority in both chambers and a majority of states (Mexico)	62
2.6	Core with alternative constitutional provisions	63
2.7	Large core produces smaller win-set, no matter where the status quo (SQ) is	64
2.8	Outcomes of a referendum	67
2.9	Referendum outcomes as a function of agenda setter	68
3.1	New constitutions do not come with new levels of constitutional rigidity	86
3.2	Summary of the number of countries that changed their constitution and the difference in rigidity scores	87
3.3	Correlations between amendment frequencies and the World Values Survey (WVS) and V-Dem Variables (variables used by Blake et al. [2023] in bold)	95
4.1	Constitutional core of Italy under Article 138	101
4.2	Constitutional core of Chile, three-fifths, and president	104
4.3	Constitutional core of Chile and two-thirds without president	105
4.4	Constitutional core of Chile with all alternatives	106
5.1	House and Senate support for constitutional amendments in Mexico from 2000 to 2013 by topic, coalition, and number of articles affected	143
5.2	Congressional support for constitutional amendments in Mexico from 2000 to 2013	145
6.1	Constitutional rigidity and amendment size and/or rate	155
6.2	The effect of constitutional rigidity on the rate of all amendments (amendments of constitutions in effect in 2013 in all democratic countries)	156

6.A.1.1	The effect of constitutional rigidity on the rate of fundamental amendments (amendments of constitutions in effect in 2013 in all democratic countries)	163
6.A.1.2	The effect of constitutional rigidity on the rate of significant and fundamental amendments (amendments of constitutions in effect in 2013 in all democratic countries)	163
7.1	Writing and revising the constitution game	173
7.2	Amendment frequency and log length	177
7.3	Time inconsistency and log length	178
7.4	Scope and details in 187 countries	181
7.5	Log GDP and log length	184
7.6	Corruption and log length	185
8.1	Legislative core: the court can make any statutory interpretation inside it	202
8.2	Constitutional core larger than legislative core: any constitutional interpretation within the constitutional core stands	203
8.3	Low constitutional rigidity is a necessary condition for low judicial independence	208
8.4	The win-set of the status quo subject to constraints on judicial decision-making	208
8.5	The win-set of the status quo subject to constraints on judicial decision-making, with uncertainty	210
8.6	The effect of constitutional rigidity on court strikes	215
