ROBERT S. BRUMBAUGH

The Philosophers of Greece

THE MEN AND IDEAS THAT SHAPED OUR UNDERSTANDING
OF THE WORLD ABOUT US

This brilliant survey of the key ideas of Greek philosophy covers a period and scene unmatched by any other. In it, Dr. Brumbaugh analyses all these historical figures, explains their works, and demonstrates their relevance to modern thought. 35s.

Edited by S. RADHAKRISHNAN and P. T. RAJU

The Concept of Man

A STUDY IN COMPARATIVE PHILOSOPHY
(Revised second edition)

Proposes that a full and adequate view of man can be developed from a proper study of the concept of man as found in the different philosophical traditions and by noting the over-emphases and under-emphases that may be unnoticed in one or more of the traditions. Studies, also, the Christian, Islamic and the Marxian concepts and thus covers almost all the great philosophical traditions influencing the life of man on earth. 50s.

BETTY POWELL

Knowledge of Actions

Very often questions about actions are discussed in connection with freewill. In this book some problems about a certain class of actions are considered solely as problems of knowledge. Among the topics are those of how we know what others are doing, and of why it is usually inappropriate to ask the agent he knows what he is doing. The difference between knowledge of our actions and our knowledge of the actions of others is seen in relation to the sceptic's problem of knowledge. 18s.

D. P. DRYER

Kant's Solution for Verification in Metaphysics

A fresh and highly illuminating account of Kant's *Critique* by unfolding its central argument. 63s.

GEORGE ALLEN & UNWIN

Trevor Ling

PROPHETIC RELIGION

One of the main themes of the book is that the only real catholicity is the catholicity of Christ, which is not yet to be found anywhere in the Church. The author, who lectures in philosophy and the history of religion at Leeds University, is also concerned to show that what is fully *prophetic* is also by nature *catholic*, and that true catholicity comes only from a fully balanced prophetic tradition.

21s

Dorothy Emmet

WHITEHEAD'S PHILOSOPHY OF ORGANISM

A critique of Whitehead's metaphysical philosophy, first published in 1932 and long out of print. Professor Emmet has supplied a new preface.

LEIBNIZ Logical Papers

*A Selection
Edited, Introduced and
Translated by*
G. H. R. PARKINSON

This volume presents translations,
most of which appear in English
for the first time, of some of Leib-
niz's most important logical works.
A long introduction provides
explanatory comment and gives an
estimate of Leibniz as a logician.

obtained from the Department of Philosophy,
University of Sydney, NSW*

CAMBRIDGE

Kant's Analytic

JONATHAN BENNETT

A critical exposition and evaluation of the ideas contained in the first half of Kant's *Critique of Pure Reason*. A rigidly pro- or anti-Kantian approach makes it difficult for the student to acquire a clear view of his theories. Mr Bennett avoids partisan disputes and seeks to present an unbiased assessment based on modern analytical techniques. This book is an introduction for students who have read little by or about Kant. The discussion of the issues raised will also interest teachers of philosophy.

Cloth 50s. net; paperback 18s. 6d. net.
