### APSA Offers SETUPS On 1980 Election

C. Anthony Broh and Charles L. Prysby have developed a new instructional unit entitled, *Voting Behavior: The 1980 Election*. This APSA publication is the most recent in the series of Supplementary Empirical Teaching Units in Political Science (SETUPS) which introduce social science students to data analysis in the fields of American and cross-national politics.

SETUPS were initiated with the support of grants from the National Science Foundation. Each unit in the series includes a monograph and a data set for analysis by students. The data are supplied by the Inter-University Consortium for Political and Social Research (ICPSR). The Broh and Prysby unit uses data from the 1980 National Election Study by the Center for Political Studies at the University of Michigan.

SETUPS monographs can be ordered through APSA. Accompanying data are provided by ICPSR and are available without charge for each order of 25 or more of any one of the monographs in the SETUPS series. The new *Voting Behavior* monograph is available at \$5 per copy with a 20 percent discount for orders of 25 or more and with a shipping charge.

For more information on the SETUPS series and on this new monograph, write: SETUPS/APSA, 1527 New Hampshire Avenue, N.W., Washington, D.C. 20036. □

### Renamed Parties Subfield Plans Panel for Fall Meeting

Parties and Other Political Organizations, a continuing subfield of the APSA, has been renamed "Political Organizations/Parties" to produce the more sober acronym, POP. The group, which has been in existence only since 1979, will sponsor another special event at the 1982 APSA Convention.

This will be a Roundtable on "Political Organization Theory: New Developments." It will be chaired by Kay Lawson (San Francisco State) and will feature presentations by Kenneth Janda (Northwestern), Andrew Nathan (Columbia), and Wayne Peak (Colorado State) on their research into political organizations.

The participants will address these questions: What advances have they proposed in political organization theory? What problems do they face that merit further work? What problems have not been addressed by the authors that need attention? Students of political organizations are urged to attend and participate in the discussion. □

### 1983 Annual Meeting

#### Weisberg to Head Program Committee: Proposals Welcome

William Riker, President-elect of APSA, has appointed Herbert F. Weisberg of Ohio State University to chair the Program Committee for the 1983 Annual Meeting. In addition, scholars have been named to head the 23 sections planned for next year's Program.

The Program Committee is composed of Weisberg, the section heads, and James A. Caporaso of the University of Denver, who is the 1983 Associate Program

Chairperson in the area of International Relations.

The 1983 Annual Meeting will be held September 1-4, 1983, at the Palmer House in Chicago, Illinois.

On behalf of the Program Committee, Weisberg is soliciting from Association members paper suggestions and offers to appear as discussants for next year's meeting. "In general, proposals for individual papers are preferred to proposals for whole panels," Weisberg said.

Due to the lead time required for preparation of copy for the spring Preliminary Program, the deadline for receiving suggestions is December 1, 1982.

Association members are asked to *write directly to the appropriate section chairperson* listed below. More general inquiries or suggestions may be addressed to:

- Herbert F. Weisberg, Department of Political Science, 227 Derby Hall, Ohio State University, Columbus, Ohio 43210.
- James A. Caporaso, Graduate School of International Studies, University of Denver, Denver, Colorado 80208.
- Eloise French, Convention Coordinator, APSA, 1527 New Hampshire Avenue, N.W., Washington, D.C. 20036.

Further details on the plans for each section will be provided in the summer issue of *PS*. The section heads, subject to the approval of APSA Council, are:
