British Journal of Nutrition
An International Journal of Nutritional Science
Volume 101, 2009 ISSN: 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published fortnightly by Cambridge University Press on behalf of The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Editorial

- BJN to publish more issues and more papers in 2009.
P. C. Calder 1–1

Invited Commentary

- Immunology of pre- and probiotic supplementation.
M. P. Peppelenbosch & C. V. Ferreira 2–4

Review Article

- Niacin for dairy cattle: a review.
I.-D. Niehoff, L. Hüther & P. Lebzien 5–19

Nutritional Genomics

- Evidence for an association between genetic variants of the *fatty acid desaturase 1 fatty acid desaturase 2 (FADS1 FADS2)* gene cluster and the fatty acid composition of erythrocyte membranes.
P. Rzehak, J. Heinrich, N. Klopp, L. Schaeffer, S. Hoff, G. Wolfram, T. Illig & J. Linseisen 20–26

Metabolism and Metabolic Studies

- Maternal undernutrition leads to endothelial dysfunction in adult male rat offspring independent of postnatal diet.
C. Torrens, M. A. Hanson, P. D. Gluckman & M. H. Vickers 27–33

- Comparison of duodenal flow and digestibility in fauna-free sheep inoculated with Holotrich protozoa, *Entodinium* monofauna or total mixed protozoa population.
M. Ivan 34–40

- Dietary chia seed (*Salvia hispanica* L.) rich in α -linolenic acid improves adiposity and normalises hypertriacylglycerolaemia and insulin resistance in dyslipaemic rats.
A. G. Chicco, M. E. D'Alessandro, G. J. Hein, M. E. Oliva & Y. B. Lombardo 41–50

Microbiology

- Evaluation of the preventative effects exerted by *Lactobacillus fermentum* in an experimental model of septic shock induced in mice.
B. Arribas, M. E. Rodríguez-Cabezas, M. Comalada, E. Bailón, D. Camuesco, M. Olivares, J. Xaus, A. Zarzuelo & J. Gálvez 51–58

Human and Clinical Nutrition

- Low-fat dairy products and blood pressure: follow-up of 2290 older persons at high cardiovascular risk participating in the PREDIMED study.
E. Toledo, M. Delgado-Rodríguez, R. Estruch, J. Salas-Salvadó, D. Corella, E. Gomez-Gracia, M. Fiol, R. M. Lamuela-Raventós, H. Schröder, F. Arós, E. Ros, V. Ruíz-Gutiérrez, J. Lapetra, M. Conde-Herrera, G. Sáez, E. Vinyoles & M. A. Martínez-González 59–67

- What you think is not what they get: significant discrepancies between prescribed and administered doses of tube feeding.
P. W. J. H. van den Broek, E. L. Rasmussen-Conrad, A. H. J. Naber & G. J. A. Wanten 68–71

- Is the use of ultrasound-derived prediction equations for adults useful for estimating total and regional skeletal muscle mass in Japanese children?
T. Midorikawa, K. Sanada, A. Yoshitomi & T. Abe 72–78

- Antioxidant capacity, polyphenol content and iron bioavailability from algae (*Ulva* sp., *Sargassum* sp. and *Porphyra* sp.) in human subjects.
M. N. García-Casal, J. Ramírez, I. Leets, A. C. Pereira & M. F. Quiroga 79–85

- Total plasma carotenoids and mortality in the elderly: results of the Epidemiology of Vascular Ageing (EVA) study.
T. N. Akbaraly, A. Favier & C. Berr 86–92

Dietary Surveys and Nutritional Epidemiology

- Association between dietary saccharide intake and self-reported memory performance in middle-aged adults.
T. Best, E. Kemps & J. Bryan 93–99

- Associations between added sugars and micronutrient intakes and status: further analysis of data from the National Diet and Nutrition Survey of Young People aged 4 to 18 years.
S. Gibson & A. Boyd 100–107

- Macronutrient distribution over a period of 23 years in relation to energy intake and body fatness.
L. L. J. Koppes, N. Boon, A. C. J. Nooyens, W. van Mechelen & W. H. M. Saris 108–115

Long-chain polyunsaturated fatty acids in breast milk and early weight gain in breast-fed infants. <i>S. Scholtens, A. H. Wijga, H. A. Smit, B. Brunekreef, J. C. de Jongste, J. Gerritsen & J. C. Seidell</i>	116–121
Snacking patterns among adolescents: a comparison of type, frequency and portion size between Britain in 1997 and Northern Ireland in 2005. <i>M. A. Kerr, K. L. Rennie, T. A. McCaffrey, J. M. W. Wallace, M. P. Hannon-Fletcher & M. B. E. Livingstone</i>	122–131
Behaviour	
Consumer acceptance of nutrigenomics-based personalised nutrition. <i>A. Ronteltap, J. C. M. van Trijp & R. J. Renes</i>	132–144
Nutrition Discussion Forum	
Vitamin E supplementation may transiently increase tuberculosis risk in males who smoke heavily and have high dietary vitamin C intake – comments by Hernández-Garduño. <i>E. Hernández-Garduño</i>	145–145
Vitamin E supplementation may transiently increase tuberculosis risk in males who smoke heavily and have high dietary vitamin C intake – reply by Hemilä & Kaprio. <i>H. Hemilä & J. Kaprio</i>	146–147
Letter to the Editor	
Resveratrol, a new biomarker of moderate wine intake? <i>R. Zamora-Ros, R. M. Lamuela-Raventós, R. Estruch & C. Andres-Lacueva</i>	148–148
Book reviews	149–150
