

## GENERAL INFORMATION

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

The CMS publishes two research journals: the Canadian Journal of Mathematics (CJM) for longer papers, and the Canadian Mathematical Bulletin (CMB) for shorter papers. To be submitted to CJM, papers should be at least 18 pages long. Shorter papers should be submitted to the CMB. All submitted papers are considered subject to the understanding that they have not been published and that they are not being considered for publication elsewhere. To be accepted, papers must treat new mathematical research, be well written, and be of interest to a significant segment of the mathematical community. Papers may be written in English or French. Manuscripts must be prepared in accordance with the instructions for authors provided at

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information/information-for-author>

## SUBSCRIPTION INFORMATION

Subscription rates can be found at

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/subscribe>

Members of the CMS are entitled to a reduced subscription rate. For more information, please contact the CMS at [memberships@cms.math.ca](mailto:memberships@cms.math.ca).

### CANADA POSTMASTER

Canadian Mathematical Bulletin  
Publications Mail Registration:

40005057

Send address changes to:

Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006

### CANADIAN MATHEMATICAL BULLETIN

(USPS # 007527) is published 4 times per year, quarterly (March, June, September, December). Published by Cambridge University Press, One Liberty Plaza, New York, NY 10006 on behalf of the Canadian Mathematical Society. US Mailing Agent: Sheridan Press, 450 Fame Ave., Hanover, PA 17331 USA.

Periodicals postage paid at New York, NY and at additional mailing offices.

US POSTMASTER: Send address changes to Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006.

## RENSEIGNEMENTS GÉNÉRAUX

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

La SMC publie deux revues de recherche : le Journal canadien de mathématiques (JCM) qui présente des articles longs et le Bulletin canadien de mathématiques (BCM) des articles plus courts. Les articles destinés au JCM doivent compter au moins 18 pages. Les articles plus courts doivent être acheminés au BCM. Il est entendu que les articles présentés pour publication sont inédits et qu'ils ne sont pas à l'étude pour publication dans d'autres revues. Un article accepté porte sur des recherches récentes, est bien rédigé et s'avère susceptible d'intéresser bon nombre de mathématiciens. Nous acceptons les articles rédigés en langues anglaise ou française. Les articles doivent répondre aux conventions énoncés pour les auteurs au

## ABONNEMENTS

Les tarifs d'abonnements sont disponibles en ligne au

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/subscribe>

Les membres de la SMC ont droit à un taux d'abonnements réduits. Pour plus amples renseignements, veuillez contacter la SMC à [adhesions@smc.math.ca](mailto:adhesions@smc.math.ca).

### POSTES CANADIENNES

Bulletin canadien de mathématiques

No. d'enregistrement du courrier publications:  
40005057

Envoyer les changements d'adresses aux :

Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006

### BULLETIN CANADIEN DE MATHÉMATIQUES

(USPS # 007527) est publié 4 fois par an, tous les trimestres (mars, juin, septembre, décembre). Publié par Cambridge University Press, One Liberty Plaza, New York, NY 10006 au nom de la Société mathématique du Canada. Agent de poste US: Sheridan Press, 450 Fame Ave., Hanover, PA 17331 USA.

Postes payé à New York, et autres bureaux de diffusion supplémentaires.

POSTES AMÉRICAINES: Envoyer les changements d'adresses aux Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006.

257	A Comment on Ergodic Theorem for Amenable Groups	<i>Bartosz Frej, Dawid Huczek</i>
262	New Facts about the Vanishing Off Subgroup $V(G)$	<i>Nabil Mlaiki</i>
269	The Spectral Radius Formula for Fourier–Stieltjes Algebras	<i>Przemysław Ochrystko, Maria Roginskaya</i>
276	Oscillation Criteria for Second Order Ordinary Differential Equations	<i>Manabu Naito</i>
287	Sobolev’s Inequality for Riesz Potentials of Functions in Musielak–Orlicz–Morrey Spaces Over Non-doubling Metric Measure Spaces	<i>Takao Ohno, Tetsu Shimomura</i>
304	Discrete Paraproduct Operators on Variable Hardy Spaces	<i>Jian Tan</i>
318	Non-spectral Problem for Some Self-similar Measures	<i>Ye Wang, Xin-Han Dong, Yue-Ping Jiang</i>
328	Character Codegrees of Maximal Class $p$ -groups	<i>Sarah Croome, Mark L. Lewis</i>
335	Orders on Trees and Free Products of Left-ordered Groups	<i>Warren Dicks, Zoran Šunić</i>
348	On Subcartesian Spaces Leibniz’ Rule Implies the Chain Rule	<i>Richard Cushman, Jędrzej Śniatycki</i>
358	On Homogeneous Polynomials Determined by their Partial Derivatives	<i>Zhenjian Wang</i>
366	Spectrality of a Class of Moran Measures	<i>Ming-Liang Chen, Jing-Cheng Liu, Juan Su, Xiang-Yang Wang</i>
382	A Gap Principle for Subvarieties with Finitely Many Periodic Points	<i>Keping Huang</i>
393	Dense Orderings in the Space of Left-orderings of a Group	<i>Adam Clay, Tessa Reimer</i>
405	Stability of Almost Periodic Nicholson’s Blowflies Model Involving Patch Structure and Mortality Terms	<i>Chuangxia Huang, Xin Long, Lihong Huang, Si Fu</i>
423	Triviality Properties of Principal Bundles on Singular Curves. II	<i>P. Belkale, N. Fakhruddin</i>
434	Assouad Spectrum Thresholds for Some Random Constructions	<i>Sascha Troscheit</i>
454	On Some Topological Properties of Fourier Transforms of Regular Holonomic $\mathcal{D}$ -Modules	<i>Yohei Ito, Kiyoshi Takeuchi</i>
469	Measurable and Continuous Units of an $E_0$ -semigroup	<i>S. P. Murugan, S. Sundar</i>
479	On Homogeneous Polynomials Determined by their Partial Derivatives – CORRIGENDUM	<i>Zhenjian Wang</i>
