TRADE  
MARK 'Tabloid' BRAND

## Hypodermic Products.

Drugs for hypodermic injections must be pure, reliable, of the utmost nicety of dose, and ready for immediate use. 'Tabloid' Hypodermic Products possess all these qualities and none of the disadvantages of ready-made solutions, which may be unreliable as to strength, or septic and irritating. They keep unaltered for many years in any climate and are instantly soluble in the barrel of the syringe. . . .

*The B. W. & Co. Patent Hypodermic Syringe is specially constructed in view of its employment with 'Tabloid' Hypodermic Products.*

For full particulars and list see *Wellcome's Medical Diary*.
