BRITANNIA

NOTES FOR CONTRIBUTORS

I. ARTICLES AND SHORTER CONTRIBUTIONS

- 1. Articles and shorter contributions** should be submitted through the journal's ScholarOne online submission system at <https://mc.manuscriptcentral.com/britannia> but authors are welcome to discuss their plans in advance with the Editor, Professor Hella Eckardt, Department of Archaeology, University of Reading, Whiteknights, Box 227, Reading RG6 6AB (h.eckardt@reading.ac.uk). All articles and shorter contributions will be peer-reviewed anonymously, usually within three months. Articles normally have two reviewers, shorter contributions one, but the number is at the Editor's discretion. Where reviewers disagree in their assessment, the Editor and Editorial Board will make the final decision. Decisions about reviews are made by the Reviews Editor. Detailed comments from referees are normally available to the contributor, anonymously. Papers may be submitted at any time during the year; potential contributors may wish to discuss scheduling with the Editor in advance of submission. In order to protect the interests of authors, the Society requires all authors to sign a form assigning the Society an exclusive licence to publish (not copyright); if a paper includes textual or illustrative material not in the author's copyright, permission must be obtained from the relevant copyright owner for the non-exclusive right to reproduce the material worldwide in all forms and media. *Britannia* papers are published as Green Open Access; Gold Open Access is available – please discuss your plans with the Editor.
2. Excavation reports will be considered for publication if they are: (a) concise; (b) of national importance and/or offer a significant element of contextualisation and synthesis. Additional parts of the report can be placed online (see 7 below), but the main argument of the report submitted for publication in *Britannia* should be free-standing and should contain enough information to be coherent without reference to the supplementary material. It is essential that authors discuss proposed contributions with the Editor at an early stage: many excavation reports, even if clearly of national importance, will not be suitable for inclusion in *Britannia*.
3. The electronic submission system provides further information on the number and format of files to be submitted. *Britannia* style should be followed, but complex layout should not be attempted. Notes will appear as footnotes but should be presented as endnotes. Tables and figures should be supplied in separate files. Figure and table positions should be highlighted in the text.
4. On final submission papers should be complete in every particular. Every alteration made by an author in proof means higher production costs. The Society retains the right to charge authors for corrections/additions in proof in excess of £1 a page; the cost of correcting printer's errors does not fall on the Society. All proof corrections and additions are subject to the jurisdiction of the Editorial Board. Cross-references to pages within the article should be avoided. Unless there are exceptional circumstances first proofs only will be submitted to contributors.
5. All articles and shorter contributions should include an abstract (c. 120 and 80 words respectively) and c. 4–8 keywords. For style refer to previous copies of *Britannia*. Note, the language of publication will normally be English. Publications are to be cited by the author's name and the year of publication followed by the specific page or pages in a numbered footnote (e.g. Jones 1980, 6–9). The full reference to a publication is to be given in an alphabetical bibliography at the end of the paper; journal names should be given in full in the bibliography. Page references should only be given in the footnote if the reference is to a specific page or pages. Full page references of articles etc. should appear in the bibliography (f. and ff. should not be used to indicate following pages). Authors' initials should only appear in the footnotes if the bibliography contains two or more authors with the same surname (e.g. J. Smith 1990). For joint authorship give both names, for multiple authorship Jones *et al.* is acceptable in the footnotes but all authors should be listed in the bibliography. a, b, c etc. should be used to distinguish several works of the same year (e.g. Smith 1990a). Historical sources should appear in abbreviated form in the footnotes with full references in the bibliography.
6. Illustrations. The type area of a page in *Britannia* measures 194 by 138 mm. All drawings and photographs should be designed to be reduced to or within such a space. Scales in metres should be provided on plans and be long enough for any likely use. Illustrations do not need to be titled, captions should contain this information. Line artwork should be submitted as tif or eps files at 1200 dpi (black and white for line drawings; grayscale for line/tones). Black and white halftones should be submitted as tifs (greyscale) at a

minimum 300 dpi. Colour images should be in CMYK colour at a minimum 300 dpi. All electronic artwork should be sized to final publication size; reproduction size should be indicated on a list of the illustrations. For further information on artwork see instructions for authors at www.cambridge.org/core/services/authors/journals/journals-artwork-guide.

7. Supplementary material (catalogues, tables, illustrations etc.) which supports the article but cannot be included in the print journal for reasons of space may be published online as an attachment to the electronic journal. Any such material must be submitted in the form it is to appear online. For further information see www.romansociety.org/publications/contributions. Authors planning to submit supplementary material should contact the Editor.
8. Contributors will receive a pdf offprint of their article. Paper offprints will not be provided.

II. ROMAN BRITAIN IN 20XY

All contributions should be prepared in accordance with the journal's established style, as set out in the Notes for Contributors for Articles and Shorter Contributions.

(a) *Inscriptions*

1. This section will be published in its entirety both in the print and online versions of the journal.
2. Information should be sent to Dr R.S.O. Tomlin, Wolfson College, Oxford OX2 6UD (roger.tomlin@wolfson.ox.ac.uk), as soon as the inscribed material is ready for reporting, or at latest before 1 March of the year following discovery. See (b) 6 below for details required.
3. When photographs are taken the light should be raking and, where possible, from the left and well above the horizontal axis.
4. The principles which are followed for the inclusion or exclusion of inscriptions on pottery and tiles are set out in *RIB* I, p. xvii, s.v. scope (d) 1–4.

(b) *Sites Explored*

1. This section is intended to incorporate as comprehensive a resume as possible of all work undertaken across Roman Britain in any given year. It will be published in two parts:

- i. A selection of the most significant sites and discoveries for each region will be included both in the print and online versions of the journal. Particular emphasis will be placed on entries which have national importance or make a significant contribution to the subject, have accompanying plans and illustrations, and where the findings have ideally been suitably contextualised. The selection of material to be included will be made by the overall editor of the Sites Explored section in consultation with the appropriate regional editor, with reference to the space available in the print journal and the significance of the findings. The selection will also seek to achieve a regional and thematic balance.

- ii. All the remaining contributions for each region will only be included in an online file of supplementary material. This is likely to include material from smaller-scale interventions, sites of more regional or local significance, or discoveries of Roman material which testify to Roman-period activity at a specific locality. All the supplementary online material will be in A4 format, with footnotes, and will be accessible via the online-journal webpage.

2. All information about sites and discoveries other than inscriptions or those reported via the Portable Antiquities Scheme should be sent before **31 March** of the year following discovery to:

Wales (Section 1): Mr E. Chapman, Department of Archaeology and Numismatics, National Museum of Wales, Cathays Park, Cardiff CF10 3NP (evan.chapman@museumwales.ac.uk).

Scotland (Section 2): Dr F. Hunter, National Museums of Scotland, Chambers Street, Edinburgh EH1 1JF (f.hunter@nms.ac.uk).

Hadrian's Wall (Section 3) and Northern England (Section 4, which comprises Cheshire, County Durham, Cumbria, Lancashire, Lincolnshire, Northumberland, Yorkshire and associated unitary authorities): Dr Rob Collins, School of History, Classics and Archaeology, Newcastle University, Newcastle upon Tyne NE1 7RU (robert.collins@newcastle.ac.uk).

The Midlands (Section 5, which comprises Bedfordshire, Buckinghamshire, Cambridgeshire, Derbyshire, Herefordshire, Hertfordshire, Leicestershire, Oxfordshire, Northamptonshire, Nottinghamshire, Rutland,

Staffordshire, Shropshire, Warwickshire, Worcestershire and associated unitary authorities) and East Anglia (Section 6, which comprises Essex, Norfolk, Suffolk and associated unitary authorities): Alice Lyons, 31 Portersfield Road, Norwich, Norfolk NR2 3JT (alice.lyons1@ntlworld.com).

Greater London (Section 7) and Southern Counties (east) (Section 9b, which comprises Berkshire, East Sussex, Kent, Surrey, West Sussex and associated unitary authorities): Sadie Watson, MoLA, Mortimer Wheeler House, 46 Eagle Wharf Road, London N1 7ED (swatson@mola.org.uk).

Southern Counties (west) (Section 9a, which comprises Dorset, Hampshire, Isle of Wight, Wiltshire and associated unitary authorities) and South-Western Counties (Section 8, which comprises Cornwall, Devon, Somerset, Gloucestershire and associated unitary authorities): Dr John Salvatore, JPS Heritage Services, Apt. 1, Old St Loyes, Salters Road, Exeter EX2 5SZ (johnpsalvatore@gmail.com).

3. Information on projects including surveys, excavations and evaluations that yield evidence for Roman-period activity is welcomed. Reports should be as concise as is consonant with clarity and comprehensibility, make reference to significant dating evidence and seek to provide an appropriate level of interpretation and contextualisation. They should avoid the level of detail appropriate to an interim or final report, and in all but exceptional circumstances should be less than 1,000 words in length. Negative evidence will not normally be included except where it is relevant to the wider aspects of an otherwise significant site.
4. Where results are particularly significant, or where there is the opportunity to collate the results of several years' work on a long-running investigation which has reached a significant stage or terminated, contributors are also encouraged to contact the Editor at an early stage as the submission of a Shorter Contribution may be deemed advantageous to the readership in advance of final publication (this would allow for accounts of up to 3,500 words). Such contributions will be subject to the normal peer-review process.
5. Plans and other illustrations which enhance understanding of complex and significant investigations are particularly welcomed. It is the responsibility of contributors to ensure that appropriate copyright permissions have been obtained for all illustrations submitted, including those applicable to Ordnance Survey mapping. If a contribution contains illustrative material that is not in the contributor's copyright, permission must be obtained from the relevant copyright owner for the non-exclusive right to reproduce the material worldwide in all forms and media. Illustrations submitted for inclusion in the print journal should conform to the instructions relating to illustrations accompanying Articles and Shorter Contributions.
6. Contributions should be submitted as MS Word-compatible files by email attachment or CD. They should state the county or unitary authority area and, on a separate line, the parish (in bold type), site name (in italic type) and eight-figure National Grid Reference with letter preface (e.g. SU 1830 3915). If the contribution is accompanied by illustrations, captions should be supplied which state the name of the individual or organisation responsible for the illustration and any copyright accreditations. The following details should be included as footnotes:
 - (a) The name(s) of the individuals responsible for the direction of the investigation (in a commercial environment this might be the Project Officer and/or the Project Manager) and/or for the drafting of the contribution, and, where appropriate, the name of the investigating organisation;
 - (b) The body funding the investigation (where applicable);
 - (c) A reference to any previous exploration of the site, where this is directly relevant to the investigation being reported;
 - (d) Recent and forthcoming publications. Where the investigation is reported in a grey-literature report which is available online, a hyperlink should be included (where possible, a DOI should be cited).
7. Dimensions should be given in *Système Internationale* units, e.g. metres (m), kilometres (km), hectares (ha), grammes (g). Non-metric equivalents may also be given where useful for comparison with earlier data.

III. REVIEWS

The Reviews Editor is Professor Will Bowden (will.bowden@nottingham.ac.uk) and contributions should be sent directly to him. Books for review should be sent to the Librarian, Joint Library, Hellenic and Roman Societies, Senate House, Malet Street, London WC1E 7HU.
