THE SCOTTISH OTOLOGICAL AND LARYNGOLOGICAL SOCIETY.

The Society offers a prize of £20 for the best piece of Clinical or Laboratory Research Work in Otolaryngology. The prize is open to Clinical Tutors, Clinical Assistants and House Surgeons attached to the clinics of Ordinary and Corresponding Members of the Society, and to those Members of the Scottish Society of not more than ten years' standing as specialists. Further particulars of the prize may be obtained from the Hon. Interim Secretary, Dr. A. Brownlie Smith, 4 Walker Street, Edinburgh, and all papers embodying the research work must be sent to him not later than September 1st, 1936.

Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
