

METROPOLITAN LATIN AMERICA: The Challenge and the Response

Latin American Urban Research, Volume 6

edited by WAYNE A. CORNELIUS, *Massachusetts Institute of Technology*
ROBERT V. KEMPER, *Southern Methodist University*

This volume focuses on the most critical problems confronting nine major Latin American and Caribbean cities, and the actual responses of local and national governments to these problems. Each chapter provides a comprehensive overview of urban development problems and government performance in dealing with them in a single metropolitan area. Contributors also discuss the role of the metropolitan area in regional and national development, and the tensions between government policies aimed at the problems of the metropolitan area and policies for national and regional development. The volume provides indispensable source material for scholars doing research on specific cities as well as an empirical base for comparative urban studies. It also includes a 1,600-item bibliography of studies on urban Latin America published during the 1974-1976 period.
