

LIST OF PARTICIPANTS

BELGIUM

P. Cugnon – Observatoire Royal de Belgique, (Brussels)

BRAZIL

J. A. M. Machado – Instituto Astronomico e Geofisico (Sao Paulo)

G. R. Quast – Instituto Astronomico e Geofisico (Sao Paulo)

CANADA

W. W. Duley – York University (Ontario)

G. Fahlman – University of British Columbia (Vancouver)

G. L. Floyd – York University (Ontario)

J. D. McCullough – York University (Ontario)

R. H. Prince – York University (Ontario)

S. van den Bergh – David Dunlop Observatory (Ontario)

CZECHOSLOVAKIA

V. Vanýsek – Charles University (Prague)

FRANCE

E. Bussoletti – Observatoire de Paris

G. Courtes – Observatoire de Marseille

P. Lena – Observatoire de Paris

R. Louise – Observatoire de Lyon

G. Stazinska – Observatoire de Meudon

GERMANY

H. D. Breuer – Universität des Saarlandes (Saarbrücken)

F. F. Gardner – Max Planck Institut für Radioastronomie (Bonn)

P. G. Mezger – Max Planck Institut für Radioastronomie (Bonn)

Y. K. Minn – Max Planck Institut für Radioastronomie (Bonn)

Th. Schmidt – Max Planck Institut für Astronomie (Heidelberg)

K. Voelcker – Max Planck Institut für Astronomie (Heidelberg)

GREAT BRITAIN

R. D. Davies – Nuffield Radio Astronomy Laboratory (Cheshire)

F. A. Goldsworthy – University of Leeds

Great Britain (continued)

- A. Martin – University of Cambridge
P. Martin – Institute of Theoretical Astronomy (Cambridge)
D. McNally – University of London Observatory
N. C. Wickramasinghe – Institute of Theoretical Astronomy (Cambridge)

HOLLAND

- J. Borgman – Kapteyn Sterrewacht (Roden)
M. de Vries – Kapteyn Sterrewacht (Roden)
B. Fitton – European Space Research Organization (Noordwijk)
H. Habing – Sterrewacht te Leiden
H. C. van de Hulst – Sterrewacht te Leiden
P. R. Wesselius – Sterrenkundig Laboratorium ‘Kapteyn’ (Groningen)
R. Willis – European Space Research Organization (Noordwijk)

INDIA

- K. S. Krishna-Swamy – TATA Institute for Fundamental Research (Bombay)
T. K. Menon – TATA Institute for Fundamental Research (Bombay)

ITALY

- G. V. Coyne, S.J. – Vatican Observatory
P. J. Treanor, S.J. – Vatican Observatory

JAPAN

- S. Hayakawa – Nagoya University
S. Isobe – Tokyo Astronomical Observatory
F. Kamijo – University of Tokyo
H. Okuda – Kyoto University
M. Shimizu – University of Tokyo

MEXICO

- I. M. Peimbert – Insti. de Astron. UNAM
S. T. Peimbert – Insti. de Astron. UNAM

SCOTLAND

- K. Nandy – Royal Observatory

SWEDEN

- A. Elvius – Stockholm Observatorium
L. O. Lodén – Astronomiska Observatory

SWITZERLAND

- A. Behr – European Southern Observatory (Geneva)

UNITED STATES OF AMERICA

- P. Aannestad – NASA Goddard Research Institute (New York)
M. A'Hearn – University of Maryland
L. Aller – University of California at Los Angeles
B. J. Bok – Steward Observatory (University of Arizona)
J. H. Cahn – University of Illinois
A. G. W. Cameron – Yeshiva University (New York)
L. Caroff – NASA Ames Research Center (California)
B. Carroll – Rutgers University (New Jersey)
E. Chappelle – Goddard Space Flight Center (Greenbelt, Md.)
A. D. Code – University of Wisconsin
A. J. Cohen – University of Pittsburgh (Pennsylvania)
S. Cohen – Massachusetts Institute of Technology
C. C. Dahn – U. S. Naval Observatory (Washington, D.C.)
K. L. Day – Ohio State University
L. Denoyer – Cornell University (New York)
H. R. Dickel – University of Illinois Observatory
B. D. Donn – Goddard Space Flight Center (Greenbelt, Md.)
M. Dubin – NASA (Washington, D.C.)
J. W. Erkes – State University of New York at Albany
M. Feldman – University of California at Berkeley
R. L. Ferch – Cornell University (New York)
T. Gehrels – University of Arizona
D. P. Gilra – University of Wisconsin
P. Goldsmith – University of California at Berkeley
W. R. M. Graham – University of Florida
J. M. Greenberg – State University of New York at Albany
L. Greenberg – University of California at Berkeley
J. Hackwell – University of Wyoming
M. S. Hanner – Dudley Observatory (New York)
D. Harris – University of Arizona
M. Harwit – Cornell University (New York)
D. S. Hayes – Rensselaer Polytechnic Institute (New York)
C. E. Heiles – University of California at Berkeley
C. L. Hemenway – Dudley Observatory and State University of New York at Albany
R. C. Henry – Johns Hopkins University (Maryland)
R. K. Honeycutt – Indiana University
S. S. Hong – State University of New York at Albany
D. R. Huffman – University of Arizona
J. H. Hunter – University of South Florida
Y. Itikawa – Argonne National Laboratory (Illinois)
E. B. Jenkins – Princeton University (New Jersey)

U.S.A. (continued)

- F. M. Johnson – California State College at Fullerton
H. M. Johnson – Lockheed (California)
M. Kaftin-Kassim – State University of New York at Albany
D. W. Kammer – Albion College (Michigan)
F. J. Kerr – University of Maryland
B. N. Khare – Cornell University (New York)
L. W. King – Cornell University (New York)
S. Kleinmann – Massachusetts Institute of Technology
W. Klemperer – Harvard University (Massachusetts)
C. K. Kumar – Carnegie Institute (Washington, D.C.)
C. F. Lillie – University of Colorado
C. C. Lin – Massachusetts Institute of Technology
S. Lloyd – Cornell University (New York)
J. H. Lutz – Washington State University
A. S. Milman – University of Maryland
N. Y. Misconi – State University of New York at Albany
M. R. Morris – University of Chicago (Illinois)
P. E. Palmer – University of Chicago (Illinois)
P. Parrish – University of California at Berkeley
S. E. Persson – Harvard College Observatory (Massachusetts)
P. Pesch – Warner and Swasey Observatory (Ohio)
V. Petrosian – Stanford University (California)
A. G. D. Philip – State University of New York at Albany
J. L. Pipher – University of Rochester (New York)
M. Price – Massachusetts Institute of Technology
E. M. Purcell – Harvard University (Massachusetts)
R. Reeves – Rensselaer Polytechnic Institute (New York)
L. J. Rickard – University of Chicago (Illinois)
F. E. Roach – Honolulu, Hawaii
J. Roach – Boulder, Colorado
T. P. Roark – Ohio State University
K. Rohlfs – University of Maryland
E. E. Salpeter – Cornell University (New York)
B. D. Savage – University of Wisconsin
M. P. Savedoff – University of Rochester (New York)
D. C. Schmalberger – State University of New York at Albany
K. Serkowski – University of Arizona
S. J. Shawl – University of Kansas
F. H. Shu – State University of New York at Stony Brook
S. C. Simonson – University of Maryland
G. Sistla – State University of New York at Albany
T. Snow – University of Washington

U.S.A. (continued)

- L. E. Snyder – University of Virginia
L. Spitzer, Jr. – Princeton University (New Jersey)
T. P. Stecher – Joint Institute for Laboratory Astronomy (Colorado)
C. Sturch – University of Rochester (New York)
L. G. Taff – University of Rochester (New York)
S. Tapia – University of Arizona
S. C. Temesvary – State University of New York at Albany
L. E. Tifft – State University of New York at Albany
M. Tomasko – University of Arizona
B. E. Turner – National Radio Astronomy Observatory (Virginia)
G. L. Verschuur – National Radio Astronomy Observatory (Virginia)
D. Wallace – Cornell University (New York)
W. D. Watson – Cornell University (New York)
J. L. Weinberg – Dudley Observatory (New York)
M. W. Werner – University of California at Berkeley
J. A. Williams – Albion College (Michigan)
A. N. Witt – University of Toledo (Ohio)
F. C. Witteborn – NASA Ames Research Center (California)
R. D. Wolstencroft – University of Hawaii at Honolulu
N. J. Woolf – University of Minnesota
J. P. Wright – NSF (Washington, D.C.)
C. C. Wu – University of Wisconsin Experimenter's Office (Greenbelt, Md.)
C. G. Wynn-Williams – California Institute of Technology
A. J. Yencha – State University of New York at Albany
T. T. Zajdel, Jr. – University of Pittsburgh (Pennsylvania)
B. Zellner – University of Arizona
