# Experimental Agriculture

## Editor

Dave Harris, *ICRISAT, Kenya*

*Experimental Agriculture* publishes the results of original research from any source on the agronomy of field, plantation and herbage crops grown for human or animal food; for industrial purposes; and on systems of agricultural production, particularly in the warmer regions of the world. It is especially concerned with experimental work designed to explain agronomic results in biological and environmental terms. The journal publishes accounts of new experimental techniques, new methods of crop production and discusses problems in countries where production is developing rapidly. There are regular book reviews and occasional, often invited, reviews of research.

# Seed Science Research

The official journal of the International Society for Seed Science (ISSS)

**Editor-in-Chief**

H.W.M. Hilhorst, Wageningen University, The Netherlands

*Seed Science Research* is an international journal publishing original and opinion papers, as well as reviews. The Journal deals primarily with the fundamentals of seed research with emphasis on the physiology, biochemistry, molecular biology and ecology of seed development, dormancy and germination.

The importance of seeds to propagation, food, biofuel and biodiversity is of increasing interest and therefore submissions on seed genetics, seed biotechnology, seed treatment and seedling establishment are especially encouraged if they are novel and 'seed driven'.

# Renewable Agriculture and Food Systems

Volume 27 Number 2 June 2012

## Preliminary Reports

Meeting the 'multi-' requirements in organic agriculture research: Successes, challenges and recommendations for multifunctional, multidisciplinary, participatory projects

*Mary Barbercheck, Nancy Ellen Kiernan, Andrew G Hulting, Sjoerd Duiker, Jeffrey Hyde, Heather Karsten, and Elsa Sanchez* 93

Exploring the potential for sustainable weed control with integrated rice-fish culture for smallholder irrigated rice agriculture in the Maranhão Lowlands of Amazonia

*Aurea Maria Barbosa de Sousa, Raimundo Reginaldo Soares Santos, Flávio Henrique Reis Moraes, and Christoph Gehring* 107

## Research Papers

Integrated crops and livestock in central North Dakota, USA:

Agroecosystem management to buffer soil change

*M.A. Liebig, D.L. Tanaka, S.L. Kronberg, E.J. Scholljegerdes, and J.F. Karn* 115

Mapping potential foodsheds in New York State by food group:

An approach for prioritizing which foods to grow locally

*Christian J. Peters, Nelson L. Bills, Arthur J. Lembo, Jennifer L. Wilkins, and Gary W. Fick* 125

Potential and limitations of organic and fair trade cotton for improving livelihoods of smallholders: evidence from Central Asia

*Felicitas Bachmann* 138

An integrated mechanical and chemical method for managing prostrate cover crops on permanent beds

*N.R. Hulugalle, L.A. Finlay, and T.B. Weaver* 148

Indian farmers' experience with and perceptions of organic farming

*P. Panneerselvam, Niels Halberg, Mette Vaarst, and John Erik Hermansen* 157
