**Publisher:** Katy Christomanou

**Special sales and supplements:**

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: [special\\_sales@cambridge.org](mailto:special_sales@cambridge.org)

**Subscription information:**

*British Journal of Nutrition* is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2012 comprise Volume 107, the twelve issues starting July 2012 comprise Volume 108.

**Annual subscription rates:**

Volumes 107/108 (24 issues):  
Internet/print package £1113/\$2169/€1782  
Internet only: £877/\$1710/€1401  
Print only: £1060/\$2067/€1723

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Back volumes** are available. Please contact Cambridge University Press for further information.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**US POSTMASTERS:** please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

**Directions to Contributors** are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org> (an abbreviated Notes for Authors can be found inside the back cover).

**Offprints:** The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

**Copyright:** As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

# Nutrition Research Reviews

Published on behalf of The Nutrition Society

**Editor-in-Chief**

Graham C. Burdge, University of Southampton, UK

*Nutrition Research Reviews* offers a comprehensive overview of nutritional science today. By distilling the latest research and linking it to established practice, the journal consistently delivers the widest range of in-depth articles in the field of nutritional science and has done so for the past twenty-one years. It presents up-to-date, concise and critical reviews of key topics in nutrition science, advancing new concepts and hypotheses that encourage the exchange of fundamental ideas on nutritional well-being in both humans and animals.

# *British Journal of Nutrition*

## Directions to Contributors - Concise Version

### (Revised August 2007)

The *British Journal of Nutrition* is an international peer-reviewed journal that publishes original papers, review articles, technical notes and short communications in English in all branches of nutritional science. **Prospective authors should note that they (or their institutions) now retain the copyright of their material published in the *British Journal of Nutrition*.** As a contributor you are asked to follow the guidelines set out below. For detailed information on the presentation of the technical content of your paper please see the full version of the **Directions to Contributors**, which can be downloaded from the Nutrition Society website (<http://www.nutrition-society.org>). Prospective authors may also contact the Publications Office directly on + 44 (0)20 7605 6555 (telephone), +44 20 7602 1756 (fax), or [edoffice@nutsoc.org.uk](mailto:edoffice@nutsoc.org.uk) (email).

**Papers should be accompanied by a statement to the effect that the conditions laid down in the full Directions to Contributors are accepted. The statement should affirm that the submission represents original work that has not been published previously and which is not currently being considered by another journal. It should also confirm that each author has seen and approved the contents of the submitted paper. At the time of acceptance the authors should provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer). The Licence to Publish is available on the Nutrition Society website (<http://www.nutrition-society.org>). All relevant financial interests should be declared.**

**Text.** Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only, the need for any further changes should at most reflect any minor issues.**

**Title Page.** The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply three or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head.

**Abstract.** Each paper should commence with an accurate and informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text or figures, and should not exceed 250 words.

**Tables.** Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page for each Table, at the end of the article and carry headings describing their content.

**Illustrations.** The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they clearly contribute to the text. All figures should be numbered and legends should be provided.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

**References.** References should be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhubarb (*Rheum rhabarbarum*) stalk fibre stimulates cholesterol 7 $\alpha$ -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.

Jenkins DJ, Kendall CW, Marchie A, *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.

Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.

Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted<sup>(1,2-4)</sup>'. If a reference is cited more than once the same number should be used each time.

**Referees.** Authors are asked to submit the names of up to four scientists who would be well-qualified to review the paper; however, no more than one such reviewer will be used. The email addresses and institutions of the named reviewers should be given.

**Proofs.** PDF page proofs will be emailed to authors for checking, and should be returned within 3 days (by fax or Express mail) to the BJN Production Editor, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, UK; fax +44 1223 325802, email [bjnproduction@cambridge.org](mailto:bjnproduction@cambridge.org)

**Typescripts. The *British Journal of Nutrition* operates an on-line submission and reviewing system (eJournalPress). Authors should submit to the following address: <http://bjn.msubmit.net/> If any difficulties are encountered please contact the Publications Office (details above) immediately.**

**Short Communication**

- DHA-rich oil modulates the cerebral haemodynamic response to cognitive tasks in healthy young adults: a near IR spectroscopy pilot study.  
P. A. Jackson, J. L. Reay, A. B. Scholey & D. O. Kennedy 1093–1098

**Molecular Nutrition**

- Chronic dietary intake of  $\alpha$ -linolenic acid does not replicate the effects of DHA on passive properties of entorhinal cortex neurons.  
D. Arsenaault, C. Julien & F. Calon 1099–1111
- Effects of glutamine supplementation on oxidative stress-related gene expression and antioxidant properties in rats with streptozotocin-induced type 2 diabetes.  
P.-H. Tsai, J.-J. Liu, C.-L. Yeh, W.-C. Chiu & S.-L. Yeh 1112–1118
- Vitamin C and fibre consumption from fruits and vegetables improves oxidative stress markers in healthy young adults.  
H. H. M. Hermsdorff, K. B. F. Barbosa, A. C. P. Volp, B. Puchau, J. Bressan, M. Á. Zulet & J. A. Martínez 1119–1127

**Metabolism and Metabolic Studies**

- Plasma appearance and disappearance of an oral dose of 25-hydroxyvitamin D<sub>2</sub> in healthy adults.  
K. S. Jones, I. Schoenmakers, L. J. C. Bluck, S. Ding & A. Prentice 1128–1137
- Effect of dietary supplementation with unprocessed and ethanol-extracted apple pomaces on caecal fermentation, antioxidant and blood biomarkers in rats.  
J. Juszkiewicz, E. Żary-Sikorska, Z. Zduńczyk, B. Król, J. Jarosławska & A. Jurgowski 1138–1146
- Effect of the level and type of starchy concentrate on tissue lipid metabolism, gene expression and milk fatty acid secretion in Alpine goats receiving a diet rich in sunflower-seed oil.  
L. Bernard, C. Leroux, J. Rouel, M. Bonnet & Y. Chilliard 1147–1159
- Marine collagen peptides protect against early alcoholic liver injury in rats.  
B. Lin, F. Zhang, Y. Yu, Q. Jiang, Z. Zhang, J. Wang & Y. Li 1160–1166

**Developmental Biology**

- Early protein malnutrition disrupts cerebellar development and impairs motor coordination.  
S. C. Ranade, Md. S. Nawaz, P. K. Rambhla, A. J. Rose, P. Gressens & S. Mani 1167–1175

**Human and Clinical Nutrition**

- Hypocholesterolaemic effects of lupin protein and pea protein/fibre combinations in moderately hypercholesterolaemic individuals.  
C. R. Sirtori, M. Triolo, R. Bosisio, A. Bondioli, L. Calabresi, V. De Vergori, M. Gomasarshi, G. Mombelli, F. Pazzucconi, C. Zacherl & A. Arnoldi 1176–1183

- Natto and viscous vegetables in a Japanese-style breakfast improved insulin sensitivity, lipid metabolism and oxidative stress in overweight subjects with impaired glucose tolerance.  
A. Taniguchi-Fukatsu, H. Yamanaka-Okumura, Y. Naniwa-Kuroki, Y. Nishida, H. Yamamoto, Y. Taketani & E. Takeda 1184–1191
- Body fat and fat-free mass measured by bioelectric impedance spectroscopy and dual-energy X-ray absorptiometry in obese and non-obese adults.  
P. Berstad, A. Randby, G. S. Ekeland, H. Ulveland, T. Omland & K. Almendingen 1192–1200
- Equol production changes over time in pre-menopausal women.  
A. A. Franke, J. F. Lai, I. Pagano, Y. Morimoto & G. Maskarinec 1201–1206

**Dietary Survey and Nutritional Epidemiology**

- Dietary patterns and risk of oesophageal cancers: a population-based case-control study.  
T. I. Ibiebele, M. C. Hughes, D. C. Whiteman, P. M. Webb & for The Australian Cancer Study 1207–1216

**Innovative techniques**

- Determinants of bioelectrical phase angle in disease.  
N. Stobäus, M. Pirlich, L. Valentini, J. D. Schulzke & K. Norman 1217–1220
- The development and evaluation of a novel Internet-based computer program to assess previous-day dietary and physical activity behaviours in adults: the Synchronised Nutrition and Activity Program for Adults (SNAPA™).  
F. C. Hillier, A. M. Batterham, S. Crooks, H. J. Moore & C. D. Summerbell 1221–1231

**Behaviour, Appetite and Obesity**

- No effect of 12 weeks' supplementation with 1 g DHA-rich or EPA-rich fish oil on cognitive function or mood in healthy young adults aged 18–35 years.  
P. A. Jackson, M. E. Deary, J. L. Reay, A. B. Scholey & D. O. Kennedy 1232–1243

**Corrigendum**

- Development of a dish-based, semi-quantitative FFQ for the Korean diet and cancer research using a database approach – CORRIGENDUM.  
M. K. Park, D. W. Kim, J. Kim, S. Park, H. Joung, W. O. Song & H. Y. Paik 1244
