# Remove hair 50% fast**OR**

## Glide through preoperative skin preparation 50% faster than 3M clippers.

A recent comparative study showed CareFusion Surgical Clippers consistently outperformed 3M Surgical Clipper Model 9661 (purple) and removed hair *more than 50% faster* ( $p < 0.05$ ) while maintaining skin integrity.<sup>1</sup> You'll feel the difference as CareFusion Surgical Clippers remove hair in a *single pass* for less patient skin irritation. And reducing skin disruption can help minimize the risk of infection.

Visit [www.clippers.chloraprep.com](http://www.clippers.chloraprep.com) today and register for a free, no-obligation OR Trial Kit, which includes a clipper handle with charging adapter, three types of easy-to-change blades, Chloraprep® Hi-Lite Orange skin preparation, training materials and more!

# THE SOCIETY FOR HEALTHCARE EPIDEMIOLOGY OF AMERICA

Infection prevention and control in healthcare settings is a critical public health problem rapidly gaining interest.

**Are you current with the latest trends and evidence?**

**Join SHEA Today!**

Stay on top of emerging science and evidence-based strategies to prevent and control infections and to improve quality-of-care in your healthcare facility.

SHEA supports members' efforts to improve patient care and healthcare worker safety through:

- Research
- Education & Training
- Policy Development
- Evidence-based Practical Guidelines
- Mentorship and Professional Development

## Find the latest in infection control research and practice information in AJIC

### American Journal of Infection Control

EDITOR: Elaine L. Larson, RN, PhD, FAAN, CIC

**AJIC** covers key topics and issues in infection control and epidemiology. Infection control professionals, including physicians, nurses, and epidemiologists, rely on **AJIC** for peer-reviewed articles covering clinical topics as well as original research. As the official publication of the *Association for Professionals in Infection Control and Epidemiology, Inc. (APIC)*, **AJIC** is the foremost resource on infection control, epidemiology, infectious diseases, quality management, occupational health, and disease prevention. **AJIC** also publishes relevant infection control guidelines. **AJIC** is included in Index Medicus and CINAHL.

# Practical Healthcare Epidemiology

3rd edition

Newly revised & updated

\$185

Order your copy online at  
[www.press.uchicago.edu](http://www.press.uchicago.edu)

Address infection prevention and quality of patient care with this newly updated, practical, hands-on guide to epidemiologic principles and prevention strategies.

## How to:

- Implement and manage surveillance effectively
- Apply epidemiological methods appropriately
- Conduct an outbreak investigation
- Survey for and prevent specific healthcare-associated infections
- Maintain compliance with hand hygiene
- Use patient isolation effectively
- Control the use of antimicrobials
- Employ the microbiology laboratory and molecular typing systems
- Extend infection control programs to outpatients and long-term care facilities
- Perform exposure workups and manage employee health
- Negotiate with administrators about resources, policy, and pay
- Meet regulatory and accreditation agencies requirements

## New chapters on:

- *Clostridium difficile* infection
- Urinary tract infection
- Healthcare-acquired pneumonia
- Sterilization and disinfection
- Performance and quality improvement
- Government mandates and infection control
- Preparing for biological disasters and pandemics
- Infection prevention in resource-limited settings

## Clinical Governance

*An International Journal*

*Clinical Governance: An International Journal* aims to address the doubts, queries, triumphs and practical applications of introducing quality assurance mechanisms into the delivery of care.

The journal takes an international stance and covers key developments worldwide which can inform best practice in health care. Efficiency, effectiveness and economics are the main factors in the assessment of best practice and all are addressed in the research- audit- and evidence-based papers published. All papers are peer reviewed to ensure their validity and value to current debates.

### **The journal publishes:**

- Research articles which illustrate clear implications for practice
- Results-focused case studies which discuss problems and successes in clinical governance techniques
- Special issues on topical themes

# NEW CDC GUIDELINES FOR **TARGETED** TB TESTING

## GUIDELINE HIGHLIGHTS

The **T-SPOT®.TB** test may now be used in place of the tuberculin skin test (TST) in all situations in which the CDC recommends tuberculin skin testing.<sup>1</sup>

### **Targeted Testing Specific Recommendations:**

- ▶ “An IGRA is **preferred** for testing persons who have received BCG.”<sup>1</sup>
- ▶ “An IGRA is **preferred** for testing persons from groups that historically have low rates of returning to have TSTs read.”<sup>1</sup>

### **Are you challenged by:**

- BCG vaccinated individuals?
- Two-step new hire testing?
- TST non-returners?
- TST reliability?

Eliminate these headaches  
with a new, **SIMPLE** solution.
