CONTENTS

SHEA/IDSA/APIC Practice Recommendations

- 355** SHEA/IDSA/APIC Practice Recommendation: Strategies to prevent healthcare-associated infections through hand hygiene: 2022 Update
Janet B. Glowicz, Emily Landon, Emily E. Sickbert-Bennett, Allison E. Aiello, Karen deKay, Karen K. Hoffmann, Lisa Maragakis, Russell N. Olmsted, Philip M. Polgreen, Polly A. Trexler, Margaret A. VanAmringe, Amber R. Wood, Deborah Yokoe and Katherine D. Ellingson

Original Articles

- 377** Central-line-associated bloodstream infections and central-line-associated non-CLABSI complications among pediatric oncology patients
Aml S. Kelada, Timothy B. Foster, Gregory C. Gagliano, Sarah Worley, Anne Tang, Venkatraman A. Arakoni and Charles B. Foster
- 384** A mixed-methods evaluation of the national implementation of the Hospital-Acquired Pneumonia Prevention by Engaging Nurses (HAPPEN) initiative
Lauren D. Stevenson, Shannon Munro, Robert Klocko and George Sayre
- 392** A multimodal intervention to decrease inappropriate outpatient antibiotic prescribing for upper respiratory tract infections in a large integrated healthcare system
Lisa E. Davidson, Erin M. Gentry, Jennifer S. Priem, Marc Kowalkowski and Melanie D. Spencer
- 400** Performance of infectious diseases specialists, hospitalists, and other internal medicine physicians in antimicrobial case-based scenarios: Potential impact of antimicrobial stewardship programs at 16 Veterans' Affairs medical centers
Christopher J. Graber, Alissa R. Simon, Yue Zhang, Matthew Bidwell Goetz, Makoto M. Jones, Jorie M. Butler, Ann F. Chou and Peter A. Glassman
- 406** Reporting behaviors and perceptions toward the National Healthcare Safety Network antimicrobial use (AU) and antimicrobial resistance (AR) modules
Brian J. Werth, Thomas J. Dilworth, Zahra Kassamali Escobar, Alan E. Gross, Katie J. Suda, Andrew M. Morris, Jessina C. McGregor and Kristi Kuper
- 413** Bacterial infections and antibiotic utilization varies by coronavirus disease 19 (COVID-19) severity in hospitalized cancer patients: Analysis from the first phase of the pandemic
Kayla R. Maki, Samantha N. Steiger, Yiqi Su, Aida Boumiza, Carrie A. Tan, Marina Kerpelev, Susan K. Seo and Nina Cohen
- 420** Healthcare-associated infections in Veterans Affairs acute-care and long-term healthcare facilities during the coronavirus disease 2019 (COVID-19) pandemic
Martin E. Evans, Loretta A. Simbartl, Stephen M. Kralovic, Marla Clifton, Kathleen DeRoos, Brian P. McCauley, Natalie Gaudin, Linda K. Flarida, Shantini D. Gamage, Makoto M. Jones and Gary A. Roselle
- 427** Use of serial testing to interrupt a severe acute respiratory coronavirus virus 2 (SARS-CoV-2) outbreak on a hospital medical floor—Minnesota, October–December 2020
Rajesh M. Prabhu, Melanie J. Firestone, Kari L. Bergman, Amanda L. Beaudoin, Tammy Hale, Alexandra J. Lorentz, Jacob Garfin, Xiong Wang and Stacy M. Holzbauer

- 433** Clinical impact of healthcare-associated respiratory syncytial virus in hospitalized adults
Alexandra Hill-Ricciuti, Edward E. Walsh, William G. Greendyke, Yoonyoung Choi, Angela Barrett, Luis Alba, Angela R. Branche, Ann R. Falsey, Matthew Phillips, Lyn Finelli and Lisa Saiman
- 440** Mitigating hospital-onset *Clostridioides difficile*: The impact of an optimized environmental hygiene program in eight hospitals
Philip C. Carling, Lyndsay M. O'Hara, Anthony D. Harris and Russell Olmsted
- 447** A tale of two intensive care units (ICUs): Baseline *Staphylococcus aureus* colonization and mupirocin susceptibility in neonatal and pediatric patients requiring intensive care
Harbir S. Arora, Humera Khan, Haider Ailumerab, Girija Natarajan, Kathleen Meert, Hussein Salimnia, Rudolph Valentini, Ronald Thomas, Lynn Semproch, Basim I. Asmar and Eric J. McGrath
- 453** Regional transmission patterns of carbapenemase-producing Enterobacterales: A healthcare network analysis
Bekana K. Tadese, Kayo Fujimoto, Stacia M. DeSantis, Osaro Mgbere and Charles Darkoh
- 460** Genomic surveillance uncovers ongoing transmission of carbapenem-resistant *Acinetobacter baumannii* (CRAB) and identifies actionable routes of transmissions in an endemic setting
Sean Wei Xiang Ong, Pooja Rao, Wei Xin Khong, Victor Yi Fa Ong, Prakki Sai Rama Sridatta, Natascha May Thevasagayam, Benjamin Choon Heng Ho, Brenda Sze Peng Ang, Partha Pratim De, Oon Tek Ng and Kalisvar Marimuthu
- 467** An outbreak of *Burkholderia cepacia* bloodstream infections in a tertiary-care facility in northern India detected by a healthcare-associated infection surveillance network
Bashir Fomda, Anoop Velayudhan, Valan A. Siromany, Gulnaz Bashir, Shaista Nazir, Aamir Ali, Omika Katoch, Alphina Karoung, Jacinta Gunjiyal, Nayeem Wani, Indranil Roy, Daniel VanderEnde, Neil Gupta, Aditya Sharma, Paul Malpiedi, Kamini Walia and Purva Mathur
- 474** Association between follow-up blood cultures for gram-negative bacilli bacteremia and length of hospital stay and duration of antibiotic treatment: A propensity score-matched cohort study
Hayato Mitaka, Shigeki Fujitani, Toshiki Kuno and David C. Perlman

Concise Communication

- 480** External validation of the Michigan PICC catheter-associated bloodstream infections score (MPC score) for predicting the risk of peripherally inserted central catheter-associated bloodstream infections: A single-center study in Japan
Hirotsuka Sakai, Mitsunaga Iwata and Teruhiko Terasawa
- 484** *Lactobacillus* bloodstream infections genetically related to probiotic use in pediatric hematopoietic cell transplant patients
Craig H. Gilliam, Jessica Brazelton de Cardenas, Delia Carias, Gaby Maron Alfaro, Randall T. Hayden and Hana Hakim
- 488** Antimicrobial stewardship intervention bundle decreases outpatient fluoroquinolone prescribing for urinary tract infections
Ashley L. Cubillos, Megan E. Patch, Elisabeth L. Chandler, Leah W. Lynch, Morris R. Gieselman, Mary Beth Saunders and Karen E. Calkins
- 491** Sustained reductions in unnecessary antimicrobial administration and hospital *Clostridioides difficile* rates via stewardship in a nonacademic setting
Neil Gaffin and Brad Spellberg

- 494** *Clostridioides difficile* infection following dental antibiotic prescriptions in a cohort of US veterans
Geneva M. Wilson, Charlesnika T. Evans, Margaret A. Fitzpatrick, Linda Poggensee, Gretchen Gibson, M. Marianne Jurasic, Kelly Echevarria and Katie J. Suda
- 497** Carriage of vancomycin-resistant *Enterococcus faecium* in infants following an outbreak in the neonatal intensive care unit: time to clearance of carriage and use of molecular methods to detect colonization
Vered Schechner, Jonathan Lellouche, Sarit Stepansky, Dror Mandel, Galia Grisaru-Soen, Liat Wullfhart, David Schwartz and Yehuda Carmeli
- 501** Hospital mattress failures—A hidden patient danger
Edmond A. Hooker
- 504** Inactivation of replication-competent severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) on common surfaces by disinfectants
Zachary C. Pope, Carla M. Weisend, Aditya Shah, Hideki Ebihara and Stacey A. Rizza
- 507** Continuously active disinfectant inactivates severe acute respiratory coronavirus virus 2 (SARS-CoV-2) and human coronavirus 229E two days after the disinfectant was applied and following wear exposures
William A. Rutala, Luisa A. Ikner, Curtis J. Donskey, David J. Weber and Charles P. Gerba
- 510** Use of standard, contact, and droplet precautions with eye protection for the prevention of severe acute respiratory coronavirus virus 2 (SARS-CoV-2) transmission among home healthcare personnel in hospice and home healthcare settings—King and Snohomish counties, Washington, February–October 2020
Temet M. McMichael, Lindsey M. Duca, James Lewis, Francis X. Riedo, Nancy Wilde, Molly McDonald, Christopher Spitters and Hope A. Wechkin
- 514** Spatiotemporal distribution and control measure evaluation of droplets and aerosol clouds in dental procedures
Chao Yuan, Hongtao Yang, Siyuan Zheng, Xiangyu Sun, Xiaochi Chen, Yuntao Chen, Jian Kang, Moubin Liu and Shuguo Zheng
- 517** Effect on the reduction of bacterial load after surgical hand antisepsis with triclosan 0.5% compared to triclosan 0.5% followed by 70% alcoholic solution
Luis Santé, María Luisa Gómez-Lus, Carlos Martín-Villa, Ricardo Becerro-de-Bengoa-Vallejo, Luis Alou and David Sevillano

Letters to the Editor

- 520** The infectious diseases pharmacist: An essential partner for health-system leadership in keeping pace with the coronavirus disease 2019 (COVID-19) pandemic
Timothy P. Gauthier, Lourdes R. Menendez Alvarado, Emilie M. Collongette, Olivia C. Knack and Mark Hauser
- 522** Response to Society for Healthcare Epidemiology (SHEA) recommendations for ventilator-associated pneumonia (VAP)
Peter R. Lichtenthal
- 523** Utilizing new subdefinitions to improve the identification of preventable central-line–associated bloodstream infections (CLABSIs)
Leon Hsueh, Annabelle de St. Maurice and Daniel Z. Uslan
- 524** Patient-centered care to the detriment of the standardized infection ratio
Justin J. Kim, Kathleen O. Stewart, Ilana Cass, Michael S. Calderwood and Ella A. Damiano

Infection Control & Hospital Epidemiology (ISSN 0899-823X) is published monthly by Cambridge University Press, One Liberty Plaza, New York, NY 10006, USA.

Editorial Office

Communications should be addressed to the Editor, *Infection Control & Hospital Epidemiology*, One Liberty Plaza, New York, NY 10006 (email: iche.managingeditor@cambridge.org). Contributors should consult the Instructions for Contributors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to M. J. Mrvica Associates, 2 West Taunton Avenue, Berlin, NJ 08009 (e-mail: mjmrvica@mrvica.com; telephone: 856-768-9360, fax: 856-753-0064). Publication of an advertisement in *Infection Control & Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by Cambridge University Press.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>,

email: info@copyright.com). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, please contact Cambridge University Press. Full details may be found at: www.cambridge.org/about-us/rights-permissions.

Subscriptions

The individual subscription prices for 2023 are: Print & Online: \$305; Online Only: \$236. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: Nile's Joy, Horses & Hope, 2006

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Nile Moss (1990-2006)

Medium: Tissue paper, stained glass technique

Nile's parents, Carole and Ty Moss, spoke to ICHE about his artwork.

What was the inspiration for this artwork? Nile began every morning with a loud announcement, "It's going to be such a great day!" At the end of the day, he would jump off the school bus and announce, "I had such a great day!" Nile's love of horses began very early in life thanks to his school's participation at a nearby therapeutic riding center. His horses brought him great joy and his faith gave him the hope and promise of a rainbow every day. This piece was inspired by the love Nile had for his horses, Tex and Clutch.

Why is this work appropriate for the cover of *Infection Control & Hospital Epidemiology*? Nile's art expression and techniques blossomed from August 2005 to April 2006 in his first high school art class. He returned home with this final creation on April 14, 2006. His life ended only days later when physicians failed to recognize the initial symptoms of sepsis caused by methicillin-resistant *Staphylococcus aureus* (MRSA) that he had acquired while receiving care in a local hospital. Nile's story represents the preventable harm that happens when people are unaware and unprepared to protect their loved ones and their patients. Patient safety begins with a robust bench of healthcare professionals, including healthcare epidemiologists, infection preventionists and antimicrobial stewards, that are given the knowledge, tools, training and support they need to do their work effectively. Our healthcare professionals deserve to feel joy and hope at the start of each new day, just as Nile did, and not doubt that their hard work saving lives is appreciated.

What is your personnel connection to the content of ICHE? When Nile died, our lives were changed forever. After researching the "why" and the "how," we decided to become a part of the solution to end preventable harm in honor of Nile. We became educated on the science of infection prevention to help inform and empower the public and educate healthcare professionals about what happens when healthcare facilities don't maintain a culture of safety and allow preventable healthcare-associated infections to occur. We celebrate his life every day by empowering the public and healthcare professionals with our story of prevention and action to end preventable healthcare harm.

Carole and Ty Moss are the founders and Executive Directors of Nile's Project, a non-profit organization founded in 2007 to end unnecessary deaths due to preventable hospital-acquired infections. Nile's Project works with survivors, families, healthcare professionals, public health officials, and other advocacy groups to increase public awareness and advocate for changes that will make the healthcare system safer. For more information, visit www.nilesproject.com.
