Love and Power

The Role of Religion and Morality in American Politics
MICHAEL PERRY, *Northwestern University School of Law*

"In the contemporary debate about whether religiously-grounded moral convictions have a legitimate role in public deliberation about contested issues, Perry weighs in with a resounding affirmation. *Love and Power* is an impressive, eloquent, and often moving argument for the possibility of 'ecumenical political dialogue' in a religiously and morally pluralistic society."—Mary Ann Glendon, *Harvard Law School*

A System of Rights

REX MARTIN, *University of Kansas*

The justification of political authority is a long-standing issue of political philosophy, one which persistently defies solution. This book provides an original justification by establishing a framework for dealing with this problem. Martin discusses the implications of such a system for democratic institutions, political allegiance, punishment, and ultimately for the nature of political authority.

Litigation and Inequality
Federal Diversity Jurisdiction in Industrial America, 1870-1958

EDWARD A. PURCELL, JR.,
New York Law School

Through the prism of litigation practice and tactics, Purcell explores the dynamic relationship between legal and social change. He studies changing litigation patterns in suits between individuals and national corporations over tort claims for personal injuries and contract claims for insurance benefits.

Playing by the Rules
A Philosophical Examination of Rule-Based Decision-Making in Law and in Life

FREDERICK SCHAUER,
Harvard University

Rules are a central component of such diverse enterprises as law, morality, language, games, religion, etiquette, and family governance, but there is often confusion about what a rule is, and what rules do. Offering a comprehensive philosophical analysis of these questions, this book challenges much of the existing legal, jurisprudential, and philosophical literature.

Prescription for Profit

How Doctors Defraud Medicaid
PAUL JESILOW, HENRY N. PONTELL,
and GILBERT GEIS

"A sound, well written, and highly interesting examination of how Medicaid . . . has given far too many physicians an opportunity to 'mop up' fraudulently, for their own financial gain, some of the \$61 billion annual cost of the program."

—Marshall B. Clinard, University of Wisconsin

The Hollow Core

Private Interests in
National Policy Making

John P. Heinz,
Edward O. Laumann,
Robert L. Nelson, and
Robert H. Salisbury

"[*The Hollow Core*] reports on interest groups and their representatives in the grand tradition of American social and behavioral science, theoretically driven and empirically grounded—a work of major, well-executed research by a superb team of investigators."

—Heinz Eulau, Stanford University

"This is an important, path-breaking study of that crucial but poorly understood group of men and women, Washington representatives, or as they are better known, lobbyists. The authors have put together an enormous amount of fresh data and explore areas of law and politics that have been sadly neglected in the past. It is a monumental effort." —Lawrence M. Friedman

"This is an absolutely superb book that will be read for years and years to come."

—Jeffrey M. Berry, Tufts University

We the People

Volume I: Foundations

Bruce Ackerman

"[*We the People*] cuts through the futile and absurd search for the 'original intent of the founders' as the way to discover the will of the people. It recognizes that the great and extraordinary occasions required for action by the people have not been confined to a single instance in the eighteenth century. It deflates the pretensions of politicians in normal politics but magnifies the importance of political leadership in mobilizing popular support for constitutional politics when constitutional politics is needed. It gives pragmatic meaning to government of, by, and for the elusive, invisible, inaudible, but sovereign people."

—Edmund S. Morgan, *New York Review of Books*
