

TICKS

A Monograph of the Ixodoidea

By GEORGE H. F. NUTTALL, M.D., PH.D., Sc.D., F.R.S., CECIL
WARBURTON, M.A., F.Z.S., W. F. COOPER, B.A., F.Z.S., F.L.S.,
and L. E. ROBINSON, A.R.C.Sc. (London)

*Now Ready. PART I. THE ARGASIDAE. With 116 text
Figures and 3 Plates. Royal 8vo. 5s. net*

This book will deal with the Classification, Structure and Biology of Ticks, the study of the group having occupied the authors for several years. Practically all that has been published on the subject has received adequate consideration.

The book will be issued in about four parts, which will be complete in themselves but are designed to form a volume of about 500 pages when all the parts have been published. Each part will be issued in a stiff paper cover and will include a bibliography printed on one side of thin paper so that the references can be conveniently cut out and gummed on index cards. A complete bibliography, including all the publications cited in each part, will conclude the volume.

"For those who are not experts on Ticks, but are made practically acquainted with them from the pathological point of view, a comprehensive monograph or handbook of the group has become an urgent requirement, and this need will now be supplied by the monograph which is now being produced by Messrs Nuttall, Warburton, Cooper and Robinson."—*Nature*

"The subject of ticks had been little studied, at least by medical men, until it came to be established that these parasites might spread disease from animal to animal, or even to man. This fact having been proved, a book on these insects was clearly required, and Dr Nuttall, in conjunction with Messrs Warburton, Cooper, and Robinson, has done well to provide *Ticks: A Monograph of the Ixodoidea*.... Too much praise cannot be given to Dr Nuttall and his collaborators for taking up this difficult and somewhat thankless task."—*British Medical Journal*

RAT FLEAS AND PLAGUE

Larter's "Common Sense" EXTERMINATOR kills the fleas on the
rat as well as the rat and thus prevents the spread of plague

Safe to use, no smell from dead carcasses Recommended by Sanitary Experts

8s. 4d. size tin kills 500 rats Will keep in any climate
Does not contain germs

Write for particulars and free booklet entitled *The Case against the Rat*

PORTER, ANNIE. <i>Amoeba chironomi</i> , Nov. Sp., Parasitic in the Alimentary Tract of the Larva of a <i>Chironomus</i> . (With 21 Text Figures.) . . .	32
POTTS, F. A. Some Phenomena associated with Parasitism. (Three Figures.) . . .	42
WARBURTON, CECIL AND NUTTALL, GEORGE H. F. On New Species of Ixodidae, with a Note on Abnormalities observed in Ticks. (With 26 Text Figures.) . . .	57
LEIPER, ROBERT T. The Structure and Relationships of <i>Gnathostoma siamense</i> (Levinsen) . . .	77
STRICKLAND, C. On the supposed Development of <i>Trypanosoma lewisi</i> in Lice and Fleas; and the Occurrence of <i>Crithidia ctenophthalmi</i> in Fleas . . .	81
PATTON, CAPTAIN W. S. A Critical Review of Our Present Knowledge of the Haemoflagellates and Allied Forms . . .	91
PATTON, CAPTAIN W. S. The Haemogregarines of Mammals and Reptiles; A Rejoinder to Dr Sambon . . .	144
NUTTALL, GEORGE H. F. AND HADWEN, S. The Successful Drug Treatment of Canine Piroplasmiasis, together with Observations upon the Effect of Drugs on <i>Piroplasma canis</i> . (1 Text Figure.) . . .	156

PARASITOLOGY will be published about four times a year. The numbers will afterwards be issued in volumes each containing four numbers and amounting to between 400 and 500 pages, with plates and figures.

Papers for publication should be sent to Professor GEO. H. F. NUTTALL, F.R.S., 3 Cranmer Road, Cambridge, or to the Associate Editor. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive fifty copies of their papers free. Additional copies, not exceeding 200, may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £1. 1s. per volume (post-free), payable in advance; single numbers 7s. net (double number 14s. net). *Subscribers to the Journal of Hygiene* may obtain single numbers of *PARASITOLOGY* at the reduced price of 5s. net. or may become subscribers at the reduced rate of 15s. per volume. Subscriptions may be sent to any Bookseller, or to MR C. F. CLAY, MANAGER, Cambridge University Press, Fetter Lane, London, E.C.
