BOROBENPHENE-HEIL.

Borobenphene-Heil is a powerful, safe, reliable, non-irritating and pleasant antiseptic, composed of Boracic Acid, Benzoic Acid sublimed from Siamese Gum Benzoin, Phenol and Glycerine, all in the state of highest purity, and constitutes **the ideal antiseptic**, of sufficient strength to render aseptic any part of the human body.

Case No. 7.—Female, aged 2 years. Mother gave a history of diarrhoea of about three weeks' duration. Evacuations watery and offensive in odour, but food seemed to have been well digested. Bowels had moved from eight to ten times per day since the beginning of the trouble. Patient somewhat emaciated, though appetite continued good. Microscopic examination of the alvine discharges showed large numbers of pathogenic and putrefactive bacteria, to which I attributed the occasionally recurring abdominal distension and spasmodic attacks of colic. Prescription and directions for modification, diet, etc., same as in earlier cases mentioned. Improvement was rapid and complete at the end of the sixth day; but in view of the possibility of relapse, I advised a continuance of the prescription in three daily doses for another week, and avoided a recurrence of symptoms.

GLYCOBENPHENE-HEIL.

Glycobenphene-Heil is a powerful, safe, reliable, non-irritating and pleasant antiseptic, of the same composition as Borobenphene, the proportion of the constituents being somewhat changed, and contains in addition absolutely chemically pure Oxide of Zinc. **It is for external use only**, and, being a mixture and not a solution, it should always be shaken before applying it. Its power of preventing the development of bacteria and the decomposition of animal and vegetable matter and of destroying bacteria is almost as great as that of Borobenphene-Heil.

Case No. 12.—An old gentlemen, aged 72 years, had an old indolent ulcer on the left leg, and this had bothered him for the past twenty-five years. It was an obdurate one, and had been treated by many able physicians, besides he himself had used many various medications on it, but all to no avail. He came to me, and I prescribed Glycobenphene-Heil, and it furnished a cure most speedily and which was permanent. Six months have gone by since I pronounced him cured, and he reports no relapse of any nature.

Messrs. F. NEWBERY & SONS, Ltd., 27 & 28, Charterhouse Square, London, E.C., British Representatives of the Manufacturers, **HENRY HEIL CHEMICAL COMPANY, ST. LOUIS,** will cheerfully furnish an Original Bottle each of **BOROBENPHENE** and **GLYCOBENPHENE** free of charge to any Physician applying for same. Literature mailed on application to **HENRY HEIL CHEMICAL COMPANY.**
