

A NEW INTERNATIONAL JOURNAL PUBLISHED BY CAB INTERNATIONAL
ON BEHALF OF THE NUTRITION SOCIETY

Announcing
**PUBLIC HEALTH
NUTRITION**

Editor-in-Chief:

Dr Barrie Margetts, Southampton General Hospital, Southampton, UK

North American Editor:

Dr Lenore Kohlmeier, Schools of Public Health and Medicine, University of North Carolina at Chapel Hill, NC, USA

The high profile occupied by issues of public health nutrition in the media and governments worldwide has highlighted the need for a keenly focused, well-respected and dedicated forum for the presentation of original research findings in this field. Current controversies have drawn attention to the need for such a forum and leading nutrition scientists at The Nutrition Society have combined with CAB INTERNATIONAL to seize the initiative and launch *Public Health Nutrition*.

Topics covered will include:

- nutritional epidemiology - studies relating nutrition to health or disease risk;
- nutrition related health promotion;
- evaluation of effectiveness of intervention studies aimed at improving health;
- role of nutrition in high risk and vulnerable groups;
- development of research methods, validation of measures, calibration;
- population based research related to primary prevention of illness.

Essential reading for all specialists involved with nutritional epidemiology research, the role of nutrition in disease prevention, and identifying practical solutions to public health problems.

Subscription Details

1998, Volume 1, 4 issues
Price £155 US\$270 (Americas only)
ISSN 1386-9800
First issue: March 1998

DI Thurnham (UK)

Supported by an Editorial Board
representing all of the subject
specialities and geographical
regions with an interest in
human and animal nutrition

CAB INTERNATIONAL

The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, general nutrition, and animal nutrition. Correspondence is encouraged in a nutrition discussion forum. The Journal recognises the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published monthly by CAB INTERNATIONAL on behalf of The Nutrition Society.

Coverage includes:

- International and public health nutrition
- Clinical metabolism and nutritional support
- Obesity and body composition
- Infant nutrition
- Diet selection
- Reproduction, growth and development
- Smoking and diet
- Nutrition and behaviour
- Animal nutrition and metabolism
- Companion and animal nutrition
- Macronutrient metabolism
- Malnutrition
- Micronutrients
- Epidemiology

Supplements:

The 1997 volumes will feature a number of supplementary issues including:

- Periodicity of eating and human health
- Towards a new millennium of nutrition research
- Fats in the diet of animals and man

Monthly Author and Subject Index

6th issue: Cumulative subject/contents and author index

Directions to contributors in first issue of every volume

Also including:

- Short Communications
- Technical Notes
- Nutrition Discussion Forum
- Book Reviews

First issued: 1947

ISSN: 0007-1145

Monthly publication 1997, Vols 77 and 78

Annual Subscription Rates (Printed)

£340.00 (\$615.00 Americas only)

Fax: +1 (212) 686 7993 E-mail: cabi-nao@cabi.org

From 1997 onwards the *British Journal of Nutrition* will publish occasional supplements on topics of particular interest, in collaboration with other organizations and sponsors.

These supplementary issues fulfil the dual functions of contributing to existing knowledge and providing an overview of a particular subject area.

Supplementary issues... read by an international audience

Supplements will be supplied to all subscribers — guaranteeing that the work presented reaches a truly international audience. Additional copies of supplementary issues can be made available at preferential rates.

If you have a proposal for a supplementary issue then please contact the Chairman of the Editorial Board at:

The Proceedings of the Nutrition Society

Throughout the year, The Nutrition Society holds important meetings and symposia, often in collaboration with other learned societies, where international experts are invited to speak on topics of particular interest in nutritional science.

The 1997 volume will feature papers presented at the following symposia:

- Food industry, nutrition and public health
- Diabetes towards the year 2000
- Nutrition in wild and captive animals
- Nutritional issues for women
- Postprandial lipid metabolism
- Assessment of nutritional status in disease and other trauma
- Nutritional aspects of bone

All this key information can be at your finger tips during 1997 by subscribing to *The Proceedings of the Nutrition Society*.

ISSN: 0029 6651 1997, Volume 56
£165.00 (US\$295.00 Americas only)

*Ranked 6th out of 44 in the SCI Journal Citation
Report of Nutrition & Dietetics Journals (1994)*

CAB INTERNATIONAL

A leading
international
journal publishing
authoritative,
timely and
in-depth reviews...

Nutrition Research Reviews

General Editor
MI Gurr (UK)

Editors
JWT Dickerson (UK)
JM Forbes (UK)
DJ Millward (UK)
DI Thurnham (UK)

International Editors
LH Allen (USA)
J Black (Australia)
L Hambraeus (Sweden)
J Okumura (Japan)
NW Solomons (Guatemala)

CAB INTERNATIONAL
publishes *Nutrition Research Reviews* on behalf of
The Nutrition Society

Increased
frequency

Contributions by International experts:

- advance new concepts
- encourage fresh thinking
- highlight timely reports on important techniques and methods in experimental work
- provide thorough overviews on specific subject areas
- promote scientific communications on new ideas

Reviews of large-scale, international projects and surveys such as the EURESTA project feature prominently in *Nutrition Research Reviews*.

Leading nutritionists look back on a lifetime of involvement in important developments in nutrition research.

Key topics for 1997 include:

- Eradicating vitamin A deficiency in developing countries
- Role of modelling in understanding metabolism
- Breast feeding and maternal health
- n-3 fatty acids in growth and development

1998, Volume 11
Bi-annual publication (*June and December*)

Manuscripts on disk

CAB INTERNATIONAL are happy to announce that we are now able to take all accepted manuscripts in electronic form. This development will help us to further reduce the time between acceptance and publication of papers and will also help reduce the incidence of errors associated with re-keying.

Text:

-  Once your paper has been accepted and is in its final form, you should submit it on disk along with the hard-copy printouts which must be identical to the material on disk (it is essential that the printed version is produced directly from the submitted electronic version - any small errors spotted on the printed version may be indicated in ink).
-  Disks must be labelled clearly with the author's name, title of the journal and the short title of the article. We will accept either 3.5" or 5.25" disks prepared on PC or Macintosh applications.
-  Text should be provided using any of the standard word-processing packages, although we do prefer material in Microsoft Word or WordPerfect.
-  Please be consistent throughout your manuscript and use as few formatting codes as possible; however please use the word processor's facilities to indicate bold, italic, subscript and superscript.
-  Please include tables and equations, however due to conversion problems, these may be typeset using your hard copy material.
-  In the event that we are not able to read your disk we will use the hard copy to prepare the article for publication. Where there is a difference between the disk and the hard-copy, the hard-copy will be used as the definitive version.

Figures:

- We would also like line figures to be supplied in electronic form: however we will ALWAYS require hard copy of the illustrations, and these MUST be identical to the electronic files.
- Ideally, we would prefer artwork created in Adobe Illustrator, Aldus Freehand, Chemdraw or CorelDraw (either on Mac or PCs).
- In addition to supplying the figure in the original application, please also supply as a TIFF file (.TIF). If a TIFF file is not possible, save as an EPS file, or a windows metafile (.wmf).
- Photographs should be supplied as set out in the Directions for Contributors in Issue 1, or at the back of this issue. We do not require these electronically.

Directions to Contributors - Concise Version

The *British Journal of Nutrition* publishes original papers, review articles, technical notes and short communications in English in all branches of nutrition. The geographical scope of the journal is international. As a contributor you should note and follow the guidelines set out below. For further information on how the technical content of your paper should be presented please see the **Directions to Contributors** as reproduced in the first issue of a recent volume of *The British Journal of Nutrition* (January or July), or contact the Editorial Office on +44 (0)171 371 6225 (telephone) or +44 (0)171 602 1756 (fax).

Papers should be accompanied by a signed statement to the effect that the author accepts the conditions laid down in the full Directions to Contributors.

Contributors of accepted articles will be asked to assign their copyright, on certain conditions, to The Nutrition Society to help protect their material.

Page format. The *British Journal of Nutrition* is printed in single-column format (column width of 135mm) with a text area of 135 x 203 mm.

Text. Papers should be typed, on one side of the paper only, with double line spacing and ample margins (at least 1.5 cm) on each side and with no underlining or bold in text except for scientific names. Draft-quality print from a word-processor is not acceptable. Standard abbreviations (e.g. Fig. and Figs) and SI units must be used. **When a paper has been accepted, word-processed text stored on floppy disk is encouraged, providing the software is IBM/DOS compatible, but floppy disks must be accompanied by a hard copy. This will enable papers to be handled rapidly, and with fewer typesetting errors.**

Abstract. Each paper must commence with a carefully prepared, accurate, informative abstract, in one paragraph, that is complete in itself and intelligible without reference to text or figures. It should not exceed 250 words. A short title of up to 45 characters should be provided as a running head.

Key Words. Authors should supply two or three key words or phrases (each containing up to three words) on the title page of the typescripts.

Tables. Tables should be reduced to the simplest form, and should not be used where text or illustrations give the same information. They should be submitted on separate sheets at the end of the article and must fit conveniently into single-column or landscape (if absolutely necessary) format. Table captions should be typed on a separate sheet.

Illustrations. Copies only of artwork should be submitted. The original illustrations should accompany the paper after acceptance and revision. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they are a real contribution to the text. Figure captions should be typed on a separate sheet and numbered corresponding to the relevant Figures.

References. References must be based on the name and year (Harvard) system; **give full journal titles** and conform to the following styles:

Bingham, S. A. & Cummings J. H. (1985). Urine nitrogen as an independent validatory measure of dietary intake: a study of nitrogen balance in individuals consuming their normal diet. *American Journal of Clinical Nutrition* 42, 1276-1289.

Haraldsdottir, J. (1989). Dietary history. In *Manual on Methodology for Food Consumption Studies*, pp. 88-92 [M. E. Cameron and W. A. van Staveren, editors]. Oxford: Oxford University Press.

Underwood, E.J. (1977). *Trace Elements in Human and Animal Nutrition*, 5th ed. New York: Academic Press.

Citation of authors in the text should appear in the form: Polaszek (1990) or (Polaszek, 1990). More than one author should be cited in chronological order as: (Holloway *et al.* 1987; Walker & Huddleston, 1988).

Proofs. Two sets of page proofs will be provided to authors for checking; one set should be returned as promptly as possible to Dr I.E.Sambrook, Executive Editor, The British Journal of Nutrition, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK.

Manuscripts. Four complete copies of the manuscript and artwork should be submitted to:

Dr Keith N Frayn
Chairman of the Editorial Board
The British Journal of Nutrition

Vol. 78 Supplement No. 2 November 1997

Contents

Foreword.	
<i>Margaret Ashwell</i>	S71–S72
From <i>The Composition of Foods</i> using chemical analysis ... to micronutrients and beyond.	
<i>Ann F. Walker</i>	S73–S80
From individual variation in energy intakes ... to variations in energy requirements and adaptations to them.	
<i>Gail R. Goldberg</i>	S81–S94
From absorption and excretion of minerals ... to the importance of bioavailability and adaptation.	
<i>Susan J. Fairweather-Tait</i>	S95–S100
From chemical analysis of the body ... to metabolic insights provided by the new methodology.	
<i>Susan A. Jebb</i>	S101–S112
From early nutrition and later development ... to underlying mechanisms and optimal health.	
<i>M. J. Dauncey</i>	S113–S123
From animals in the service of nutrition ... to the potential of biotechnology.	
<i>Judith Hall</i>	S125–S133
From blackbirds and thrushes ... to the gut-loaded cricket: a new approach to zoo animal nutrition.	
<i>Mary E. Allen</i>	S135–S143
Endpiece.	
<i>Elsie Widdowson</i>	S145–S146
