

FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in March. It is hoped to publish in it the following papers:

The diet of sledge dogs. By R. J. F. TAYLOR, A. N. WORDEN and C. E. WATERHOUSE.

Water and electrolyte exchanges of obese patients on a reducing regimen. By R. PASSMORE, J. A. STRONG and FIONA J. RITCHIE.

Studies of the rate of passage and disappearance in the intestine of the goat of carotene dissolved in fat and mixed with chromium sesquioxide. By E. C. OWEN, R. A. DARROCH and R. PROUDFOOT.

Selenium, liver necrosis and depigmentation of incisors in the rat. By K. ATERMAN.

Determination of the total daily energy expenditure in man by indirect calorimetry: assessment of the accuracy of a modern technique. By J. V. G. A. DURNIN and J. M. BROCKWAY.

Error in the provision of diets of known electrolyte content. By C. T. G. FLEAR, PAT HUGHES and AILSA McLELLAN.

Body composition of rats in B-vitamin deficiencies. By K. GUGGENHEIM and E. J. DIAMANT.

The use of surface area and of body-weight as standards of reference in studies on human energy expenditure. By J. V. G. A. DURNIN.

Vitamin B₁₂ in the developing chick embryo. By B. SKARŻYŃSKI, Z. ŻAK, W. OSTROWSKI, MARY K. DAVIES, MARGARET E. GREGORY and S. K. KON.

Growth response to dietary penicillin of germ-free chicks and of chicks with a defined intestinal flora. By M. LEV and M. FORBES.

The dietary intake and activities of an Alaskan mountaineering expedition. By J. D. KINLOCH.

Cod-liver oil as both source and antagonist of vitamin E. By T. MOORE, I. M. SHARMAN and R. J. WARD.

The conversion of 11-*cis* into all-*trans* vitamin A in the rat. By P. A. PLACK.

CONTENTS OF VOLUME 12, No. 4, 1958

(All rights reserved)

	PAGE
The effect of replacement of rice in a poor vegetarian diet by tapioca macaroni on the general health and nutritional status of children. By V. SUBRAHMANYAN, R. K. BHAGAWAN, T. R. DORAISWAMY, KANTHA JOSEPH, G. S. BAINS, D. S. BHATIA, A. N. SANKARAN and M. SWAMINATHAN	353
The destruction of vitamin A by blood. By C. J. POLLARD and J. G. BIERI	359
Further studies on the changing composition of the digesta along the alimentary tract of the sheep. 1. Total and non-protein nitrogen. By A. M. BADAWY, ROSA M. CAMPBELL, D. P. CUTHBERTSON, B. F. FELL and W. S. MACKIE	367
Further studies on the changing composition of the digesta along the alimentary tract of the sheep. 2. Volatile fatty acids and energy relative to lignin. By A. M. BADAWY, ROSA M. CAMPBELL, D. P. CUTHBERTSON and W. S. MACKIE	384
Further studies on the changing composition of the digesta along the alimentary tract of the sheep. 3. Changes in the omasum. By A. M. BADAWY, ROSA M. CAMPBELL, D. P. CUTHBERTSON and W. S. MACKIE	391
The digestion of foodstuffs in the stomach of the sheep and the passage of digesta through its compartments. 1. Cellulose, pentosans and solids. By F. V. GRAY, A. F. PILGRIM and R. A. WELLER	404
The digestion of foodstuffs in the stomach of the sheep and the passage of digesta through its compartments. 2. Nitrogenous compounds. By F. V. GRAY, A. F. PILGRIM and R. A. WELLER	413
The conversion of plant nitrogen to microbial nitrogen in the rumen of the sheep. By R. A. WELLER, F. V. GRAY and A. F. PILGRIM	421
The metabolism of nitrogen, calcium and phosphorus in undernourished children. 4. The effect of replacing rice in the diet by tapioca macaroni on the metabolism of nitrogen, calcium and phosphorus. By KANTHA JOSEPH, M. NARAYANARAO, M. SWAMINATHAN and V. SUBRAHMANYAN	429
Studies on magnesium in ruminant nutrition. Balance experiments on sheep with herbage from fields associated with lactation tetany and from control pastures. By A. C. FIELD, JENNIE W. MCCALLUM and E. J. BUTLER	433
Diet in pregnancy. 1. A dietary survey technique and the nutritive value of diets taken by primigravidae. By A. M. THOMSON	446
The vitamin D activity of pastures and hays. By KATHLEEN M. HENRY, S. K. KON, S. Y. THOMPSON, JENNIE W. MCCALLUM and the late J. STEWART	462
Studies of the nutrition of the young calf. A comparison of starch, lactose, and hydrogenated palm oil, with butterfat, in milk diets. By A. M. RAVEN and K. L. ROBINSON	469

INDEX OF AUTHORS

Badawy, A. M.	367, 384, 391	McCallum, J. W.	433, 462
Bains, G. S.	353	Mackie, W. S.	367, 384, 391
Bhagawan, R. K.	353	Narayanarao, M.	429
Bhatia, D. S.	353	Pilgrim, A. F.	404, 413, 421
Bieri, J. G.	359	Pollard, C. J.	359
Butler, E. J.	433	Raven, A. M.	469
Campbell, R. M.	367, 384, 391	Robinson, K. L.	469
Cuthbertson, D. P.	367, 384, 391	Sankaran, A. N.	353
Doraishwamy, T. R.	353	Stewart, J.	462
Fell, B. F.	367	Subrahmanyam, V.	353, 429
Field, A. C.	433	Swaminathan, M.	353, 429
Gray, F. V.	404, 413, 421	Thompson, S. Y.	462
Henry, K. M.	462	Thomson, A. M.	446
Joseph, K.	353, 429	Weller, R. A.	404, 413, 421
