

British Journal of Nutrition

Published online by Cambridge University Press

BJN An International Journal of Nutritional Science

Volume 101 Number 9 14 May 2009

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

Editorial Board

J J B Anderson, *Chapel Hill, NC, USA*

J R Arthur, *Aberdeen, UK*

S B Astley, *Norwich, UK*

H Zdravics and C Isherwood (*Publications Officers*), C T Hughes (*Sub-editor*)

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Invited Commentary

- Human milk oligosaccharides – the plot thickens.
S. M. Donovan 1267–1269

Review Article

- Novel foods: an explorative study into their grey area.
H. Verhagen, J. te Boekhorst, L. Kamps, M. J. van Lieshout, H. Ploeger, D. Verreth,
S. Salminen & H. van Loveren 1270–1277

Short Communication

- Effects of feeding rice and the degree of starch gelatinisation of rice on nutrient digestibility and ileal morphology of young pigs.
B. Vicente, D. G. Valencia, M. P. Serrano, R. Lázaro & G. G. Mateos 1278–1281
- Effect of coffee and tea on the glycaemic index of foods: no effect on mean but reduced variability.
A. Aldughpassi & T. M. S. Wolever 1282–1285
- Increasing sodium intake from a previous low or high intake affects water, electrolyte and acid–base balance differently.
M. Heer, P. Frings-Meuthen, J. Titze, M. Boschmann, S. Frisch, N. Baecker & L. Beck 1286–1294
- Methylation status of CpG islands in the promoter region of genes differentially expressed in colonic mucosa from adenoma patients and controls in response to altered vegetable intake.
S. G. J. van Breda, J. H. M. van Delft, L. G. J. B. Engels,
J. C. S. Kleijnans & J. C. Mathers 1295–1299
- BMI: a simple, rapid and clinically meaningful index of under-nutrition in the oldest old?
M. D. Miller, J. M. Thomas, I. D. Cameron, J. S. Chen, P. N. Sambrook,
L. M. March, R. G. Cumming & S. R. Lord 1300–1305

Molecular Nutrition

- Oligosaccharides from human milk induce growth arrest via G2/M by influencing growth-related cell cycle genes in intestinal epithelial cells.
S. Kuntz, C. Kunz & S. Rudloff 1306–1315
- Inter-individual variation in nucleotide excision repair in young adults: effects of age, adiposity, micronutrient supplementation and genotype.
J. Tyson, F. Caple, A. Spiers, B. Burtle, A. K. Daly, E. A. Williams, J. E. Hesketh & J. C. Mathers 1316–1323

Metabolism and Metabolic Studies

- Susceptibility of phaseolin (*Phaseolus vulgaris*) subunits to trypsinolysis and influence of dietary level of raw phaseolin on protein digestion in the small intestine of rats.
C. A. Montoya, J.-P. Lallès, S. Beebe, W. B. Souffrant, D. Mollé & P. Leterme 1324–1332

Developmental Biology

- The effects of feeding rats diets deficient in folic acid and related methyl donors on the blood pressure and glucose tolerance of the offspring.
C. A. Maloney, S. M. Hay & W. D. Rees 1333–1340

Nutritional Immunology

- Feeding long-chain *n*-3 polyunsaturated fatty acids to obese leptin receptor-deficient JCR:LA-*cp* rats modifies immune function and lipid-raft fatty acid composition.
M. R. Ruth, S. D. Proctor & C. J. Field 1341–1350
- Modulation of rat neutrophil function *in vitro* by *cis*- and *trans*-MUFA.
R. Padovese & R. Curi 1351–1359

Human and Clinical Nutrition

- Effects of oral fat perception by modified sham feeding on energy expenditure, hormones and appetite profile in the postprandial state.
A. J. Smeets, M. P. Lejeune & M. S. Westerterp-Plantenga 1360–1368
- Validity of impedance-based predictions of total body water as measured by ²H dilution in African HIV/AIDS outpatients.
A. Diouf, A. Gartner, N. I. Dossou, D. A. Sanon, L. Bluck, A. Wright & S. Wade 1369–1377
- Dietary micronutrients are associated with higher cognitive function gains among primary school children in rural Kenya.
C. A. Gewa, R. E. Weiss, N. O. Bwibo, S. Whaley, M. Sigman, S. P. Murphy,
G. Harrison & C. G. Neumann 1378–1387

The validity of simple methods to detect poor nutritional status in paediatric oncology patients. <i>A. J. Murphy, M. White & P. S. W. Davies</i>	1388–1392
<i>Dietary Surveys and Nutritional Epidemiology</i>	
Validity of a self-administered food-frequency questionnaire in the estimation of amino acid intake. <i>J. Ishihara, H. Todoriki, M. Inoue, S. Tsugane & for the JPHC FFQ Validation Study Group</i>	1393–1399
Glycaemic index database for the epidemiological Alpha-Tocopherol, Beta-Carotene Cancer Prevention (ATBC) Study. <i>M. E. Similä, L. M. Valsta, M. J. Virtanen, K. A. Hätönen & J. Virtamo</i>	1400–1405
<i>Obesity</i>	
Low body fat and high cardiorespiratory fitness at the onset of the freshmen year may not protect against weight gain. <i>G. Mifsud, K. Duval & É. Doucet</i>	1406–1412
Associations between the portion sizes of food groups consumed and measures of adiposity in the British National Diet and Nutrition Survey. <i>M. T. Kelly, K. L. Rennie, J. M. W. Wallace, P. J. Robson, R. W. Welch, M. P. Hannon-Fletcher & M. B. E. Livingstone</i>	1413–1420
Book Review	1421
