‘ The General Conference of Unesco adopted, at its second session, held in November, 1947, in Mexico City, the following resolution :

‘ To ask specialised international organisations to assist in the movement of ideas and the dissemination of knowledge by such measures as the following :

‘ In 1948 working agreements will be made with, and services will be asked from, the international organisations of philosophers, historians and linguists. Examples of such services are abstracts, surveys of work accomplished during the war years, periodical bibliographies mentioned in 2.3.3.4, and, later, bulletins and yearbooks containing scientific information, or collections of such documents as may further the aims of Unesco.

‘ In fulfilment of this resolution the Executive Board of the United Nations Educational, Scientific and Cultural Organisation authorised the granting to the International Federation of the Societies of Classical Studies of a subvention, a part of which was applied toward the publication of this volume.’

## THE BRITISH ACADEMY

---

### CROMER GREEK PRIZE

WITH the view of maintaining and encouraging the study of Greek, particularly among the young, in the national interest, the late Lord Cromer founded a Prize, to be administered by the British Academy, for the best Essay on any subject connected with the language, history, art, literature, or philosophy of Ancient Greece.

The Prize, which is ordinarily a sum of £40, is awarded annually in March, under the following Rules:—

1. Competition is open to all British subjects of either sex who will be under twenty-six years of age on 31 December preceding the award.

2. Any such persons desirous of competing must send in to the Secretary of the British Academy on or before 1 June of the year preceding the award the title of the subject proposed by him or her. The Academy may approve (with or without modification) or disapprove the subject; their decision will be intimated to the competitor as soon as possible.

3. Preference will be given, in approval of subjects proposed, to those which deal with aspects of the Greek genius and civilization of large and permanent significance over those which are of a minute or highly technical character.

4. Any Essay already published, or which has already received or is in competition for another prize of the same nature, will be inadmissible. A candidate to whom the Prize has been awarded will not be eligible to compete for it again. But an Essay which has not received the Prize may be submitted again (with or without alteration) in a future year so long as the writer remains eligible under Rule 1.

5. Essays of which the subject has been approved must be sent in to the Secretary of the Academy on or before 31 December. They must be typed (or, if the author prefers, printed), and should have a note attached stating the main sources of information used.

6. It is recommended that the Essays should not exceed 20,000 words, exclusive of notes. Notes should not run to an excessive length.

Communications should be addressed to 'The Secretary of the British Academy, Burlington Gardens, London, W.1.'
