features:

Radiotherapy in head and neck
cancer

Cochlear implantation – the
Nijmegen results

Audio-vestibular findings in
meningioma of the c-p angle

Influence of phylogeny on jugular
fossa shape and otological disorders

Endoscopic ligation or diathermy of
the sphenopalatine artery

Endoscopic holmium: YAG laser
dacryocystorhinostomy

2ND BIRMINGHAM INTERNATIONAL MULTIDISCIPLINARY HEAD AND NECK COURSE

ONE WEEK RESIDENTIAL COURSE

Specifically aimed at Trainees and Consultants in ENT, Maxillofacial, Plastic Surgery and Radiotherapy

SEPTEMBER 14th-18th 1998 INCLUSIVE

Course Organisers: Mr J C Watkinson MSc MS FRCS DLO; Dr J Glaholm BSc MRCP FRCR

Course Tutor: Mr J C Watkinson

Visiting Professors: Professor Jatin Shah, Head and Neck Surgeon, Memorial Sloan, Kettering Cancer Centre, New York, USA;
Professor Ollivier Laccourreye, Hopital Laennec, Paris, France

Includes Distinguished Local Faculty

Invited Lecturers:

Mr P Bradley, Consultant ENT Surgeon, Nottingham
Mr N Breach, Consultant Plastic Surgeon, London
Mr J Brown, Consultant Maxillofacial Surgery, Liverpool
Dr M Gaze, Consultant Radiotherapist, London
Mr J Hibbert, Consultant ENT Surgeon, London
Mr D Howard, Consultant ENT Surgeon, London
Mr N Jones, Consultant ENT Surgeon, Nottingham

Mr G Neil-Dwyer, Consultant Neurosurgeon, Southampton
Professor M McGurk, Consultant Maxillofacial Surgeon, London
Mr A Parker, Consultant ENT Surgeon, Sheffield
Mr G Perks, Consultant Plastic Surgeon, Nottingham
Mr P Rhys-Evans, Consultant ENT Surgeon, London
Mr A Searle, Consultant Plastic Surgeon, London
Professor J Wilson, Consultant ENT Surgeon, Newcastle

Sessions on:

Larynx, Pharynx, Oral Cavity, Neck, Thyroid, Nasal Sinuses and Skull Base, Salivary Glands Reconstruction, Prosthetics and Osseointegration, Skin, Imaging, Head and Neck/Flap Clinic Controversies, Molecular Biology, Conservation Surgery, Recent Advances

Separate Day on Radiotherapy Techniques for Radiotherapy Trainees, Videos, Adjunctive Support

Course Fee: £650 (includes all meals and course dinner); Residential £850; Day Registration (Price on Application)

Course Dinner Speaker: Mr A Parker, Consultant ENT Surgeon, Sheffield

Accreditation: 8 CME Points

All Enquiries: Mr Watkinson's Secretary, Queen Elizabeth Hospital, Birmingham. Tel: 0121 627 2295

Early Booking Advisable - £200 Booking Fee (Non Refundable)

Sponsored by DP Medical, Mallinkrodi, Kalidex, Keymed, and the Midland Institute of Otolaryngology

4th Glasgow and Newcastle Course in ENT Radiology

Thursday 26th, Friday 27th February 1998

Organisers: Mr K MacKenzie, Professor J A Wilson
Lecture Theatre One, Royal Infirmary, Glasgow

11 CME Credits

UNIVERSITY OF
NEWCASTLE

Acoustic neuroma — is MRI for all really the optimum strategy?

Middle ear disease — is preoperative imaging indicated?

Dizziness — what does the neuroradiologist examine in nonotological dizzy patients?

Sinonasal disease — minimising the radiation dose for FESS scans

Laryngopharyngeal neoplasms — the place of CT versus MRI in tumour staging

Cervical lymphadenopathy — image-guided FNAC; why not ultrasound?

Thyroid investigation — structural vs. functional testing — why ultrasound?

Vocal cord paralysis — optimum screening protocol

Technical developments — PET; combined anatomical and physiological scanning, teleradiology

Surgical planning in oral cancer

Interventional radiology — what's new in the head and neck?

FACULTY

Surgeons: Professor G G Browning, Mr K MacKenzie, Mr I R C Swan, Mr D Soutar and Miss F MacGregor, Glasgow; Mr D Moffat, Cambridge; Professor J A Wilson, Newcastle; Mr N S Jones, Nottingham; Mr J C Watkinson, Birmingham

Radiologists: Mr A MacLellan, Glasgow; Dr I Moseley, and Dr Y L Wong, London; Dr J E Gillespie, Manchester; Dr J Oliff, Birmingham

Venue: Royal Infirmary, Glasgow

Course fee: £295.00 to include Course Dinner, lunches and refreshments

Applications to Mrs Nadia Johnson, Department of Otolaryngology Head and Neck Surgery, Royal Infirmary, Glasgow G31 2ER. Tel 0141-211-5153; Fax 0141-211-4896.

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

Edited by NEIL WEIR and GUY KENYON

Assistant Editors CAROL WENGRAF, RICHARD RAMSDEN, DAVID PROOPS, VALERIE LUND, HENRY GRANT, ANDREW JONES, MICHAEL ROTHERA, MARTIN BAILEY, LIAM FLOOD, PATRICK BRADLEY, NICK JONES & IAIN SWAN

Production Editors GILLIAN GOLDFARB & JENNIFER ALMOND

INSTRUCTIONS FOR AUTHORS

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made. Normally an original main article should not exceed 7500 words.

Longer articles or theses will be considered for publication as *Supplements*, at the expense of the authors or their employing authorities.

2. Manuscripts should be **typewritten in duplicate** on one side of the paper only (A4 297 x 210 mm) and double spaced, with wide margins.

Begin each component on a new page in the following sequence: title page, abstract, text, acknowledgements, references, tables and legends.

(a) **Title page**—Titles should be short with names of the authors, higher degrees only. Details of the departments in which the authors work should be put lower down. An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. Any change of address should be notified. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of printed script.

(b) **Abstract**—This should contain not more than 150 words and include a statement of the problem, the method of study, results and conclusions; a 'summary' section should **not** be included in the main manuscript. **No paper will be accepted without an abstract.**

(c) **Key Words**—Only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where no appropriate word(s) are listed those dictated by common sense/usage should be supplied.

(d) **Text**—Suggested outline—(1) introduction, (2) materials and methods, (3) results, (4) discussion, (5) conclusion.

(e) **Tables** are adjuncts to the text and should not repeat material already presented.

(f) **Illustrations**—Two sets of illustrations, one with each copy of the manuscript, must be submitted and all authors should remember that the single column width is 80mm. One set of illustrations should, therefore, not exceed this width and they should ensure that the essential features are illustrated within this dimension.

Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

Written permission from the publisher must be provided to the *Journal* in order to republish material with copyright elsewhere and also from the senior author where necessary. Consent to be obtained from a patient if a photograph of their face is to be reproduced.

(g) **Measurements** must be in metric units, with *Système Internationale* (SI) equivalents given in parentheses.

(h) **References**—For *Journal* articles, The Harvard system of recording references should be used, e.g. Green, C. and Brown, D. (1951) The tonsil problem. *Journal of Laryngology and Otology* 65: 33–38. A paper written by more than two authors should be abbreviated in the text, e.g. Green *et al.* (1951), but *all* the authors should be given in the list of references. The titles of all *Journals* should be given without abbreviation. **References should be listed in alphabetical order**; use of the Vancouver system will **not** be accepted.

For single-author books, the following style should be used: Green, C. (1951) *The tonsil problem*, 2nd Edition. vol. 1, Headley Brothers Ltd., Ashford, Kent, pp 33–38.

For papers in multi-books with one or more editors, the reference should include the title of the chapter and the names of the editors, together with the number of the edition as e.g. Brown, D. (1951) Examination of the ear. In *Diseases of the Ear, Nose and Throat*. 2nd Edition. (White, A., Black, B., eds.), Headley Brothers Ltd., Ashford, Kent, pp 33–38.

It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication. The names of authors cited in the References should be given in alphabetical order.

(i) **Drugs**—The proper names of drugs must be used. One reference can be made to the brand name if it is felt to be important to the study.

(j) **Financial disclosures**—In the submission letter to the Editor, the authors must list all affiliations with or financial involvement in, organizations or entities with a direct financial interest in the subject matter or material of the research discussed in the manuscript.

(k) **Declaration**. Each manuscript must be accompanied by a letter of declaration to be signed by each author to confirm that they have seen, read and approve the contribution bearing their name.

(l) **Rejections**—All manuscripts which are rejected will no longer be returned to the authors. Those submitting papers should, therefore, ensure that they retain at least one copy and the reference numbers, if any, of the illustrations. The only exception to this will be those manuscripts with colour illustrations which will be returned *automatically* by Surface Mail.

(m) **Facsimile (FAX)**—All authors should send a Facsimile number whenever possible to speed communication; this particularly applies to those outside the United Kingdom. Manuscripts with no visual illustrations (X-rays/pathology) may be sent by facsimile.

3. Page proofs are sent to authors for corrections, which should be kept to a minimum; they must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Orders for reprints must be sent when returning page proofs, and for this purpose special forms are supplied.

5. Editorial communications may be addressed to **The Editor, Journal of Laryngology and Otology, c/o Headley Brothers Ltd., The Invicta Press, Ashford, Kent TN24 8HH, or sent by FAX (01483 451874).**

6. **The annual subscription is £110.00 Institutions & Libraries US\$250.00; £85.00 Individuals US\$195.50; £45.00 Registrars, Residents and Interns.** (Those in training should submit a certificate from The Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct). Claims to be made for missing issues within 6 months of each publication date.

7. Single copies of current or back numbers (when available) will be on sale at £18.00 each (including postage).

8. **SUPPLEMENTS** published at 'irregular' intervals with subscription, available separately on request.

9. All subscriptions, advertising and business communications should be sent to the publishers, or subscription agents.

Instructions for Occasional Articles

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognized authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Audit Articles. Articles should be of general audit interest—not specifically departmental. It should always be demonstrated that the 'audit cycle' has been completed.

'Silence in Court'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example, a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

Radiology in Focus. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bimonthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasize a problem of unusual clinical interest.

Pathology in Focus. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bimonthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities. It may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Oncology in Focus. This new feature is for papers concerned with oncological treatment and investigation.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the *Journal*, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the *Journal* in the hope of including them early thereafter.

'Mini-papers', such as those which appear in the *British Medical Journal*, *Lancet*, or *New England Journal of Medicine*, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Prices include postage and packing.

The Journal of Laryngology and Otology

Edited by Neil Weir

A leading international journal, published monthly and containing original scientific articles and clinical records in all fields of Otolaryngology, Rhinology and Laryngology. Including occasional supplements. Founded in 1886.

Annual subscription for 1996 (calendar year): £100.00 Institution, £85.00 Individual, Students rate £45.00.

ISSN 0022 2151

Supplements still available separately.

The ENT Surgeon looks at the Orbit

by D. F. N. Harrison

This supplement records in some detail Professor Harrison's 'personal experience over a period of 20 years dealing with a wide variety of clinical conditions in which entry into the orbit was a desirable or essential part of treatment'.

Pp 42 Printed 1980

Retail £4.00 (US\$8.00)

20 Years Experience with Homografts in Ear Surgery

by Christian Betow

The author, a professor of Otolaryngology in West Berlin, gives a full account of his pioneering development of homograft materials in reconstructive surgery of the middle ear.

Pp 28 Printed 1982

Retail £4.00 (US\$8.00)

Experimental and Clinical Studies in Otitis Media with Effusion

by Jamsheed A. Khan

An experimental and clinical study on the effects of Carbocisteine on fluid in the middle ear.

Pp 28 Printed 1983

Retail £4.00 (US\$8.00)

Proceedings of the Sixth British Academic Conference in Otolaryngology

Edited by John Ballantyne and John Booth

Pp 134 Printed 1983

Retail £5.00 (US\$10.00)

Second International Tinnitus Seminar

Chairman: Abraham Shulman

A comprehensive study of the problems and treatment of tinnitus.

Pp 323 Printed 1984

Retail £20.00 (US\$40.00)

Forensic Audiology

by Chuang Wei Ping

A clear concise and practical guide to industrial hearing damage by a barrister/physician. This is an unusual and highly specialised aide memoire for the personal injuries practitioner, well illustrated with recent case law. A commendable enterprise by the author.

Pp 57 Printed 1986

Retail £7.00 (US\$14.00)

The Acute Orbit

Preseptal (Periorbital) cellulitis subperiosteal abscess and orbital cellulitis due to sinusitis.

by J. R. Moloney, N. J. Badham and A. McRae

Pp 18 Printed 1987

Retail £7.00 (US\$14.00)

Nasal Mast Cells: A Preliminary Report on their Ultrastructure

by A. B. Drake-Lee, F.R.C.S.

The ultrastructural morphology of mast cells in the nose and the adenoids are compared. Normal cells have a very varied morphology with electron dense granules which have scrolls occasionally. Cells from patients with perennial allergic rhinitis show variable degranulation in all areas examined. Few cells were seen in the surface epithelium. Cells from the adenoids had different degrees of degranulation which suggests that mast cell reactions are not a constant feature.

Pp 17 Printed 1987

Retail £10.00 (US\$20.00)

Surgical Anatomy of Structures Adjacent to the Thyroid Apex and Post-operative Voice Change (A Review Including Dissection)

by K. L. Yezingatsian, F.R.C.S.

or

Fax: 0171 409 7854.

EUROPEAN ACADEMY OF FACIAL PLASTIC SURGERY

c/o B.A.O. - H.N.S. • The Royal College of Surgeons of England
35-43 Lincoln's Inn Fields • London WC2A 3PN • U.K.
Tel: 0171 - 831 - 3916 • Fax: 0171 - 404 - 4200

FELLOWSHIP IN FACIAL PLASTIC SURGERY

THE EUROPEAN ACADEMY OF FACIAL PLASTIC SURGERY

invites applications from suitably qualified individuals
from within the European Community for a

Fellowship in Facial Plastic Surgery tenable for up to six months during 1998.

Applicants should be medically qualified and at the senior trainee or junior specialist levels. They should have demonstrated a particular interest in facial plastic surgery appropriate to their level of training.

The Fellowship will be held in several European centres which will be chosen according to the successful candidate's particular interests.

The Fellow will be paid an honorarium but will be essentially self-funding. All Fellows will be expected to be, or to become, Members of the Academy.

Letters of application with *curriculum vitae* and the names and addresses of two referees should be sent to

Mr M. P. Stearns FRCS, Honorary Secretary
European Academy of Facial Plastic Surgery
c/o BAO-HNS, The Royal College of Surgeons
35-43 Lincoln's Inn Fields, London WC2A 3PN, U.K.

Private Practice Software

From D.G.L. Information Technologies (UK) Ltd.

The UK's best selling private practice software, just got better...

- Completely rewritten to take full advantage of Windows '95 & NT.
- New modular version provides a tailored, cost-effective solution whatever your budget or requirements.
- Major new features have been added that offer an unrivalled range of features and flexibility.

- Ready for Electronic Claims Processing and approved by major participating Insurers.
- Acclaimed for its ease of use, we have made the software *even easier* to use and tailor to your exact requirements.
- BEST OF ALL it is now available, FREE, on a 30-day, no-obligation trial basis.

Over 1300 Practice Manager Licences Sold To-date.

The screenshot displays the 'Invoice' window with a menu of options: Invoice To..., Invoice Items, Notes/Comments, Claim Info, Select Required Operations, Set Operation Fees, Operation/Patient Details, Correspondence, Service Invoice, Amend / Delete Invoice, Re-print, Receive Payment, Multiple Payment, Additional Income, Deposit, Re-print Receipt, Reversal, Debt Write-Off, Credit Note, Automatic Reminders, Individual Reminder, Patients NOT To Remind, Account Report, Account Graph, Patient Statement, Insurance Co. Statement, Solicitor Statement, GP Statement, Clinician Statement, Op. Details, and Make Payment, Record Payment Due, Payment Reports, Payment Graphs. A bar chart and a pie chart are also visible. In the foreground, there is a printed invoice for 'Mr Roy Fitch' from 'Meadow Hill Practice'.
