Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org

Proceedings of the International Astronomical Union

Published for The International Astronomical Union (IAU)

Chair of the IAU Editorial Board

Thierry Montmerle, Institut d'Astrophysique de Paris, France

Proceedings of the International Astronomical Union publishes high-quality and timely previews and reviews of fundamental and state-of-the-art astrophysical developments around the world, as presented at some ten IAU-sponsored conferences per year. Subjects covered are broad, and in the past have included fundamental astronomy; the sun and heliosphere; planetary systems; stars and variable stars; interstellar matter; the galactic system; galaxies and the Universe; optical and infrared techniques; radio astronomy; and space and high-energy astrophysics. The Series is essential reading for both professional astrophysicists and students, for finding comprehensive reviews and for studying new developments in specialised fields.

The Journal of Navigation

Published on behalf of
The Royal Institute of Navigation

Editor

Alan Peacock, FRIN FNI, The Royal Institute of Navigation, UK

The Journal of Navigation contains original papers on the science of navigation by man and animals over land and sea and through air and space, including a selection of papers presented at meetings of the Institute and other organisations associated with navigation. Papers cover every aspect of navigation, from the highly technical to the descriptive and historical. Subjects include electronics, astronomy, mathematics, cartography, command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law. The journal also publishes selected papers and reports from the Institute's special interest groups. Contributions come from all parts of the world.

AIMS AND SCOPE

International Journal of Astrobiology publishes original papers and review articles on Astrobiology Science. News of interest to the astrobiology community and book reviews will also feature. Contact one of the editors if you have questions regarding suitability of a subject area, news submission or book review.

The fields covered include:

- * Cosmic prebiotic chemistry
- * Planetary evolution
- * Search for planetary systems and habitable zones
- * Origins, evolution and distribution of life
- * Extremophile biology and experimental simulation of extraterrestrial environments
- * Life detection in our solar system and beyond
- * Technologies and space missions for astrobiology, and planetary protection
- * Human expansion, ecosystems beyond Earth and terraforming
- * Ecosystems beyond Earth
- * Intelligent life and societal aspects of astrobiology

There are no page charges or length restrictions. All articles are submitted to peer-review.

SUBMISSION OF MANUSCRIPTS

Contributions for consideration for publication should be submitted via our online website at http://mc.manuscriptcentral.com/submit_ija

During the submission process authors will be asked to select an appropriate Editor for their paper. Areas of interest for the Editors are as follows:

Dr. Simon Mitton – General Papers, Philosophy, Astronomy

Dr. Rocco Mancinelli – Extremophiles, Microbiology, Nitrogen Cycling

Dr. Frances Westall – Origin of Life in a Geological Context, Search for Life on Mars, Biosignatures of Early Earth Sediments.

The *initial* submission should preferably be in Word or PDF format. If your paper is accepted you will need to submit a Word document with illustrations as separate eps or tif files. LaTeX files can also be accepted for the final version; however a PDF must also be supplied for printing.

For papers with high resolution figures or micrographs please *also* submit a hard copy version – in colour if appropriate. Black and White halftones and colour illustrations have to be scanned at a high resolution (minimum 300dpi). For very large files contact our production department for further instruction.

Please consult our full Instructions for Contributors at journals.cambridge.org/ija

INTERNATIONAL JOURNAL OF ASTROBIOLOGY

SPECIAL ISSUE: THE SAO PAULO ADVANCED SCHOOL OF ASTROBIOLOGY – SPASA 2011

CONTENTS

- 187 **Editorial**
- Research papers**
- 189 **Astrobiology in Brazil: early history and perspectives**
Fabio Rodrigues, Douglas Galante, Ivan G. Paulino-Lima, Rubens T.D. Duarte, Amancio C.S. Friaça, Claudia Lage, Eduardo Janot-Pacheco, Ramachrisna Teixeira & Jorge E. Horvath
- 203 **Cosmic evolution: the context for astrobiology and its cultural implications**
Steven J. Dick
- 217 **Fossils and astrobiology: new protocols for cell evolution in deep time**
Martin D. Brasier & David Wacey
- 229 **Adsorption of amino acids and nucleic acid bases onto minerals: a few suggestions for prebiotic chemistry experiments**
Dimas A.M. Zaia
- 235 **The rule of synchrotron radiation in the prebiotic evolution**
A. Naves de Brito, A. Miranda da Silva & A. Mocellin
- 243 **Nuclear astrophysics: nucleosynthesis in the Universe**
Alinka Lépine-Szily & Pierre Descouvemont
- 251 **Mini-Review: Probing the limits of extremophilic life in extraterrestrial environment-simulated experiments**
Claudia A.S. Lage, Gabriel Z.L. Dalmaso, Lia C.R.S. Teixeira, Amanda G. Bendia, Ivan G. Paulino-Lima, Douglas Galante, Eduardo Janot-Pacheco, Ximena C. Abrevaya, Armando Azúa-Bustos, Vivian H. Pellizari & Alexandre S. Rosado
- 257 **Maintenance of permeable habitable subsurface environments by earthquakes and tidal stresses**
Norman H. Sleep
- 269 **Raman spectroscopy and the search for life signatures in the ExoMars Mission**
Howell G.M. Edwards, Ian B. Hutchinson & Richard Ingley
- 279 **Effects of high-energy astrophysical events on habitable planets**
Jorge E. Horvath & Douglas Galante
- 287 **Life's chirality from prebiotic environments**
Marcelo Gleiser & Sara Imari Walker
- 297 **Rocky exoplanet characterization and atmospheres**
L. Kaltenegger, Y. Miguel & S. Rugheimer
- 309 **Evolution of Precambrian life in the Brazilian geological record**
Thomas Rich Fairchild, Evelyn A.M. Sanchez, Mírian Liza A. F. Pacheco & Juliana de Moraes Leme
- 325 **Brazilian research on extremophiles in the context of astrobiology**
Rubens T.D. Duarte, Felipe Nóbrega, Cristina R. Nakayama & Vivian H. Pellizari
- 335 **Thoughts on the diversity of convergent evolution of bioluminescence on earth**
Hans E. Waldenmaier, Anderson G. Oliveira & Cassius V. Stevani
- 345 **From cosmos to intelligent life: the four ages of astrobiology**
Marcelo Gleiser
