

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD LTD.
EDINBURGH AND LONDON

OCTOBER 1962

VOL. 4 PART 3

INFORMATION FOR CONTRIBUTORS TO
ANIMAL PRODUCTION

Animal Production publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Papers presented at meetings of the British Society of Animal Production, if submitted to the Editors, will be given equal consideration with other papers.

Manuscripts should be typed in double spacing and the ribbon copy sent to

Dr. Gerald Wiener,
A.R.C. Animal Breeding Research Organisation,
6 South Oswald Road, Edinburgh 9.

Manuscripts are not returned with the proofs; authors should therefore retain copies.

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless the author bears the cost.

Tables should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors.

BRITISH POULTRY SCIENCE

SPONSORED BY THE POULTRY EDUCATION ASSOCIATION

Contents of Volume 3, No. 2 (May 1962)

FREEMAN, B. M. Gaseous metabolism in the domestic chicken. II. Oxygen consumption in the full-term and hatching embryo, with a note on a possible cause for "death in shell."

WILLIAMS, J. R. PARRY. The effect of fumigating a poultry house with hexachlorocyclohexene (BHC) to control flies.

BYNG, A. J. and NASH, D. The effects of egg storage on hatchability.

BURNETT, G. S. The effect of damaged starch, amylolytic enzymes and proteolytic enzymes on the utilisation of cereals by chickens.

ARRINGTON, LOUIS C., ABPLANALP, HANS and WILSON, WILBOR O.
Experimental modification of the laying pattern in Japanese quail.

HUTT, F. B. A further note on the viability broody hens.

This journal is published three times a year. The annual subscription is 45s. (U.S.A. \$7.50), single parts 17s. 6d. (U.S.A. \$2.75): Orders and subscriptions may be sent to any bookseller or direct to the publishers.

A completely new and comprehensive review of progress in the artificial insemination of farm livestock, poultry, dogs and laboratory animals.

TECHNICAL COMMUNICATION NO. 15

THE SEMEN OF ANIMALS AND
ARTIFICIAL INSEMINATION

Edited by J. P. Maule

Part I: Cattle, by D. R. Melrose

Part II: Water buffalo, by P. Bhattacharya
Sheep, by C. W. Emmens and T. J. Robinson
Goat, by J. Blokhuis
Pig, by L. E. A. Rowson
Horse, by P. W. Swire
Mule production, by P. W. Swire
Dog, by A. E. Harrop
Rodents, by C. E. Adams
Poultry, by P. E. Lake

Part III: Artificial insemination in the tropics, by D. H. L.
Rollinson and W. R. Nunn
Transport of semen, by G. F. Smith

Among the subjects covered are: the management of sires for semen production; methods of semen collection; assessment of semen quality; semen composition and metabolism; the dilution, handling, storage and transport of semen; insemination techniques; factors affecting conception rates.

JOURNAL OF DAIRY SCIENCE

OFFICIAL PUBLICATION OF THE AMERICAN DAIRY SCIENCE ASSOCIATION

E. O. HERREID, Editor-in-Chief, University of Illinois, Urbana
H. F. JUDKINS, Secretary-Treasurer, White Plains, N.Y.

CONTENTS VOL. 45, No. 7, JULY 1962 includes:

- ZITTE, C. A., THOMPSON, M. P., CUSTER, J. H. and CERBULIS, J. κ -Casein— β -Lactoglobulin Interaction in Solution When Heated.
- MORR, C. V., VAN WINKLE, Q. and GOULD, I. A. Application of Polarization of Fluorescence Technique to Protein Studies. I. The Rotary Properties of β -Lactoglobulin.
- MORR, C. V., VAN WINKLE, Q. and GOULD, I. A. Application of Polarization of Fluorescence Technique to Protein Studies. II. The Rotary Properties of κ -Casein.
- MORR, C. V., VAN WINKLE, Q. and GOULD, I. A. Application of Polarization of Fluorescence Technique to Protein Studies. III. The Interaction of κ -Casein and β -Lactoglobulin.
- SHAHANI, K. M. Inhibitory Effect of Nisin upon Various Organisms.
- SHAHANI, K. M., HATHAWAY, I. L. and KELLY, P. L. B-Complex Vitamin Content of Cheese. II. Niacin, Pantothenic Acid, Pyridoxine, Biotin, and Folic Acid.
- JENSEN, R. G., SAMPUGNA, J., PARRY, R. M., JR. and FORSTER, T. L. Absence of Fatty Acid Specificity During Lipolysis of Some Synthetic Triglycerides of B-Esterase Preparations from Milk.
- EL-NEGOUY, A. M. and HAMMOND, E. G. Effect of Antioxidants on the Flavor of Cold Storage Butter.
- RONNING, MAGNAR and BATH, D. L. Relative Milk Production Value of Barley, Dried Beet Pulp, Molasses Dried Beet Pulp, and Concentrated Steffen Filtrate Dried Beet Pulp.
- ARCHIBALD, J. G., BARNES, H. D., FENNER, H. and GERSTEN, B. Digestibility of Alfalfa Hay and Reed Canary Grass Hay Measured by Two Procedures.
- HICKMAN, C. G. Effects of Level of Herd Environment. I. Relationship Between Yield and Age.

This Journal is published monthly. The annual subscription rate is \$20.00 in the United States and Canada and is \$20.50 in all other countries, post paid.
Subscriptions should be sent to the Garrard Press, 510 North Hickory Street, Champaign, Illinois.

Membership dues to the Association are \$12.50 per year, including the *Journal of Dairy Science*. Dues should be sent to Dr H. F. Judkins, Secretary-Treasurer, 32 Ridgeway Circle, White Plains, New York.

THE JOURNAL OF THE AUSTRALIAN INSTITUTE OF AGRICULTURAL SCIENCE

CONTENTS—VOL. 28, No. 2. JUNE 1962

Conference

- Agricultural science and productivity in the next decade
Presidential Address—Resources, by C. S. CHRISTIAN.
Plant science, by O. H. FRANKEL.
Animal science, by E. J. UNDERWOOD.
Mechanization, by E. R. HOARE.
Economics, by J. N. LEWIS.

Articles

- Principles of heat treatment of soil and planting material, by K. F. BAKER.
Management and the physiology of milk production, by W. G. WHITTLESTONE.
Agricultural extension—advice or education, by J. R. M. WOLFE.

Letters

- The effect of cultivation techniques on the establishment of *Ehrharta calycina* Sm.
in a semi-arid environment, by W. A. MUIRHEAD.
Inaccurate reference lists, by C. W. WINDERS.

Rabbit Feeding for Meat and Fur

BY

F. C. AITKEN AND W. KING WILSON

*Technical Communication No. 12, 2nd Edition, of the
Commonwealth Bureau of Animal Nutrition*

The second edition of this book has been completely rewritten to bring it up to date. In the first half rations recommended in Scandinavia, the United Kingdom and the United States for breeding and rearing rabbits are presented in detail, evaluated and discussed. In the second half the available information on nutrient requirements of rabbits is reviewed. An appendix gives crude composition, percentage of digestible nutrients and energy of digested feed of some rabbit feeds in common use.

ANIMAL BEHAVIOUR

Editor : Alastair N. Worden

Animal Behaviour is issued twice a year in April and October. It publishes original papers on animal behaviour and related subjects from contributors in many countries. Reports of researches, book reviews and correspondence are included, as are reports of the Proceedings of the Association for the Study of Animal Behaviour and the Section of Animal Behavior and Sociobiology (Ecological Society of America and American Society of Zoologists), of which it is the official journal.

The contents of the October issue include:
Hailman/Kloper. On Measuring Critical Learning Periods in Birds.
Brockshire/Warren. The Generality and Consistency of Handedness in Monkeys.
Schaller/Emlen. The Ontogeny of avoidance Behaviour in some Precocial Birds.
Norris. Group Effects on the activity and Behaviour of Adult males of the Desert Locust.
Carbaugh/Schein/Hale. Effects of Morphological Variations of chicken models on Sexual Responses of Cocks.
Holst/Fraser/Rowell. The Structural Basis of Drive.
Armitage. Social Behaviour of a Colony of the Yellow-Bellied Marmot.
Reese. Shell Selection Behaviour of Hermit Crabs.
Hoar. Hormones and the Reproductive Behaviour of the Male Three-Spined Stickleback (*Gasterosteus aculeatus*).
Stokes. Agonistic and Sexual Behaviour in the Chukar Partridge (*Alectoris graeca*).

Annual Subscription 70s., U.S.A. & Canada \$12.00

The  **British Veterinary Journal**
 Editor J. A. LAING *Chairman of the Editorial Board* Sir JOHN RITCHIE

The oldest veterinary periodical in the British Commonwealth. It has always maintained the broadest interest in animal welfare with regular articles on Breeding and Nutrition. The following papers appear in the September 1962 issue.

- Jennings:* The Future of the Veterinary Profession.
Tavernor/Vaughan: Radiography of Horses and Cattle.
Perek/Drill: The Role of the Bursa of Fabricius in Developing Immunity in Chickens Treated with *Salmonella typhimurium* and *Spirochaeta gallinarum*.
McFerran/Dowl: Growth of Aujeszky's Virus in Rabbits and Tissue Culture.
Gray/Stebbins: An Annotated Bibliography of Surveys of the Incidence of Diseases of Farm Animals and Birds in Great Britain Published during 1931-1961. Part I. Surveys Covering several species and Surveys of Pigs.

A MONTHLY REVIEW OF VETERINARY SCIENCE

Annual subscription 60s.
