Series B — Applied Mathematics

Volume 30 Part 3
JANUARY 1989

A boundary integral method for contaminant transport in two adjacent porous media	251
K. A. Landman	
Stochastic models for interference between searching insect parasites	268
Phil Diamond	
Flux ratios for biological membranes and reciprocity theorems for linear operators	278
A. J. Bracken, K. Holm�aker, L. V. Maloney and L. Bass	
Some remarks on Pauli data in quantum mechanics	298
Charles N. Friedman	
Duality between distant point and median of a tree network space	304
D. K. Kulshrestha	
Exact solutions of nonlinear evolution equations of the AKNS class	313
W. L. Chan and Yu-Kun Zheng	
Constraint qualifications in input optimisation	326
M. van Rooyen, M. Sears and S. Zlobec	
Boundary conditions in optimal control	343
B. D. Craven	
A computational method for combined optimal parameter selection and optimal control problems with general constraints	350
K. L. Teo and C. J. Goh

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that is understandable by non-specialist readers from the whole applied mathematical community.

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 100 free offprints of each paper are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A\$110 (Members A\$16) per annum by the Australian Mathematical Society, Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia. Second class postage is paid at Ann Arbor, Michigan 48106. Postmaster: Send address change notices to Dr B. D. Jones, Journal of the Australian Mathematical Society, Department of Mathematics, University of Queensland, St. Lucia, Qld. 4067, Australia.
