CNS SPECTRUMS

EDITOR-IN-CHIEF: **STEPHEN M. STAHL**

THE JOURNAL OF THE
**Neuroscience
Education Institute**

**CAMBRIDGE
UNIVERSITY PRESS**

Want some CME with that?

STAHL

MASTERCLASS

- An online educational program in core areas of psychiatry with interactive readings, short lectures, animations and case studies

- Self-testing and opportunities to claim formal CME credits, all taken at a self-directed speed

- Written and moderated by experts in the field from the Dr. Stahl's Neuroscience Education Institute and the University of Cambridge

CNS SPECTRUMS

CONTENTS

BRAINSTORMS

- Comparing pharmacologic mechanism of action for the vesicular monoamine transporter 2 (VMAT2) inhibitors valbenazine and deutetrabenazine in treating tardive dyskinesia: does one have advantages over the other?**
Stephen M. Stahl 239

GUEST EDITORIAL

- Optimization of acute stroke care in the emergency department: a call for better utilization of healthcare resources amid growing shortage of neurologists in the United States**
Jagannadha Avasarala and Keith Wesley 248

LETTER TO THE EDITOR

- Psychopharmacological options for adult patients with anorexia nervosa: the patients' and carers' perspectives**
Hubertus Himmerich, Moradeke Joaquim, Jessica Bentley, Carol Kan, Julia Dornik, Janet Treasure and Ulrike Schmidt 251

REVIEW ARTICLE

- A biopsychosocial evaluation of the risk for suicide in schizophrenia**
Nuwan C. Hettige, Ali Bani-Fatemi, Isaac Sakinofsky and Vincenzo De Luca 253

ORIGINAL RESEARCH

- Availability of dopamine transporters and auditory P300 abnormalities in adults with attention-deficit hyperactivity disorder: preliminary results**
Ching-Lin Chu, I Hui Lee, Mei Hung Chi, Kao Chin Chen, Po See Chen, Wei Jen Yao, Nan Tsing Chiu and Yen Kuang Yang 264
- Clinical characterization of Italian suicide attempters with bipolar disorder**
Bernardo Dell'Osso, Matteo Vismara, Cristina Dobrea, Laura Cremaschi, Benedetta Grancini, Chiara Arici, Beatrice Benatti, Massimiliano Buoli, Terence A. Ketter and A. Carlo Altamura 271
- QTc interval in patients with schizophrenia receiving antipsychotic treatment as monotherapy or polypharmacy**
Anja Elliott, Thibault Johan Mørk, Mikkel Højlund, Thomas Christensen, Rasmus Jeppesen, Nikolaj Madsen, Anne Grethe Viuff, Peter Hjorth, Jens Cosedis Nielsen and Povl Munk-Jørgensen 278
- Effect of aripiprazole lauroxil in patients with acute schizophrenia as assessed by the Positive and Negative Syndrome Scale—supportive analyses from a Phase 3 study**
Leslie Citrome, Robert Risinger, Andrew J. Cutler, Yangchun Du, Jacqueline Zummo, Henry A. Nasrallah and Bernard L. Silverman 284

Editor-in-Chief

Stephen M. Stahl, Adjunct Professor of Psychiatry at the University of California San Diego, USA;
Honorary Visiting Senior Fellow at the University of Cambridge, UK.

Field Editors

Jagannadha Avasarala, University of South Carolina School of Medicine, USA
Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA
Stefano Pallanti, University of Florence, Italy
Donatella Marazziti, University of Pisa, Italy
Thomas E. Schlaepfer, University Hospital Bonn, Germany
Frank I. Tarazi, Harvard Medical School, USA
Carlos A. Zarate, National Institute of Mental Health, USA

Deputy Editor

Thomas L. Schwartz, SUNY Upstate Medical University at Syracuse, USA

Managing Editor

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

Aims and Scope

CNS Spectrums covers all aspects of the clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal features focused, in-depth reviews, perspectives and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in man studies, proof of concept studies and translational basic neuroscience studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

CNS Spectrums will consider and encourage the following types of articles for publication: **Reviews**—The review article is a comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Perspectives**—The perspective article is a type of review that is a short, focused summary of a single recent advance, a sort of spotlight on the topic, which could be for example, a single point hypothesis or a novel model. It can stimulate debate and new research. **Meta-guidelines**—A meta-guideline is a “guideline of guidelines” put together by several leading figures in a field in which there are multiple competing guidelines that require synthesis and updating; **Original Research**—Reports the results of a clinical study and contains original research; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor-in-Chief.

Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

Indexing

CNS Spectrums is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

Subscriptions

Institutional print and electronic: £520/\$824; Institutional electronic only: £395/\$631.
