The Legal History Review was founded in 1918 by a number of Dutch jurists, following the initiative of E.M. Meijers. Since its inception the *Review* has stimulated a scholarly interest in the history of law and, at the same time, has created an international focus for co-operation in this field. Such cooperation is necessary first of all for the methodological investigation of the common foundations of western European and American Law: Roman Law, Germanic Law and Canon Law. In addition, the national legal systems of all countries, as they have developed in their own, often diverging ways, merit comparative study.

Over the course of time contributions have been devoted to the most diverse aspects of legal history. In addition to the history of the national law of the European countries, Roman law and its development during and after the Middle Ages have received special attention.
