### Applied Intermediate Macroeconomics

KEVIN D. HOOVER, *Duke University*

Hardback ISBN: 9780521763882

944 pages 216 b/w illus. 55 tables, October 2011

“Macroeconomics defies the neat confines of a unified theory – a common source of frustration among its pupils. Hoover weaves the analytical tapestry with methodical data analysis until a clear picture of the major trends and policy developments in modern economies is revealed. Hoover plays two of his research strengths – his expertise in the history of economic thought and in macroeconometrics – to produce a macroeconomics textbook like no other.”

– *Oscar Jorda, University of California, Davis*
