

THE ELECT NATION

*The Meaning and Relevance of
Foxe's BOOK OF MARTYRS*

by **William Haller**

The origins of English Puritanism and the outcome of the English Reformation are illuminated in Professor Haller's masterful study of John Foxe's pivotal work. Set against a background of religious persecution and political turmoil, this fresh interpretation shows how the English people, influenced by Foxe, came to consider themselves as destined by God to fulfill his purpose in history.

"An excellent account . . . Scholarly and judicious, it is well written and readable; a human story with the accent, properly and interestingly, on the personal." —A. L. ROWSE \$5.00

THE RUSSIAN RELIGIOUS RENAISSANCE OF THE TWENTIETH CENTURY

by **Nicolas Zernov**

The first thorough presentation of a vital but little known stream of twentieth-century religious thought. In this brilliant contribution to modern intellectual history, Nicolas Zernov describes in close detail the creative contribution made by the Russian intelligentsia to Christianity before and after the Revolution of 1917. *Biographical appendix. Index. Photographs.*

"This is a book all students of things Russian have been waiting for. (It) is excellently condensed history . . . brilliant analysis, psychological and spiritual." —DONALD A. LOWRIE \$7.00

THOMAS AQUINAS AND JOHN GERHARD

Theological Controversy and Construction in Medieval and Protestant Scholasticism

by Robert P. Scharlemann

A positive contribution to current ecumenical thought, this comparative study of medieval Catholic and seventeenth-century Protestant scholasticism will aid in understanding the present-day issues between Roman Catholicism and Protestantism. The author explores the basic similarities and differences in theological formulation found in Thomas Aquinas and John Gerhard, using the theological understanding of man as the point of concentration. Of particular interest is the appearance, for the first time in English, of a descriptive analysis of continental Protestant theology of the seventeenth century as part of a broader movement in intellectual history.

THE QUAKERS IN PURITAN ENGLAND

by Hugh Barbour

In what promises to be a definitive study in the field, Mr. Barbour gives a full account of the beginnings of the Quaker movement in the North of England, covers the early days of its missionaries, and discusses the relations of the movement to other dissenting sects. The lives of the leaders and their political significance and influence together with changes in the Quaker outlook over the centuries are fully explored. Mr. Barbour, by steering a middle course with regard to the ideas, attitudes, and social setting that accounted for the rise and popularity of Quakerism, has produced a sympathetic but objective study of a controversial subject.

THOMAS STAPLETON AND THE COUNTER REFORMATION

by Marvin R. O'Connell

Thomas Stapleton, called the most learned Roman Catholic of his time, was a leader in the revitalized Roman Catholic Church of the sixteenth century that stemmed the tide of Protestantism and made a counteroffensive. Stapleton was one of a group of controversialists whose writings gave shape to Catholic theology and Catholic attitudes for centuries afterward. He considered himself a warrior, with scholarship his weapon, and devoted his life to a literary assault on the forces of Protestantism. Stapleton's ideas are here interpreted and studied with new insight on how the better educated sixteenth-century Catholic responded to Protestantism.

LUTHER'S VIEW OF CHURCH HISTORY

by John M. Headley

In view of the interest today in the place of tradition in the Church, this comprehensive treatment of Martin Luther's historical thought is especially timely. Using many sources not previously available in English, Mr. Headley shows that Luther's view of the Church's history was neither humanistic nor Augustinian, but thoroughly biblical, and expresses a distinctively Christian understanding.

New, from OXFORD — a distinguished
project in religious scholarship

A Library of Protestant Thought

Here are the first two volumes in a significant new series illustrating and interpreting the history of the Christian faith in its Protestant expression in Europe and America. Intended to be representative rather than exhaustive and reflecting most recent advances in critical historical scholarship, *A Library of Protestant Thought* encompasses literary forms and theological positions as varied as the movement it mirrors. The voices of Protestantism are allowed to speak for themselves, with only as much introduction and commentary as is needed to reaffirm their continuing vitality.

JOHN WESLEY

Edited by ALBERT C. OUTLER

In this selection of his most representative writings, one of the major figures in eighteenth-century Christianity secures a fair hearing in the forum of contemporary theology. Conventional and misleading stereotypes about John Wesley and his thought are dispelled, as attention is focused on Wesley's decisive sources — Anglican, patristic, biblical — and his actual pronouncements on nearly every theological topic that he regarded as important. Historically oriented introductions and comprehensive footnotes accompany the texts, which restore basic essays usually inaccessible to the general reader or found only in woefully inadequate editions. 544 pages. \$7.50

THE OXFORD MOVEMENT

Edited by EUGENE R. FAIRWEATHER

Inescapable dilemmas of Protestant churchmanship and their demonstrated solutions fill this anthology of key theological writings born of the Anglo-Catholic Revival in nineteenth-century England. A major factor in the modern reshaping of the Church of England and of the entire Anglican Communion, the Oxford Movement is here depicted in the light of its indirect influences on Christianity as a whole. Emphasis is given the Movement's intellectual and political background situation, its reassertion of ecclesiastical and episcopal authority, its impact on accepted doctrine, its conflict with popular Protestantism of the day, and its deeply sacramental piety and theology. 416 pages. \$7.50
