# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 74, 2021, which includes print and electronic access, is £737 (USA, Canada and Mexico US \$1329) and includes delivery by air; single parts are available at £134 (USA, Canada and Mexico US \$240) plus postage. The electronic-only price available to institutional subscribers is £570 (USA, Canada and Mexico US \$1041). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 74 • NUMBER 4 • JULY 2021

## CONTENTS

<b>Predictably unpredictable</b> <i>Anahid Basiri</i>	723
<b>Examining drivers' socio-demographic variables and perceptions towards sanction mechanisms on speeding behaviour on highways: targeting appropriate prevention</b> <i>Fitri Trapsilawati, Nadhiya Ulhaq Priatna, Titis Wijayanto, Ari Widyanti, Utami Dyah Syafitri and Nur Chamidah</i>	726
<b>Oceanus: a context-aware low-cost navigation aid for yacht racing</b> <i>Ivan Scagnetto, Giorgio Brajnik, Peter Gus and Francesco Trevisan</i>	738
<b>Research on the hydrographic survey cycle for updating navigational charts</b> <i>Jing Duan, Xiaoxia Wan and Jianan Luo</i>	750
<b>Attitude reconstruction from strap-down rate gyros using power series</b> <i>Habib Ghanbarpourasl</i>	763
<b>Recovering authentic global position system L1 signals under spoofing using dual receiver direct positioning</b> <i>Chao Sun, Joon Wayn Cheong, Andrew G. Dempster, Hongbo Zhao and Wenquan Feng</i>	782
<b>A virtual environment for evaluation of computer vision algorithms under general airborne camera imperfections</b> <i>Arshiya Mahmoudi, Mehdi Sabzehparvar and Mahdi Mortazavi</i>	801
<b>A collision feedback based multiple access control protocol for very high frequency data exchange system in E-navigation</b> <i>Xu Hu, Bin Lin, Ping Wang, Hongguang Lyu and Tie-Shan Li</i>	822
<b>Wireless power charging of drone using vision-based navigation</b> <i>Swarnalatha Anumula and Anitha Ganesan</i>	838
<b>Effectiveness modelling of digital contact-tracing solutions for tackling the COVID-19 pandemic</b> <i>Viktoriiia Shubina, Aleksandr Ometov, Anahid Basiri and Elena Simona Lohan</i>	853
<b>Lie group based nonlinear state errors for MEMS-IMU/GNSS/magnetometer integrated navigation</b> <i>Jiarui Cui, Maosong Wang, Wenqi Wu and Xiaofeng He</i>	887
<b>Modelling and assessment of Galileo and Galileo/GPS velocity determination with stand-alone receiver</b> <i>Xiao Yin, Hongzhou Chai, Minzhi Xiang and Zhenqiang Du</i>	901
<b>Exploring into contributing factors to young seafarer turnover: empirical evidence from China</b> <i>Junzhong Bao, Yan Li, Guoping Zheng and Pengfei Zhang</i>	914
<b>Determining the likelihood of incidents caused by human error during dynamic positioning drilling operations</b> <i>Zalaa Sanchez-Varela, David Boullosa-Falces, Juan L. Larrabe-Barrena and Miguel A. Gomez-Solaech</i>	931
