

CHAPTER IX

THIRTIETH GENERAL ASSEMBLY

NEW MEMBERS AND DECEASED MEMBERS

PRESENTED AT THE GENERAL ASSEMBLY

1. Report of the IAU Membership Committee on the last Triennium (2015–2018)

Members of the IAU Membership Committee:

Sona EHLEROVA (Czech Republic)
William HARRIS (Canada)
Myungshin IM (Rep. Korea)
Lex KAPER (The Netherlands)
Daniela LAZZARO (Brazil)
Helmut O. RUCKER (Austria), Chair of the Committee
Ramotholo SEFAKO (South Africa)
David SODERBLOM (USA)

For the reviewing process all applications have been shared among the Committee members by nations which are - at least to some extent - close and related to the nationality of the respective Committee members.

Statistics

The overall IAU Membership Applications submitted to IAU, cleared up (i.e., removed) duplicates, comprised in number 1314 applications (Line 2 in Table 1). Out of this number the total number of IAU Individual Membership applications is 919 applications (Line 3 in Table 1) and the total number of IAU Junior Membership applications is 395 applications (Line 4 in Table 1).

A detailed statistics with regard to gender was not possible since this information was not visually provided in the online application. Several tens of applications have been transferred from IAU Individual to IAU Junior Membership due to the constraints posed on the Individual Membership, vice versa (i.e. transfer from Junior to Individual Membership) regarded only a few applications. This transfer process (as well as the rejections) addresses the conditions under which an IAU Individual or Junior Membership can be obtained. The numbers given in Table 1 clearly demonstrate that the introduction of the IAU Junior Membership was a success.

Table 1. Membership Applications

1	Total applications (Individual + Junior) including duplicates:	1356
2	Total applications (Individual + Junior) without duplicates:	1314
3	Total Individual Membership applications:	919
4	Total Junior Membership applications:	395
5	Number of Individual Membership applications accepted:	888
6	Number of Individual Membership applications rejected:	31
7	Number of Junior Membership applications accepted:	352
8	Number of Junior Membership applications rejected:	43

Online Applications

The application for both Individual and Junior Membership has been performed via online process and this procedure in general worked out quite well. However, some important improvements should be implemented in order to obtain a better performance both in the procedure of online application as well as in the reviewing process. In the following some recommendations are listed, in categories of major (A) and minor importance (B).

A1) Clear rules of conditions for the respective memberships which should be emphasized to the attention of the respective NCAs.

A2) Clear rules on the responsibility of application, i.e., what is relevant for the affiliation: the nation?, the citizenship?, the working institution and present position?

A3) Clear defined deadlines for the online application, for the NCA comments, for the Membership Reviewing process.

A4) The online form should define obligatory fields. When these fields are not filled with information then the application should not get finalized. In most cases of incomplete applications the “List of publications” and the “Present position” was missing.

B1) The online form poses the question: “Have you authored or been the principal co-author of refereed papers?” and “Application for IAU Membership.” All answers were “no” which does not make sense.

B2) Letters of Reference should be written in English (some have been written in Chinese language).

B3) Female applications may contain the maiden name if the name has been changed (relevant for publication check).

Acknowledgements

It is to the pleasure of the signatory to fully acknowledge the excellent work of all members of the IAU Membership Application Committee. The signatory also wants to emphasise the great support provided by both Madeleine Smith-Spanier and Piero Benvenuti having done speedy replies on requests and corresponding transfer actions.

The List of New Members

Below the names of the new members are given, recommended by the Membership Committee for admission at the General Assembly. Those nominated by the Division Presidents are presented first, followed by the majority of successful applicants, which were nominated by National Members.

NEW MEMBERS ADMITTED BY THE XXXth GENERAL ASSEMBLY

VIENNA, 20–31 AUG. 2018

The following lists give the names of the 352 new Junior Members and of the 888 Individual Members admitted at the XXXth General Assembly, ordered by National Member.

For a complete list of IAU members, please consult the IAU Directory:

<http://www.iau.org/administration/membership/individual/>.

For a complete list of IAU National Members (member countries), please visit:

<http://www.iau.org/administration/membership/national/>.

1. New Individual Members nominated by Division Presidents

Division D Tudose, Valeriu (Romania)

Division E Derouich, Moncef, (Tunisia)

Division H Asa'd, Randa, (United Arab Emirates)
