Secretary, c/o the Department of Philosophy, Bedford College, Regent's Park, London, N.W.1.

RELATIONSHIP AND SOLITUDE

PETER MUNZ

A study of the relationship between ethics, metaphysics and mythology. After considering whether ethical values can be anything but subjective, it shows first that ethics are grounded in metaphysics, and then that metaphysical ideas themselves are derived from mythology. So far from discrediting metaphysics, this derivation, Professor Munz argues, shows its importance and its true place in human experience. 30s.

HIDDEN RICHES

DÉSIRÉE HIRST

This book traces the traditional symbolism that grew up during the Renaissance, based on Platonism and the Jewish Kabalah, and which influenced such men as Boehme and Swedenborg. It was on this tradition that William Blake drew. 'Intellectually stimulating and exciting in the highest degree. . . . She unfolds a new world.' *Scotsman*. 11 plates, 42s.

BASIL BLACKWELL

OXFORD

St Augustine's City of God

Abridged and translated by

J. W. C. WAND

'... For anyone who wishes to get on terms with Augustine's thought and grasp the way in which he contrived to build a bridge between the ancient and the medieval worlds, this version is treasure-trove...' CHURCH TIMES 21s net

An Atheist's Values

RICHARD ROBINSON

'Nobody will agree with Mr Robinson on everything; but the virtues of free rational inquiry and of caring for beauty are not merely argued for in his pages, they are exhibited. To read this book attentively would be not only to learn more; it would force one to reflect in just the right way on one's own conduct.' THE GUARDIAN 28s net

Political Thought in Sixteenth- Century Spain

*A Study of the Political Ideas of
Vitoria, de Soto, Suárez, and
Molina*

BERNICE HAMILTON

Since the late A. J. Carlyle drew attention to the Dominicans and Jesuits of the Spanish Counter-Reformation, this is the first book to discuss their political ideas as a whole. The author has chosen four major (and typical) figures, and discusses their political views and their ideas about the classical problems of the political community.

'Its impeccable scholarship, the sympathy for and understanding of the period are all that could be desired; so is the cool judgment that refuses to be tempted into excessive admiration and still offers an adequate estimate of the merit of these four outstanding minds.'

Oxford University Press

Contemporary French Philosophy

A STUDY IN NORMS
AND VALUES

COLIN SMITH

A thorough analysis of the work of French philosophers, showing that the existentialist writings of Sartre, Camus and Simone de Beauvoir are based on the thought of philosophers eminent in their own country, but comparatively unknown elsewhere.

30s.

Reason & Violence

A DECADE OF SARTRE'S
PHILOSOPHY, 1950-1960

R. D. LAING
and D. G. COOPER

*with a foreword by
Jean-Paul Sartre*

A brilliantly executed exposition of, and introduction to, three works, *Critique de la Raison Dialectique*, *Questions de Méthode*, and *Saint Genet, Comédien et Martyr*, that are central to Sartre's more recent philosophical thinking.
