

OBJECTS  
OF THE  
**Marine Biological Association**  
OF THE UNITED KINGDOM.

---

THE ASSOCIATION was founded at a Meeting called for the purpose in March, 1884, and held in the Rooms of the Royal Society of London.

The late Professor HUXLEY, at that time President of the Royal Society, took the chair, and amongst the speakers in support of the project were the late Duke of ARGYLL, the late Sir LYON PLAYFAIR, the late Lord AVEBURY, the late Sir JOSEPH HOOKER, the late Dr. CARPENTER, the late Dr. GÜNTHER, the late Lord DALHOUSIE, the late Professor MORELEY, the late Mr. ROMANES, and Sir E. RAY LANKESTER.

The Association owes its existence and its present satisfactory condition to a combination of scientific naturalists, and of gentlemen who, from philanthropic or practical reasons, are specially interested in the great sea fisheries of the United Kingdom. It is universally admitted that our knowledge of the habits and conditions of life of sea fishes is very small, and insufficient to enable either the practical fisherman or the Legislature to take measures calculated to ensure to the country the greatest return from the "harvest of the sea." Naturalists are, on the other hand, anxious to push further our knowledge of marine life and its conditions. Hence the Association has erected at Plymouth a thoroughly efficient Laboratory, where naturalists may study the history of marine animals and plants in general, and where researches on food-fishes and molluscs may be carried out with the best appliances.

The Laboratory and its fittings were completed in June, 1888, at a cost of some £12,000. Since that time investigations, practical and scientific, have been constantly pursued at Plymouth. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council; in addition, naturalists from England and from abroad have come to the Laboratory, to carry on their own independent researches, and have made valuable additions to zoological and botanical science, at the expense of a small rent for the use of a working table in the Laboratory and other appliances. The number of naturalists who can be employed by the Association in special investigations on fishery questions, and definitely retained for the purpose of carrying on those researches throughout the year, must depend on the funds subscribed by private individuals and public bodies for the purpose. The first charges on the revenue of the Association are the working of the seawater circulation in the tanks, stocking the tanks with fish and feeding the latter, the payment of servants and fishermen, the hire and maintenance of fishing-boats, and the salary of the Resident Director and Staff. At the commencement of this number will be found the names of the gentlemen on the Staff.

The purpose of the Association is to aid at the same time both science and industry. It is national in character and constitution, and its affairs are conducted by a representative Council, by an Honorary Secretary and an Honorary Treasurer, without any charge upon its funds, so that the whole of the subscriptions and donations received are devoted absolutely to the support of the Laboratory and the prosecution of researches by aid of its appliances. The reader is referred to page 4 of the Cover for information as to membership of the Association.

## CONTENTS OF NEW SERIES, Vol. XIII., No. 4.

1.	EXPERIMENTAL LEGISLATION WITH REFERENCE TO THE CRAB AND LOBSTER FISHERIES OF THE EAST COAST OF BRITAIN. BY ALEXANDER MEEK. <i>With 7 Figures in the Text</i>	755
2.	THE VERTICAL DISTRIBUTION OF MARINE MACROPLANKTON. AN OBSERVATION ON DIURNAL CHANGES. BY F. S. RUSSELL. <i>With 1 Plate and 6 Figures in the Text</i>	769
3.	THE EUPHAUSIIDÆ IN THE NEIGHBOURHOOD OF PLYMOUTH. II. <i>Nyctiphanes Couchii</i> AND <i>Meganyctiphanes norvegica</i> . BY MARIE V. LEBOUR. <i>With Plates I to IX</i>	810
4.	THE EGGS AND NEWLY HATCHED LARVA OF <i>Typton spongicola</i> O. G. COSTA. BY MARIE V. LEBOUR. <i>With 3 Figures in the Text</i>	848
5.	ON THE AMPHIPOD GENUS <i>TALITRUS</i> , WITH A DESCRIPTION OF A NEW SPECIES FROM THE SCILLY ISLES, <i>T. dorrieni n.sp.</i> BY O. D. HUNT. <i>With Plates I to III and 5 Figures in the Text</i>	854
6.	THE EARLY STAGES OF <i>Nephrops norvegicus</i> , FROM THE NORTHUMBERLAND PLANETON, TOGETHER WITH A NOTE ON THE POST-LARVAL DEVELOPMENT OF <i>Homarus vulgaris</i> . BY OLGA M. JØRGENSEN. <i>With Plates I to II and 1 Chart in the Text</i>	870
7.	ON A NEW BRITISH SEA ANEMONE. BY T. A. STEPHENSON. <i>With 1 Figure in the Text</i>	880
8.	ON THE ANATOMY AND RELATIONSHIPS OF NEW OR LITTLE-KNOWN BRITISH ACTINIARIA. BY E. MARY STEPHENSON. <i>With 24 Figures in the Text</i>	891
9.	MUSCLE-TUMOURS IN THE EUROPEAN TURBOT. BY MAXWELL W. YOUNG. WITH A NOTE BY JAS. JOHNSTONE. <i>With 1 Figure in the Text</i>	910
10.	A NEW TYPE OF LUMINESCENCE IN FISHES. BY C. F. HICKLING. <i>With Plates I to IV and 7 Figures in the Text</i>	914
11.	THE HYDROGEN ION CONCENTRATION IN THE GUT OF CERTAIN LAMELLIBRANCHS AND GASTROPODS. BY C. M. YONGE	938
12.	OXIDATION IN SEA WATER. BY H. W. HABVEY. <i>With 3 Figures in the Text</i>	953
13.	A COLORIMETRIC METHOD FOR STUDYING THE DISSOCIATION OF OXYHEMOCYANIN SUITABLE FOR CLASS WORK. BY C. F. A. PANTIN AND LANCELOT T. HOGGEN. <i>With 6 Figures in the Text</i>	970
14.	ON THE OCCURRENCE OF <i>Onchidella celtica</i> (CUVIER) ON THE CORNISH COAST. BY F. S. RUSSELL	981
15.	ABSTRACTS OF MEMOIRS RECORDING WORK DONE AT THE PLYMOUTH LABORATORY	983
16.	REPORT OF THE COUNCIL, 1924	990
17.	LIST OF ANNUAL SUBSCRIPTIONS PAID DURING THE YEAR, 1ST APRIL, 1924, TO 31ST MARCH, 1925	1003
18.	LIST OF DONATIONS TO THE BUILDING EXTENSION FUND	1007
19.	BALANCE SHEET, 1924-1925	1010-1011
20.	LIST OF GOVERNORS, FOUNDERS AND MEMBERS	1012

### NOTICE.

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for statements published in this Journal excepting when those statements are contained in an official report of the Council.

### TERMS OF MEMBERSHIP.

	£	s.	d.
Annual Members . . . . . per annum	1	1	0
Life Members . . . . . Composition Fee	15	15	0
Founders . . . . .	100	0	0
Governors . . . . .	500	0	0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they receive the Journal of the Association free by post; they are admitted to view the Laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the Laboratory for research, with use of tanks, boats, &c.; and have access to the books in the Library at Plymouth.

All correspondence should be addressed to the Director, The Laboratory, Plymouth.
