Cambridge **Core**

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

Medicine

Books and Journals from
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2018 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in *Parasitology* may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for *Parasitology*. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: Zoonotic malaria transmission – humans are accidental hosts (*Macaca fascicularis* image kindly donated by Cyrus Daneshvar); Chromosomal synteny adapted from Figure 2, Lapp et al 2017 in this issue and Giemsa stained blood film showing mature schizont and early trophozoite infected erythrocytes.

PARASITOLOGY

CONTENTS

SPECIAL ISSUE EDITORIAL

***Plasmodium knowlesi*: experimental model, zoonotic pathogen and golden opportunity?**

Janet Cox-Singh 1

SPECIAL ISSUE REVIEW ARTICLES

The role of *Plasmodium knowlesi* in the history of malaria research

G. A. Butcher and G. H. Mitchell 6

Clinical features and management of *Plasmodium knowlesi* infections in humans

Cyrus Daneshvar, Timothy William and Timothy M. E. Davis 18

Current status of *Plasmodium knowlesi* vectors: a public health concern?

I. Vythilingam, M. L. Wong and W. S. Wan-Yussof 32

SPECIAL ISSUE ARTICLE

Non-human primate malaria parasites: out of the forest and into the laboratory

Axel Martinelli and Richard Culleton 41

CORRIGENDUM

Non-human Primate Malaria Parasites: out of the forest and into the laboratory – CORRIGENDUM

Axel Martinelli and Richard Culleton 55

SPECIAL ISSUE REVIEW ARTICLE

***Plasmodium knowlesi*: a relevant, versatile experimental malaria model**

Erica M. Pasini, Anne-Marie Zeeman, Annemarie Voorberg-van der Wel and Clemens H. M. Kocken 56

SPECIAL ISSUE ARTICLE

PacBio assembly of a *Plasmodium knowlesi* genome sequence with Hi-C correction and manual annotation of the *SICAvar* gene family

S. A. Lapp, J. A. Geraldo, J.-T. Chien, F. Ay, S. B. Pakala, G. Batugedara, J. Humphrey the MaHPIC consortium, J. D. DeBarry, K. G. Le Roch, M. R. Galinski and J. C. Kissinger 71

SPECIAL ISSUE REVIEW ARTICLE

***Plasmodium knowlesi*: a superb *in vivo* nonhuman primate model of antigenic variation in malaria**

M. R. Galinski, S. A. Lapp, M. S. Peterson, F. Ay, C. J. Joyner, K. G. Le Roch, L. L. Fonseca, E. O. Voit and the MaHPIC consortium 85

SPECIAL ISSUE ARTICLE

***Plasmodium knowlesi* invasion following spread by infected mosquitoes, macaques and humans**

Laith Yakob, Alun L. Lloyd, Rowland R. Kao, Heather M. Ferguson, Patrick M. Brock, Chris Drakeley and Michael B. Bonsall 101
