ESSENTIAL READING FOR ALL PSYCHIATRISTS

Handbook of Psychiatry, Volume 4

The Neuroses and Personality Disorders

Edited by **GERALD F. M. RUSSELL** and **LIONEL HERSOV**

The penultimate part of this much-praised *Handbook* deals with neuroses and personality disorders, some of the commonest forms of psychiatric illness even among children and adolescents.

*Clinical matters and practical treatment are considered in detail, and space is also devoted to more general aspects of treatment such as the role of the multidisciplinary therapeutic team

*The repercussions on children of parental neurosis and personality disturbance are comprehensively examined

Handbook of Psychiatry, Volume 2

Mental Disorders and Somatic Illness

Edited by **M. H. LADER**

This volume of the *Handbook* covers the area of psychiatry contiguous with general medicine, and in particular neurology. It raises general issues with respect to fundamental problems of the mind-body relationship, but deals mainly with medical disorders closely related to psychiatry.

Contributors: D. P. Birkett; M. R. Bond; J. L. Crammer; J. Cutting; G. W. Fenton; M. F. Folstein; A. H. Ghodse; J. L. Gibbons; K. Granville-Grossman; B. J. Gurland; A. D. Isaacs; R. Kumar; M. H. Lader; P. R. McHugh; C. D. Marsden; H. G. Morgan; I. Oswald; D. Ricks; M. Victor.

Methodology in Evaluation of Psychiatric Treatment

Edited by T. HELGASON

This thought-provoking volume reviews and evaluates the various methods available for quantifying the success of psychiatric treatment, particularly in difficult areas such as social- and psychotherapy. Five different rating scales are considered, and separate sections are devoted to the use of biochemical and psychophysiological criteria, and to the measurement of social adjustment and handicap. All the contributors are drawn from the member countries of the European Medical Research Council.

Concept and Practice of Therapeutic Teams

Edited by H. DE CLERQ, J. W. POSTON
and JOAQUIN BONAL

The theme of the eleventh European Symposium on Clinical Pharmacy, held in October 1982, was the concept of the therapeutic team and the relative contributions and responsibilities of pharmacists, nurses and physicians to the planning and implementation of drug treatment regimes. This volume of proceedings both reviews current achievements in clinical pharmacy and provides stimulating discussions that anticipate the subject's future development.

Progress in Clinical Pharmacy V

Historical Origins of the Concept of Neurosis

JOSÉ M. LÓPEZ PIÑERO

Translated by D. BERRIOS

Professor Pinero's book is the first in English to deal in depth with the historical evolution of the concept of neurosis and to demonstrate its dependence upon such fundamental medical concepts as cause, function and regulation. Beginning with the ideas of eighteenth-century theorists such as Willis and Sydenham, the author shows how the concept has been constantly modified in response to the theoretical developments of the last two hundred years.

CAMBRIDGE UNIVERSITY PRESS

Australia

Royal Children's Hospital/
University of Melbourne

Director

Department of Child and Family Psychiatry,
Royal Children's Hospital and Professorial
Associate (with title of Professor),
The University of Melbourne

Applications are invited for the position of Director, Department of Child and Family Psychiatry at the Royal Children's Hospital, Melbourne. An appointee with an appropriate academic background will be offered by the University of Melbourne the position of Professorial Associate with the title of Professor. The post is a full-time salaried position and the appointee will be selected jointly by the Royal Children's Hospital and the University of Melbourne.

Applicants should hold a medical degree registrable in the State of Victoria and be a member of the Royal Australian and New Zealand College of Psychiatrists or its equivalent. They should have had training in child psychiatry together with extensive clinical, teaching and research experience.

The position of Professor/Director is a new one and will provide the opportunity for the successful applicant to initiate major developments in child psychiatry within the Hospital and the community and to participate in teaching and research.

The Royal Children's Hospital is the paediatric teaching hospital of the University of Melbourne and is the major paediatric centre for South-Eastern Australia servicing a total population of approximately 4.5 million. It is located in Melbourne, a city of 3 million people.

Salary and conditions of service will be in accordance with the Hospitals Remuneration Tribunal at a rate of Specialist Class 4, currently set at \$A57,340 per annum. An on-call allowance of 10 per cent is also applicable, and the successful applicant will be eligible to participate in departmental private practice arrangements. Assistance with re-location expenses will be available.

Enquiries may be directed to Professor Peter Phelan, Professor of Paediatrics, or the undersigned. Further details of the position and application procedures may be obtained from the Chief Executive's Office. Applications should be addressed to the undersigned and close by Friday, February 24th, 1984. The Hospital reserves the right to accept late applications or to make an appointment by invitation.

Dr. Barry R. Catchlove,
Chief Executive,

Royal Children's
Hospital

25066

Flemington Road, Parkville, Victoria 3052, Australia.

NOTES FOR CONTRIBUTORS

PAPERS Papers for publication should be addressed to the Editor, Professor Michael Shepherd, Institute of Psychiatry, De Crespigny Park, Denmark Hill, London SE5 8AF. Contributors should send at least three copies of the text, tables, and figures. Copies other than the first may be xeroxed. The S.I. system should be adopted for text and figures. A short synopsis of about 50 words should be provided at the beginning of each article. Foreign quotations and phrases should be followed by a translation. Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere.

In addition to longer articles, the Editor is prepared to accept preliminary and brief communications of between 1500 and 2500 words.

Manuscripts must be typewritten on one side of the paper in double-spacing with wide margins. The following information must be given on a single separate sheet: (1) title and short title for running head (not more than 100 characters); (2) authors' names, and (3) department in which work was done. Footnotes on the same sheet should list: (i) the authors' present addresses if different from departments in which work was done; (ii) name and address of the author to whom correspondence should be addressed; (iii) receipt of grants. Authors who would like a reprint address to be printed should include this on their manuscript.

REFERENCES (1) In the text these should follow the Harvard system – that is, name followed by date: Brown (1970). If there are more than two authors the first author's name followed by *et al.* should be used, even the first time that the reference appears. (2) The list of references should be typed in alphabetical order on a separate sheet and should appear as follows: Brown, J., Williams, E. & Wright, H. (1970). Treatment of heroin addiction. *Psychological Medicine* 1, 134–136. Journal titles should be given in full.

Books should be cited as follows: Brown, J. (1970). *Psychiatric Research*. Smith: Glasgow.

ILLUSTRATIONS Only essential figures and tables should be included. *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. Where possible, prints should be trimmed to column width (i.e. 70 mm). *Diagrams* These will usually be reduced to 70 mm wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

PROOFS AND OFFPRINTS Page proofs will be sent to the senior author. Corrections other than printer's errors may be charged to the author. Fifty offprints of each paper are supplied free; additional offprints are available according to a scale of charges if they are ordered when the proof is returned.
